Housewife Bayli Lane

I'm done playing the delusional housewife who pretends she doesn't know what her husband is up to in the wee hours of the night.

I'm finished with the wishful thinking that Linc could ever love me again.

My name is Rose and I'm about to give Linc a taste of his own medicine.

Warning: *This is a contemporary romance. There is sex, profanity, and a whole lot of other things that shouldn't be viewed by anyone under the age of 18 or anyone that is offended by the list above.*
