Angels in the Dark

Lauren Kate

Angels in the Dark Lauren Kate

A 50+ page collection of intense moments and amazing insights from the dangerously romantic world of the **Fallen** series. A party that goes terribly wrong, Arriane on a heavenly shopping spree, Daniel navigating the streets of L.A., Miles taking a step into darkness, an uncomfortable scene at Shoreline, an angel on the hunt, and a deleted scene of a date between Luce and Daniel make up this digital collection, offering a unique glimpse into the world of **Fallen**, a must for any fan of Lauren Kate. Includes a preview chapter of Lauren Kate's newest novel, *Teardrop*.

Heather says

This was an amazing extra to all the characters I loved from the Fallen books!

A Book Vacation says

To see my full review:

<http://abookvacation.com/2014/02/21/r...>

If you've read the Fallen novels by Lauren Kate (and enjoyed them), then I highly recommend you pick up this novella compilation of all the shorts Kate has written. Somehow, I didn't know they existed at all, but then found this at my local library and scooped it up. It's a very short read; very well done, but it took me a minute to wrap my head around the first story because it's been a long time since I actually read the full series. But, these shorts brought it all back, and I loved getting reacquainted with the characters. In fact, I'm planning to re-read the full series again because this rekindled my love for the characters and their plights. It fills in some small gaps here and there, and it fleshes out some scenes in more detail as well, which I know any fan of the Fallen series will just love.

Mari says

I liked it way more than *Fallen in Love*.

FULL RATING: 2,92 stars

What Happened to Trevor: 2.5 stars (hmm, I can't understand what actually happened. Too confusing)

Arrianne's Day Out: 3 stars

Daniel in L.A.: 3 stars

Miles in the Dark: 2.5 stars (it's completely useless, it's nothing new)

Inside Francesca's Office: 2 stars

Cam Goes Hunting: 4 stars (Cam <3)

Luce and Daniel's Date: 3.5 (the end kind of surprised me, it was so unexpected and I liked it)

Yulia says

Honestly I don't even know does this count as a book? It was barely even 50 pages and the edition that I had didn't include at least half of the short stories. I really don't know what to think about these... Mostly they just made me more confused than I already was... Although I did like the one with Shelby and the one with Arriane and Roland.

Lucy (Talk Less, Smile More) says

I can't believe that this is the last book, add-on to this series. I was in need of a quick read and this book was more than enough. Earlier this year I read the Fallen series, and though you don't often hear too many positive things about it, it's one of my favorite series. It's the book that made me fall in love with the concept of fallen angels. I am completely obsessed with angels now, and I intend to read any book that deals with them. It may surprise you, but this book got me interested in the Daughter of Smoke & Bone trilogy. So, I hold this series in high regards.

My thoughts on each short story

THIS REVIEW DOES HAVE SPOILERS!!! But, if you've read the ENTIRE Fallen series, you have nothing to worry about.

What Happened to Trevor: Finally. Finally. Finally! I was beginning to think that we were never going to get the full story. Luce vaguely told what happened, but now I am glad the mystery is put to rest.

Arriane's Day Out: I love Arriane. I think she's an awesome kick-ass character. I loved her since Fallen. But, what I love even more is Arriane and Roland together. They have such a great friendship, especially since they both are on opposing sides. You know, there are two types of Fallen angels. Some are on the good side with the hopes of returning to heaven (Arriane) and others are on the dark side because they don't agree with heaven's rules (Roland). It takes a strong friendship to endure something like that.

It was nice to see how excited Arriane was about Luce returning. Since I know how Arriane actually feels about Luce coming back and reuniting to Daniel, this just makes me want to read the first book again. Now that I've read the series in its entirety, maybe there were some things I didn't notice/understand then that makes a lot more sense now. I can't wait to read that series again. **Also, this was my favorite story out of this little companion book.**

*Plus, they mentioned Luce's favorite flower, no matter what time period she's in. Aren't these lovely?! (White Peonies)

Daniel in L.A: I really don't have much to say about this story. This story deals with the first time that Daniel and Shelby met. You know, when she made it known to Luce that she was "with" Daniel during the time period he was waiting for Luce's return. Nothing happened between Daniel and Shelby, of course. In fact, what Shelby told Luce in Torment is what made me really dislike her. I never liked her after that, even when she did finally come clean about how nothing really happened.

Miles in the Dark: I didn't too much care for this story. I don't too much care for Mile's and Shelby's relationship, either.

Inside Francesca's Office: This was a very short story, and I don't think it really brought anything to the original series. This was just Meh.

Cam Goes Hunting: Cam, another one of my favorites! In all honesty, I liked the majority of the characters in this series.

This story deals with Cam fighting that outcast at Shoreline. I didn't think there was much more to that storyline, but apparently so.

Also, I have a question. I always thought that in Fallen, once it was revealed who Cam Briel really was, that he was leading Luce on the entire time. But, maybe I'm wrong? Did he actually at one point have feelings for her, or was he only after Luce to spite Daniel?

"You are spying on her." The girl jerked her blond head upward, toward the deck where—it was true—Lucinda was seated on a bench, looking striking in a rose-red sweater and her newly bleached hair. She was talking to some Nephilim friend, talking in the open, trusting way she used to talk to Cam. Her hazel eyes wide, her lips pursed with that old sadness. Cam could look at her all day.

(...)

"I'm protecting her from the likes of you," he spat. "There's a difference, baby, not that you'd be able to see it." He stole another glance at Luce.

(...)

"You will"—punch—"not"—knee snap—"get her."

The Outcast gagged as she coughed up one of her teeth and spat blood across Cam's T-shirt.

"Spoken like someone who never even had a chance."

He punched her again, right in the eye. "I did. You hear that, Outcast? I may have lost it, but I used to have a chance."

There are two ideas I get from this. 1)Cam is lonely and he misses how close Luce and him had gotten. Or, 2) at some point Cam really did fall for her, but just left it alone because he knew they would never happen. Either way, it's kind of sad. Poor Cam.

Luce and Daniel's Date: I don't know when this story took place. But either way, it didn't really add anything either to the original series. Sure, I love the interactions between Daniel and Luce. I love them together, but this was just lacking.

(view spoiler)

Overall: *This was a very nostalgic read for me. I loved jumping back into this world and loved remembering the characters that I fell for in the Fallen series. I felt that this book filled in all those missing pieces and now we're able to get the whole picture.*

Nina says

A nice addition to the Fallen series. Took me less than half an hour to read but I still quite loved it.

Madi (TheBookNerdDiaries) says

2.5

This was okay but the fact that the last 30% is an excerpt tell you how short the book was.

RTC.

Emmy Ruijven says

Heeft helaas niet veel toegevoegde waarde aan de serie en is ook nog eens erg dun. Ik vond fallen in love wat dat betreft veel beter. Ik ben blij dat ik hem van de bieb heb geleend. Toch fijn dat ik hem nu wel heb gelezen, al had ik er meer van verwacht.

Céline says

geen meerwaarde aan de serie.. maar we weten nu wel wat er met trevor gebeurde... ongeveer toch... niet echt een aanrader

Silvy Herondale says

3.5

Elisa Impiduglia says

Letto in digitale in anteprima (l'edizione italiana esce il 12 Novembre) grazie a Rizzoli, e devo dire che mi è piaciuto ma non del tutto.

Ho trovato inutili le novelle di Miles e Francesca, ad esempio. O l'ultima, perchè avrei voluto qualcosa di più con Luce e Daniel e invece mi è sembrato che nulla aggiungesse alla storia che già abbiamo letto.

Invece le altre quattro novelle mi sono piaciute molto, e ho apprezzato parecchio il prologo di "Unforgiven" perchè il mio preferito è sempre stato Cam e finalmente stavolta tocca a lui.

Nel complesso porta a casa tre stelline!

Janell Wheeler says

This is just a fun collection of about 8 really short stories. Maybe a 30-40 minute read tops. It was fun just thinking back in time to when each of these stories took place and seeing how they fit into the lives we glimpsed. Kind of makes me wish I had these in hand during the reading of the series. Either way it is a fun way to spend some time with the group again, even if it is a short little hop.

Theut says

Non conoscevo i protagonisti e le loro storie, mi serviva un libro fantasy e questo mi è capitato tra le mani. Si legge velocemente e i racconti non mi sono dispiaciuti. Valore letterario naturalmente 0 (lo so, sono una persona orribile!).

Giulia ❤? says

Molto carino, peccato sia stato così corto! D:

Mary says

This is a collection of seven different short story. I really liked it. It was nice hearing more of the behind-the-scenes stories. It really gives you more into the Fallen series besides just the main characters.
