## **Mind Maps for Kids: Max Your Memory and Concentration** Tony Buzan

Tony Buzan, Mind Map genius and founder of the World Memory Championships, shows kids how easy it is to become the master of their memories and succeed at school with his unique combination of learning tools. Tony Buzan impressed kids -- and adults -- with his incredible powers of memory on Blue Peter (April 2004) and again on BBC2's prime-time documentary, 'In Search of Genius' (May 2004), where one of the struggling schoolchildren he worked with memorized details of over 100 cars -- when before he struggled to remember anything at all. Now Tony shares the amazing memory techniques behind his master mind and shows kids how they too can become champions of their own memories and enjoy greater self-esteem and success in everything they do. Mind Maps for Kids: Memory shows kids how to: \* Memorize anything permanently \* Absorb facts, figures and formulas with ease \* Improve concentration and save time \* Learn names, events, poems and lines \* Recall information under pressure \* Grow in self-confidence and ability

Pro děti i dospělé, kteří se s myšlenkovými mapami zatím nesetkali, super. A musím říct, že hlavolamy pobavily. :)

Banyak permainan kata bahasa Inggris yang jadi aneh dan kurang lucu kalau diterjemahkan ke bahasa Indonesia. Mungkin lebih menarik kalau baca versi aslinya.
