King Of Hearts Natalie Bennett

His secrets. Her sanity

~~The road to hell...~~

Well, there is no road to hell.

I already live there.

I was forced to partake in a rigged game of seduction, manipulation, and murder.

Mateo Remmington is my formidable opponent.

He makes the devil look like a saint.

He's immoral.

He's ruthless.

He's a **goddamn** king.

King of a clandestine empire who sits on a throne covered in innocents' blood.

I've become his obsession.

He's becoming my deadly addiction.

And if I make one wrong move he'll end my life.

Leticeia says

Ok, so here's the thing. I'm torn on how to rate this book, because on the one hand I'm still just as confused as I was with book 1. But it was intriguing enough that I at least want to read book 3.

This story was all over the place, I'm really hoping the author can tie this up in book 3 and make this incredibly confusing story end well. Because it felt like random info was being said and pushed at us and instead of clarity- I'm even more stumped.

Incest?! Where did that come from?

If nothing else, I'm clear that Elena and Mateo have lots of sex. Because that seemed to happen every other paragraph. Along with more random 'suspenseful' random crap.

Also, there were quite a few grammatical errors. Either way I'm giving the story 3 stars. Because if nothing more it's a train wreck I'm willing to complete. Maybe I'm interested in finishing what I started... I don't know.

Snow says

You fuckin know you have an awesome read in front of you, when you finish it in one sitting...

King of hearts delivers more of the devious masterplan the notorious Vice city's kingpin **Mateo Remmington** has for his prey and masterfully caught pawn **Elena Rias...**

Old money roulette was a game without an end. Survival of the richest and the corrupt. It was a gateway to an elite life. I'd been a participant for seventeen years. Day in and day out, I calculated, manipulated, and decimated to get what I wanted. She wanted answers; this was how she would get them.

He's testing her, preparing the territory for her uprising to the role he orchestrated for her...

And she seeks the truth...but for her to be able to handle the truth, she needs to free her dark side, she needs to let him in, to devour her completely...

Is the truth she seeks and the answers about her twin sister's fate worth it all?

Is the role she was given really the ultimate goal she innerly trives for?

Can she surrender to him to fully uphold the name and the position he's given her?

I was going to lead her, forcing her to become the woman I knew she could be. The queen of diamonds to my king of hearts

And the game has only just began...

Absolutely fantastic, depraved, suspenseful, obsessingly captivating, vile and dubious....this story simply controls your senses from the begging to the end and you can't suppress the need to want and demand more...

Expresso-Girls Just Wanna Have Books ; A Mafia Romance says

I've never tried to read a book as slow as a three year old learning to read, as I did with this story!

KOH is a fast paced delicious morsel of mafia intrigue and perfection! Allow me to warn you, this story is uber DARK and violent. If those items are triggers for you, please DO NOT PASS go to collect \$200. Mateo is a KINGPIN. If you rearrange the word KINGPIN, it spells NO MERCY. Not literally but figuratively lol!

What I want to mention with lots of pride, great glee, and no small amount of jealousy, is the chemistry and physical relationship between Mateo and Elena. It's barbaric, raw, totally possessive! Readers, Mateo is some sort of epic deity from another realm! I swear his prowess and his powers are otherworldly! I cannot adequately convey without sounding like a blubbering stalker how utterly bad and perfect MY Mateo is in this story!

Five stars!

Disclaimer: This review is my personal opinion of this story. As usual my personal opinion should have ZERO influence on your experience with the story. With that being said, read, enjoy, and leave a review!

ARC BOOK REVIEW

Release Date-9/6/18

OMG! Loved "King Of Hearts" like so much and I feel like I was waiting forever to read this; I was so excited to get my hands on this second instalment in the fantastic "Old Money Roulette" series.

And sigh; it was over much too soon for me as I raced through this in record time.

This starts off exactly where we left events previously, and almost from the get-go we are ramped right back into the action with shocks and turns galore.

Mateo is in True King style as he attempts to mould and manipulate his Ley all in the name of shaping her new destiny as his queen; strategising events to play this game exactly as he chooses.

Taking Ley along for the ride; while giving her the allusion of choice when really her destiny has already been preordained by yours truly.

When the cards finally fall Elaina is going to be right by Mateos side; The dark Queen to his Corrupt King. And my god this book was decadent and depraved personified; exactly what I have come to expect and adore from this particular author.

I just never knew where events were going to go next; This author has such a malignant mind that when let

free it is honestly a touch unnerving; I was almost afraid to turn the page at times.

But in the same breathe, there's also such a compulsion to soldier on here; as this is also such addictive reading that once started is impossible to put down until the final reveal; I was glued with an almost sinful sickened delight.

Both Elaina and Mateo are such flawed individuals both with multifaceted personalities.

Mateo being much more transparent than Elaina; who herself hides behind a facade of innocence concealing the cracks beneath her surface.

Mateo makes no apologies and himself stands in full view; almost daring his friends and also his enemies to judge.

while at the same time lending his assistance to Elaina as he attempts to get her to embrace her Immorality wholeheartedly.

So in "King Of Hearts" for every answer, Elaina gets another pops up in its place.

This is full of secrets and lies and is so fast paced it definitely kept me on my toes; feeding me just enough information to titillate but not ultimately satisfy my complete curiosity.

This was also scorching in terms of heat factor with some serious chemistry between our two lovers.

I should also probably mention that this story doesn't pull any punches; it's graphic and disturbed with torture that has an almost sick normalcy to it at times; that was just so wrong it was actually right.

This also straddles the dub-con line like a lot, so if this is a trigger; probably best to give this a wide berth.

My own personal morality radar when it comes to my fiction seems a bit screwy and I've found the more depraved the more I seem to devour; this I absolutely inhaled.

I'm so dying to read the next part of this addicting saga; So glad I haven't long to wait, I will be on pins till I get my hands on the next piece of this perplexing puzzle.

I'm now convinced Natalie Bennett could write Christmas crackers and I would appreciate and revel in the almost neurotic normalcy she depicts so well; I've yet to read anything of hers yet that I haven't adored.

This is one series I can't recommend enough; Give it a go if your stomach is strong enough for the task at hand that is.

Thank You to the Author for providing me with an ARC of "King Of Hearts (Old Money Roulette #2" of which I have reviewed voluntary.

All opinions expressed are entirely my own.

Lita Thomas says

King of Hearts(Old Money Roulette, #2) by Natalie Bennett continues the game that Elena knows she is involved in but doesn't know the rules or the players. Every time she thinks she is going to get an answer she is stopped at every turn. If it isn't Mateo distracting her with sex than he is always one step ahead of her, leaving her a box with a surprise that has her mind reeling. She doesn't know if she is coming or going. All she knows is that she is falling more and more in love with Mateo and the web of lies and secrets. Mateo is ruthless and he doesn't mind killing people in the most creative ways. He is the Puppet Master of this game and he is determined to play it his way even if it destroys Elena in the process. This story is wild. I like Elena have no clue how this game is played and what is the end result. And like her I will see this through to the end. I can't wait to get all the answer to her questions. The sex is mind blowing and Mateo definitely knows how to work it. I am looking forward to the next installment of this story. I give this story 4 stars.

Charlie ☆ WLTB Blog ☆ says

This is one of them books when it lands on your Kindle you just have to read right away. After the ending of book one, I needed to dive right into the book is fast-paced I like Mateo & Elena together their great and the chemistry is off the charts hot. I really do not want to give anything away I know have more questions and I cannot wait for the final book. So many twists and turns in this one so much going on. I am not sure where this story is going to go or how it is all going to end. This book will keep you turning the pages the plot is so good. Like always, these books are so well written you find them hard to put down once you start.

Nerdy Dirty & Flirty says

Way more questions than answers and an ending that leads you to believe book three is going to be ugly.

Mateo is obsessed, Elena is addicted and together they are dangerous and explosive. While Mateo is always many steps ahead of Elena he is giving her small pieces to this puzzle that is her life. The game of Old Money started long ago and Mateo knows how to win it. The secrets that are revealed are not nearly enough to be satisfying and only end up leaving more questions.

Book two is just as dark and bloody as book one. The relationship between the King and Queen is fast and furious with both players not trusting the other but needing the other. Elena grows stronger every day and slowly comes into her own, but her endgame may be the end of her. She is a mess of emotions and Mateo is only making it more difficult. Instead of straight answers he plays her body and feeds her lust. The reader is not quite sure what his end game is but I don't think it is going to be good.

Blistering hot, crazy fast and savage tale that has sucked me right in. Luckily it is June because I can't wait for the last piece of this insane trilogy. I have no idea where it is going to go but I imagine whatever the future holds for our characters the path will be paved with destruction.

Di Covey says

This series is one poker face mind game! I'm on the edge of seat, hoping I'm hit with something really twisted. I mean, I have my own theory, and I hope it's not what I think, because it's been written so many times. I guess I'll have to read the third book to see. I actually have no choice. I'm wrapped up in this game just the rest. I need answers.

I love my heroes a little crazy, a little psychotic, and a whole lot of committed to their obsession. It's twisted love and my favorite kind. I'm loving Mateo and I'm obsessed with finding out all his secrets.

I wanted to brandish myself into her flesh so she'd never forget who it was that she belonged to.

Khanique McDaniel says

I still don't understand what the hell is going on.

This novel reads like a patchwork quilt. A bunch of stuff are thrown at you with no real flow. Everything seems to be patches of time filled with random ass stuff followed by a murder and sex. It is literally murder. mayhem. sex. In that order.

Some of the murders don't even make sense!

I still don't understand Mateo other than the fact that he is ruthless with a blatant disregard for everything. He will literally kill you for staring at Elena and I am no closer to figuring out why and how she is so okay with all that's happening.

With the exception of those in their immediate circle, expect everyone you meet to die just for breathing the same air as Mateo Remmington.

I don't trust any of the characters and I still don't know what Elena is planning because all she has done so far is get instructed and fucked.

Apparently we will have it all in Ace of Spades so you know I copped that in a hot minute because I actually want to know what this Old Money Roulette is and just plain what the hell is going on!

♥?Fantasy Land Blog Book Reviewer♥? says

Oh man, just when you think you have this book kind of figured out Natalie throws you more twisted and turns. You have to read the first book Queen of Diamonds first, if you don't you will be extremely confused.

Elena is meant to be Mateo's Queen and he will do everything in his power to make that happen. This book will show you just how far he will go. Be prepared for sex, gore, drugs, mystery, and secret boxes. I couldn't put this book down. And I can't wait for the next book Ace of Spades.

Brit says

I freaking love Natalie Bennett's work and writing just this wasnt my favorite series by her. I just need it to be a little bit darker and more twisted thats all

Erika PBookHavenBookBlog says

"In a million ways for a million different reasons that would never make sense to anyone other than the two of us, I wanted him."

Mateo is my favorite type of bad-boy villain....he exudes danger, sex appeal, and just off the charts hotness that he crept in my bones and wouldn't let go. At times, terrifyingly intense, yet you are drawn to his character like a moth to a flame and I didn't want this one to ever end!! Darkly intoxicating and flaming hot!! I thank the Author for providing a copy to review and I cannot wait for what I anticipate to be the epic conclusion of this series!!

"She was a pristine canvas I could paint however I wished. She had a past full of pain that could only make her more cutthroat. My twisted angel held so much potential, all I had to do was dirty her up a little."

~~~Erika, Book Haven Book Blog

### **Philomena Callan Cheekypee says**

As soon as this dropped onto my kindle I had to jump in. Book one left me with so many questions and now I have even more questions than need answers. I'm so glad we don't have to wait too long for the conclusion of this trilogy.

Well what can I say. I hadn't even read the blurb before I jumped in. I just knew I had to read it. Mateo and Elena are so good together. The chemistry is hot between them.

This is a fast paced read. I can't say much about the storyline. You just gotta read these books. The twists and turns were so good. I read this in one sitting in the garden with a tub of ice cream. I seriously cannot wait for the next book. If you like dark twisted reads then go grab these books.

---

### **Renee says**

Book 2 of this series is an even crazier, edge of my seat, couldn't put it down ride than book 1! I can't even believe I said that considering how much book 1 brought it. Natalie Bennett knows how to weave shockingly twisted addictive stories and this managed to exceed my already high expectations.

It's a fast paced story, one that leaves you questioning what the heck you just read, why you love it so much and needing book 3 immediately! The character development and world building is fantastic. Not for one second did my attention leave the pages. Reaching the last pages almost made me cry because I need to know what happens next!

This book is the ultimate mind game. It is deliciously dark with so many cringe-worthy moments. The suspense was to the point I almost wanted to put it down and run away because I didn't know if I could handle anymore. Yet Natalie Bennett is incredibly skilled when it comes to holding the reader emotionally hostage. This book is one crazy ride but absolutely worth it!

5 stars for a perfectly crazy, emotionally captivating read! Highly recommend!

---

### **Eve Recinella (Between The Bookends) says**

Mama Mia...I don't know where this author comes up with the plots for these books. She scares me a little to be honest (lol). So this one picks up where we left off in book one. We are given a few more twist and turns as Elena and Mateo continue to play the game of old money roulette. Truthfully, I have no idea where this is going or what the end game is here. Every new twist and turn ends in even more questions. I seriously need some damn answers. Thankfully, I don't have long to wait for the conclusion.

The writing remains fantastic. It is a relatively short book, so the pace moves along at a good clip. The plot remains very engaging. There is torture. There is murder. There is blood...lots of blood. There is a good cast of secondary characters. No OW or OM drama. The sex scenes are hot, and both main characters remain twistedly intriguing. Not much more to say than that. Bring on book three...

---
