Another slim book which may be of interest, from a more spiritual/cosmic consciousness point of enlightenment is:

‘Beautiful Road Home’ by White Eagle, 978-0-85487-088-2

“Do not be disappointed. Do not be dragged down by the mind of earth, by that dense, dark matter in the mind. when you are ready, when you can be trusted, your master will come close to you, and you will be instructed on the inner planes how to go inward and find the true spirit, the light of humanity, the light of the world . . . . Then the soul has complete control of matter and is so spiritually evolved that it only wants to use its power to love, to help, to heal, to lighten the darkness of all its brothers and sisters on earth and in all the confines of dark matter.” pp76-77

What I want to remember from this book is found on page 200...

"Nan had taught me not to pay attention to the past, since it was unchangeable, and it seemed like a good, all-around life lesson. Some of us hold on to the past with a ferocity that defies logic. The fact is, the past only serves to drag us down. **Today** is what matters. To be present. To be in the moment."

Lisa Williams is a beautiful, engaging and entertaining human being. I had an extraordinary reading by her. Here are the details: I had been to two of psychic John Edward's events. At both events, some of the very same information came through about my daughter's deceased father. However, I did not connect with the information quickly enough so that it was validated thoroughly. I always felt that I needed to acknowledge Rick's messages, and it was finally through Lisa, that I was able to do that. Information 1. The first piece of information that came through which was significant, at both John Edward's events and Lisa's, was that a male had died under questionable circumstances, of a gunshot wound to the head. The crime was perpetrated in an execution, or "military" type of shooting.

Though originally listed as a homicide, the Chicago Police Dept. refused to respond to my FOI (Freedom of Information Act Inquiry) and provide the homicide file. Instead, because they never solved the case, they relegated the matter as a "suicide."

I wrote a book for my daughter, who was just 18 months old when he died (Russell Square Park).

2. The next information, which was critical, and, again, came through at the other events and now yours, was that he had a severe limp, pain in

his head and jaw. But once I acknowledged that, even more information came through:

3. He was saying that he didn't run fast enough, and that very well was him trying to run from the el train that ran over him at the age of 16 (prior to his death, which was the cause of the physical pain that he lived with). He was not expected to live. His girlfriend at the time was killed. As a result of the accident, he had a metal plate in his head and in his leg, causing the limp. His jaw was also a near-constant source of pain for him.

4. He suffered from depression, and at the time, little was known of depression. But from what I know now, he did indeed suffer from depression.

5. Many other details, such as how well I knew him, how close we were, etc., were all exactly on point. His proclamation of "I did it my way," was exactly the sort of thing that he would say.

6. My mother also came through, who had died of cancer. She sent a birthday message to me - and Lisa recited my exact birthday! We were very close. I was the eldest of 5 and regularly cared for my siblings. When she sent the message through you that I should not feel guilty about not being around at the very end of her life, it was exactly what I'd always felt sorry about. But she validated how I tried to help her as the oldest, not to be a burden on her, but an asset. It was comforting to hear her message, and just the sort of thing that she would say. She was an amazing woman, way ahead of her time, and just 49 years old.

7. My stepfather was the "strong, silent type" that came through. It would be just like him to say that he was the awful one, and my mother was the good one. He had a lot of good qualities, but their relationship became very strained through the years, as she outgrew him, despite the fact that he was many years her senior. She had embraced spirituality, which he did not understand, and seemed to have no interest in.

It is very comforting to know that Rick did not commit suicide. I knew that he would come through and clarify that, especially since it has been on my mind for so long.

When I was researching the book I was writing for my daughter, it was heartbreaking to include that information - the possibility that he may have taken his own life.

Watch for Lisa with a new television, which we understand is in development.

She is very hands-on - so if you have the opportunity to go to one of her events, it is highly recommended. Here is a book that I wrote on the father of my daughter, who "showed up" at the gallery reading:

Russell Square Park: A True Love Story

I loved this so much! Lisa's gift isn't something all of us can relate to, but like any person, she struggled a little to get where she is. I loved reading about her sometimes-rocky past, and watching her as she found herself and honed her skills. I definitely recommend this.

Okay so this isn't tough literature. I read this book over the period of 2 nights before I went to sleep. I think Lisa Williams is cute on TV, and I enjoyed this book because I could picture her saying everything that was written. It is interesting because she is interesting (to me at least). It's simple and unpretentious, and makes a good light read.

Interesting book, even if you are generally into that type of thing. It certainly got me thinking and I enjoyed the way the author wove her life experiences into her growing knowledge that she was psychic. Worth a look even if you aren't a believer!

Loved this book! I watched her show on lifetime and loved it! My mom and I went to hear her speak and we got to meet her. She is a lovely lady and very "real". I can't wait for her to write another book.

I read this book in anticipation of seeing Lisa Williams show in November. I hadn't heard of her before seeing her name on the list for a local venue.

For me, much of the book dragged, but there were some highlights. As another reviewer wrote, one of the best reminders was to "leave the past in the past."

I found it interesting how many different occupations she tried before becoming a full-time medium. The book itself seemed choppy and jumped around more than flowing. I enjoyed reading about the progression in Ms. Williams life and her examples of helping people. Because it wasn't hard to read and I enjoyed the content, I gave it 3 stars.

However, I'm hoping that seeing her in person will be more rewarding than reading the book.

Update: seeing her in person was a disappointment because her performance seemed more staged than truly psychic.
