The steaming ‘Dominant for the Night’ is book seven of the ‘For the Night’ erotic romance series of eight novellas. While designed to be read in sequence, each has its own self-contained erotic story. The series contains adult themes ~ Suitable only for the over 18’s.

My name is Logan Steele. I’m devilishly handsome, seriously ripped, well hung, charismatic and highly sexed. Women just can’t resist me. So when I lost my job in the construction industry and was struggling for cash, I decided to put my assets to good use.

By day I’m a private personal fitness trainer. By night I’m a high class escort.

## **Dominant for the Night**

It had been fourteen months since I slept with Eve Myers, during her “Biker for the Night” fantasy. Fourteen months since I’d last slept with a client. She’d been the last I’d taken before signing them all over to my colleague Trey Douglas. I was resolved that I’d put those days behind me, that I was “going straight” with my personal training, that I’d never take another booking again. That was until I received an email request out of the blue, where my services were required to be a dominant for the night, to educate my client in the ways of BDSM. Now that was an offer I couldn’t refuse. It was time to bring Logan Steele, renowned escort, creator of fantasies, bestower of mind blowing orgasms, out of retirement. The only thing I knew for sure was that once this night was over, nothing would ever be the same again. This could be the appointment that changed my life. I was risking everything that I held dear and I had no idea whether it would change everything for the better, or for the worse.

The novellas are told in alternating points of view of Logan Steele, and his client, or clients. You can pick up any of them for a complete short burst of heat, however in order to fully enjoy Logan’s development they should be read in the sequence that they are released.

This is the booking of a lifetime. This one could make or break Logan's future. This could be the best or worst – all depends on how it goes. I don't think I could have loved this booking anymore – Logan truly amazes me more and more at every turn, and to finally see the real man behind the name – well let's just say he has completely captured my heart and can dominate me anytime. He truly puts everything into this booking – his heart, his soul, his future.

When the offer of teaching someone the art of BDSM, Logan can't believe it and snatches up the opportunity straight away. What does this mean for Logan and Summer though? Has he gone one step too far? Find out soon in this amazing novella. Until next time Loganites!!

Well, well, well book 7 Dominant for the Night by CJ Fallowfield is full of surprises and revelations this time around. It's a tough one for me to review without spoilers so I will do my best.

Set 14 months on from Biker for the Night Logan and Summer Bresford have been 'dating' whilst she continues her acting career and Logan has been solely working on personal training; no clients have been seen at all. He and Summer have had zero physical encounters and have been building up the trust in their relationship, as she deals with the issues of him being a former escort and her internal debate of whether she can accept his Dominant nature in the bedroom, he understands but feels frustrated to say the least. Their growing as a couple as he's opening up to her like no one before and she's letting her guard down and seeing how much he truly cares for her. Then, out of the blue, Logan Steele receives an email from a client to introduce them to the world of BDSM: " I want to be educated in the ways of BDSM, for you to show me what it means. I'm willing to submit to you and have you do with me as you wish..." it calls to him on his deepest level: his need to train a submissive and be in control. What does this mean for Summer and Logan if he goes through with this booking and what will happen next for the pair??

The client is in question is Mandy, she's beautiful, dark haired but is nervous in the world of BDSM and wants to be introduced to this world for her own needs and desires by a Dominant, professional but is scared of the possible pain and not being enough for her partner if it's turns out she doesn't like this world. Her partner has a dominant nature and she wants to fulfil his desires.

After an internal debate he takes the booking as he has to help this client and make her aware that no matter the outcome she's more than enough for her partner. This encounter has more heat and passion than any before, the cuffs, crosses and hot wax made for more than enough steam coming off my kindle than ever before: this is Logan at his most comfortable and primal; his way with words and brandishing of punishment makes you want to leap in and join in!!

"You have no idea how sexy you look lying here, waiting for me, panting for me. You've got me so hard, angel. Its taking every ounce of self restraint not to bury myself in your snug welcoming c%%% right now." His client is left throughly satisfied and enlightened; her eyes opened to her true nature and that she will be more than receptive for future encounters with her partner in this new world of pleasure, pain and submission from her.

The next morning leads to many surprises and not all for the better for Logan, he's bares his true nature to this woman and he hopes she can feel how deeply she's touched him. How does this leave things between him and Summer now he's had this night with Mandy? I truly was shocked and an emotional wreck reading the last few pages and I can't wait for Actor for the Night to discover what happens next!!

I was given an ARC FOR an honest review.

WOW, WOW, WOW!!!! This one, by far, is the best one in the series.....yet! And I say yet because C.J. Fallowfield has a way to make her stories even better along the way. My emotions were all over the place on this one. To start, I really was a little ticked off at Logan for taking another client after he promised Summer he ended it! I kept thinking, how dare he do that. Needless to say I was furious with him. But then Mandy ended up changing my mind, I then realized why he did it and became happy with Logan again. He makes everything so sexy hot! He touches my heart in so many ways on how he can go from Dominate Lucas to caring and loving Lucas. Yes I said Lucas, Lucas Logan Steel to be correct. He is a man with many names and talents. He was made to fulfill Summer's dreams. But then she does something that had me furious with her. How could she do that to him after he told her what he did! Some not so nice names came to mind for her. And once again I went from furious to understanding, not agreeing with her decision, but understanding where she was coming from. To see how much she touched Logan's, I mean Lucas' heart with that song almost brought tears to my eyes. They belong together. But there still is another book to this series so who know what C.J. has in store for us. So you see, my emotions were a roller coaster ride but it was one heck of a ride that I completely loved.

Holy Mother of God, I cannot believe this book! It really took me by surprise. I am so sad to say that Logan Steele has finally left his way's of being an escort and it's all due to LOVE, but he has one last duty to fulfill and that is to be a Dominant for the Night.

No one ever thought, especially not Logan that he could fall in love with anyone. He loved his job way too much and enjoyed pleasuring women. But that all seems to have come to an end when he finally runs into fate and the last thing he wanted was to fall in love. But when Summer comes barreling in his life, he just can't help but to fall in love with her.

In Dominant for the Night Logan has decided to show "Mandy Fullerton" what it feels to be submissive. He loves being a Dom and wants nothing more than to get to show a woman how to be a sub to him.

I'm not going to give away what or who is in this story but Logan proved that being a Dominant is not all about pain. Yes, he inflicts pain but pain that is pleasurable. Can Mandy handle Logan, does she like the whole Dominant side of Logan?

As I continue reading Logan's books I feel like I fall more in love with him in every book. I loved him since the start and I'm going to end up loving him when it all comes to an end. I can't wait to read Actor for the Night since it will be the last book in the series.

This series is well worth reading. CJ has become one of my favorite authors to read and her books always hook me no matter what. I could never tire of her writing and her stories.

Total 5 star read for me <3

~\*~ Obsessed by Books arc copy given in exchange for an honest review~\*~

14 sex free months...14, that's right Logan Steele has been SEX FREE for 14 MONTHS! Now pick your jaw up as we can all appreciate how difficult that must have been for our sexy, pant melting epitome of all things orgasmic. Logan has stepped back to woo his girl, he has used the time to build his personal fitness business and focus on himself rather than his alter ego. With Summer's acting schedule and her career blossoming they haven't managed to spend as much time together as they hoped.

So understandably when he receives a booking to be Dominant for the night he quickly accepts.

"I want to be educated in the ways of BDSM, for you to show me what it means. I am willing to submit to you and have you do as you wish with me. On the condition that you take it gently as it's my first time."

I could envision poor Logan struggling with the tenting in his trousers after reading that! Have I mentioned he has not been sexually active for 14 months...give the guy a break! And so we welcome back Logan as he prepares the ultimate fantasy for the night for one lucky lady. Set in his playroom Logan plans the night meticulously as an introduction to the kinky world of pleasure and pain, without pushing the boundaries too far. As a good Dom he sets out to map the limits of his sub as the scenes require total trust and respect.

The sex scenes are...well...I'm speechless! Wax, ice, restraints and all manner of kink is in there all perpetrated by the gorgeously sexy Logan. Every woman's fantasy...sigh. You will not be disappointed by his moves even though he had retired them for a while, he steps back into role with ease. Honestly the steam factor is off the chart and is an ideal introduction to the BDSM world for those that are curious!

Summer is aware the time span has pushed both of them to the limits within their relationship, her busy scheduling her excuse not to let her guard down around the man who has the power to break her. Not dealing with her past in which she was almost raped, Summer has left her feelings of hurt overwhelm her thoughts as she keeps Logan at a distance. Running scared from his dominant side she is struggling to accept Logan's past and his nature.

"I had to be certain, and I had to be even more sure that he had really left his escorting days behind. I wasn't the sort of girl to share. I wanted the fairy tale Prince with a happy ever after."

So will this last booking of Logan's shatter their fragile relationship or will it be the trigger of something more? You better go read it to find out ;)

A smoking hot swoon worthy 5 star read.

### **Red Cheeks Reads says**

We once again join Logan/Lucas and Summer in their whirlwind, hot, drama filled but kind of beautiful

romance! This time we will discover of Summer can handle Logan/Lucas in all his ways....including his love for dominating in the bedroom. Can shy, sweet, pure Summer take a step over to the dirty, sexy, BDSM side and finally believe her and Logan/Lucas are meant for each other?

***“My name is Logan Steele. I’m devilishly handsome, seriously ripped, well hung, charismatic and highly sexed. Women just can’t resist me.”***

I have to be honest and say this wasn't my favourite of the novella series but I did still enjoy it! It was definitely another sweet, hot, quick read and I liked that this was purely focused on just Logan/Lucas and Summer and how they were trying to make their relationship work.

***“I want you, Sir,’ I whispered, ‘How much, Summer?’ ‘Like I’ll die if I don’t have you inside me soon,’ I whined, like a moody teen, beyond frustrated.”***

As always, I really loved Summer and Logan/Lucas. Logan/Lucas was sexy as hell, dominant but so sweet with how much he loved Summer and how badly he wants to be with her, my heart actually aches when he worries about her leaving him. Summer was still sweet and pure. Shy and innocent but wanting to be brave enough to try new things with Logan/Lucas. She frustrates me a little with how little belief she has in him down times, when I think he has proven himself quite a lot now.

***“You have no idea how hot you look lying here, waiting for me, panting for me. You’ve got me so h\*\*\*d, angel.”***

The story definitely has its super hot moments, that's never lacking in these books and it is always super intense and sexy! This story lacked a bit of drama for me this time, or that little somethings extra besides the sex to keep me as gripped as the others. And the ending annoyed me a little as I felt we had been there before with Summer.

***“Once she was mine, if she’d accept my orders and come into this room willingly, I could increase the levels of pleasurable pain I inflicted on her, as she’d trust me.”***

But I still can't wait to read more from this couple and I am on the edge of my dear hoping these two will get their happily ever after...because they are having a rough time of it at the moment. I'm keeping everything crossed.

okay Logan Steele makes me hot and bothered but Lucas makes my panties dripping wet while at the same time steals my heart.

Logan has been the perfect friend/boyfriend in waiting for 14 months he's been patient, he's not forced Summer into anything and you can't help but root for him. Summer and Logan have been working on trust and friendship, Logan has been helping her feel better about herself, more confident. They working out

together and the contact is just about drive him crazy ,well he has just about reached his sexual peak he doesn't know how much longer he can wait, then he gets a call from a client which isn't too odd seeing how he gets them all the time begging him to come out of retirement but he cant, he doesn't want to til he gets that one call. A client seeking training in BDSM , Logan's weakness. It's her first time trying it and she has requested THE LOGAN STEELE. How can he not reply, how can he not help this client. Then there's Summer this one fantasy will make them or break them, his he willing to take it that far, can he live with outcome. Summer shows us her strength and vulnerability in this book which makes me like her even more. We are also introduced to Lucas who is just as yummy as Logan, he shows a tender and loving side and we see his vulnerability as well. This book has it all. if you want sweet, loving, sexy dominate and hot sex then you must read this book. I couldn't put it down and it gave me tingles. now I have to wait patiently for the next one, and I'm kinda of sad cause I don't want it to end. 5+ stars as always.

Complimentary copy provided by the author in exchange for an honest review.

You might think C.J. Fallowfield is crazy given she decided to release two books on the same day (check out her other release The Temptress, you won't be sorry!). You might think she's stretching herself thin, maybe the quality might suffer because she's spreading herself a little thin. I can tell you right now, that is sooooo not the case. In this seventh installment of the For the Night series, Logan is back, and he's better than ever. Why, you ask? Not only does Dominant For the Night feature one of my favorite tropes in the genre, BDSM, he's doing a scene with none other than...(view spoiler).

For those that don't know who she is or why that is important, stop. Start at book one and go from there (yes, they can be read as standalones, however for maximum enjoyment, start at the beginning!). Logan has completely left his escort life behind and is one hundred percent committed to a future with Summer. The real test though is whether or not she can accept his desire for a bit of kink. The once virginal Summer is venturing into unknown territory, will she be able to put aside her fears for a chance at happiness with Logan? What if she finds that she actually kind of likes it?

Once again, Fallowfield has delivered a story that is HOT. Admittedly it's not nearly as kinky as some of the stuff I read, but honestly, that wouldn't have felt right in this situation. Logan's evolution over the series has helped him to understand that in order to secure his future with Summer he has to change, changes which he ultimately finds make him a better man. What's better than a sexy, dirty Logan? An attentive, sweet Logan

whose only desire is to make Summer his.

We only have one book left in the series and I'm both excited and sad to see what Fallowfield has planned for the final installment. I've thoroughly enjoyed this series and Logan Steele, no matter what name he is going by, will always be a favorite of mine.

Oh CJ you've done it again! I just can't get enough of your stories and style of writing. Lucas you are a strong, handsome dominant man with an absolute heart of gold. To wait 14 months for Summer you need a medal! Summer the Virgin has grown with confidence but still has that vulnerable side. I think so far this is my favourite in the series and only one to go - sad thinking it will soon be over! Well done CJ I loved it! I was given this book as an ARC but I would still give it 10 stars out of 5!

How can a series that starts with an explosive story just keep getting better. These Logan Steele books are the hottest steamiest stories you're likely to read for some time. The Dominant being my favourite thus far with Logan being his usual suave self with a special someone as his date. Very well written and edited. With a finale not too far off will Logan and Summer get their HEA. Going on past books I'm sure C J Fallowfield has something extra special up her sleeve. I was given this ARC for an honest review.

\*\*ARC provided for my honest review\*\* A MUST READ SERIES!

Logan Steele hasn't had a client in 14 months...because of his feelings for Summer. But when one of his favorite clients e-mails him with a fantasy of being dominated for the night will he be able to resist? CJ has done an amazing job with this series and with Dominant for the Night she does not disappoint.
