Sathish says

this is the actual greatness guide.

Karthik says

This book has same contents of the ‘Adutha vinadi’ of the same author, which is a better book to read. In the end of the book, they reveal that a book can’t teach, what u learn by going to class! The methods they have mentioned to practise alpha meditation, still I didn’t try myself, as I loose confidence on trying myself by reading a book!
