## Nightshade Molly McAdams

The heart-stopping final installment in New York Times bestselling author Molly McAdams's Redemption series.

My life has never been my own. From the time I could walk, I was trained to be the mob's hardened assassin. To be a monster. I've been told what to do, when to kill, and who to love. The minute I strayed, I lost everything.

Then I met Jessica.

She swept into my life like a storm of heartache, seduction, and intrigue. She's everything I hate, but with one look, I can't stay away. With one touch, she ignites a craving unlike anything I've ever known.

But her secrets threaten to destroy everything closest to me. Including her...

Together we're poison. A destructive combination of darkness and chaos. And I want to savor every drop in my veins.

\*\*\*The Redemption series is a series of interconnected romantic suspense standalones\*\*\*

## aNneMarLi - Chatterbooks Book Blog says

**Holee-Mother-Effin' Nightshade! This book is powerful and intense! I was not just captivated by this heart stopping final installment, I was hypnotized by Molly McAdams words, and I didn't want them to end!**

If romantic suspense are a thing, then Molly McAdams just paved her way into my heart earning that badge of favorite author in romantic suspense. Wow! This woman can write and I don't just mean write. Because in Molly's true fashion, she made writing her bitch. Her words and lines were packed full of weighted roller coaster of feels. All I did was basked all of it and I was obsessed. I inhaled and breathed it. First page in and I don't want to let go of the book. I was drawn into the darkness of the story. I devoured it hungrily and never once I put it down until I hit the ending. I am in love with Kieran and Jessica. They were incredibly portrayed with Molly's brilliant, flawless and full of heart writing skills.

Kieran already stole my heart when I met him in Firefly. However, reading his journey with Jessica, all bets were off as these two smoothly made their way and OWNED my heart and soul. Jessica's chaos to Kieran's darkness was my addiction. They gripped, ripped, and shattered my heart with the darkness looming around them. Each battling their own demons yet each fitted perfectly. Their intensity was overwhelming I had my heart palpitated with the angst and rawness it brings. But gahd! It was a beautiful feeling that fueled me to keep on turning the pages. They consumed me in their journey of redemption. It was sinful and gritty yet passionately sexy and dangerous and oh so beautifully flawed. With its darkness and edge, I was left wanting for more.

Swear, this is this particular moment I wish I have that magical words so I can convey my emotions well in this review. I have a lot to say about the book, but afraid of saying too much that will end up spoiling you. I guess I will just say, read this final installment and for all of those holy, if you haven't had the chance of reading the first book or second for that matter, do me a favor. Read this series. Binge read it and thank me later.

**I highly recommend it! Nightshade is a must read!**

---

## **Romance Readers Retreat says**

Yet another powerful, emotional, and well written story by Molly McAdams. I never know what to expect when it comes to Molly's writing except for lots of angst and emotions and she has definitely outdone herself with the third and final book in the Redemption series, Nightshade. Each book in this series gets better and better and she definitely has delved into writing dark romances very very well. This book has me captivated from that gorgeous cover all the way to the very last word when I was left wanting more.

The Redemption series books have more of a slow burn to them. This intriguing and dark story seems to simmer and simmer till it literally explodes in front of your eyes with amazing characters and a brilliant storyline. I did question whether the story was moving too slowly in the beginning and if it would keep my attention, but the first two books were the same way and I ended up falling in love with them big time so I knew this book would turn out the same way. As Kieren and Jessica's story progresses, you are left with more questions than answers, and whilst quite confusing at times, all those questions were definitely answered and explained in perfect detail by the end.

Nightshade ended up being more painful and emotional than the other two books and maybe even had me shedding a tear or two in the process. I fell in love with Kieren's character in Firefly, which I highly recommend reading before this book if you haven't already. He was portrayed as a cold and callous killer but in this book, we get to see a whole other side to Nightshade as he meets the only girl who has been able to tame his darkness. Jessica has her own fair share of demons but it is clear from the start that she will do anything and everything to protect those she loves. From her first interaction with Kieren/Nightshade, Jessica sees that they are both struggling with their inner demons, but for vastly different reasons. Jessica is trying to keep drug dealers at bay to protect her mother and Kieren is a part of that very group responsible for providing her mother with the drugs that very well might kill her. With Jessica's only option to meet the ever increasing debts from her mother's addiction by selling her body, she quickly finds herself not only on Beck's radar, but Kieren's as well. With men threatening her in all directions, it's no wonder that Jess has gone a little crazy and untrusting.

I loved the relationship that slowly unraveled between Kieren and Jess. With neither being willing to trust the other but their bodies calling out for one another, they seek solace in the other's arms. But is Kieren finally ready to move on from Lily and can Jess finally escape the men that are determined to own her and break her? This is definitely a book to savor and that will stay with you long after you finish reading. I can't wait to see what Molly has in store for us next.

### **Michell Hall casper says**

I give this read 5 dark brooding stars.....

When Molly announced she was going to do this series and that she was changing things up. I was excited but a little worried for her. I have read all her books and know what she is best known for and that's emotional heart wrenching reads. I knew she could do it!!!! And I am extremely proud of her for standing her ground and giving us in my opinion some of her best work to date. Welcome to the dark side Molly McAdams. LOL!!!!

If you have been trained all your life to be a killer and to trust no one. How can you ever learn to love? To break your walls down and trust?

I was excited that we were getting Kieran's story. In book two he was dark, hard, raw and so mysterious. But I knew there was so much more to him. And Molly did not let me down. This was a great ending to this series. It was heart wrenching to see the characters split their chests open and spill their pain and truths. But it was also very healing at the same time.

My words won't do this series or this book justice. All I can do is promise you that Molly nailed it!!!! She delivers all the feels with this book/series. And gives you a darker side that needed to be unleashed. And she will leave you begging for more!!!!

### **Christine (Shh Moms Reading) says**

4.5 STARS!

Kieran has captivated me from the very beginning—this man so dark and questionable, that I didn't know whether I could ever trust him with my heart let alone him finding his own happiness after losing his beloved Lily.

But after meeting Jessica—the reader will come to see and understand that he has finally met his match. You see Jessica has darkness within herself too and together they calm each other, they bring out different sides of the other. Where there is darkness... there is chaos.

I loved their interactions—so magnetic, so dark yet so sexy. There needed to be someone to tame Kieran's inner monster and Jessica with her wily ways was just the person he needed in his life.

"What if I was made for you and you were made for me?"

The Redemption Series is one of my favorites—with nonstop action and suspense, twists and turns to keep

you excited and at the edge of your seat and emotional moments like those found in Nightshade that brings tears to your eyes hoping that these two broken souls could find some inner peace and happiness together—this series truly had it all.

This is the first series I have read by Molly McAdams and I am a forever fan. Her storytelling and characters are completely unforgettable and the drama and action made my heart race and soar and when I closed my kindle I felt complete bliss in reading another amazing book by this very talented author. SO.WELL.DONE!

Nightshade ..... Where do I start?? This store was my favorite of the series and Nightshade just might be my favorite of them all. This book pulls the story together so well and it leaves you with a happy heart. I have waited days to post a review but in the end it's just so hard to write a review for a book that have you such a book hangover and that says something very special about this book. All I can say is I love love loved it and trust me when I say you should read this series!

### **Angie Crabtree-Liezel and Angie's Book Blog says**

I didn't realize how much this book would rip me open then stitch me up again by the end. Nightshade was more than what I expected.

I was not a fan of Kieran at the end of Firefly. What he became and what he let overcome him I was so disappointed in him but I also understood him. That understanding and curiosity had me waiting on pins and needles for Nightshade. I needed to know his story. I needed more of him. His darkness. His light. Does he find happiness? I needed it all.

What I didn't expect was how much I loved Jessica. How her story consumed me. I couldn't read enough of her. She was so flawed. Broken but strong. Hiding behind a mask only one person could remove. Her darkness. His darkness. Each calling out like demons in the night. Perfect for each other.

We really see a different side to Kieran. A side that I loved so much and one that only Jessica could bring out of him. This strong sometimes weak man bought to his knees by a woman is just so hot. I never knew that a killer like him could love like he did. It was so beautiful and I found myself envying Jessica at times.

Nightshade is a dark, beautiful, compelling read that stays with you long after you finish reading. It's one of those books that you won't put down until you read every single page. I shouldn't be surprised but I am. Molly's writing seems to be evolving with each novel she writes. Her words are like poetry. Flowing through your mind and soul like they belong there.

---

## **Jeanine Levy says**

"Pray Nightshade doesn't find you. He'll slit your throat and bleed you dry."

"Wait for her to stop laughing. That's when it's real."- Kieran

Nightshade, what can I say...when I finished this book I was speechless. I had so many emotions from this book. I was not a fan of nightshade in firefly, but Molly McAdams shows a side of Kieran/nightshade that we didn't see in firefly and you will not be disappointed in what we see of him.

Nightshade gives you twists that were totally unexpected, suspense on what would happen and heart breaking sadness for the things these characters went through to get their happiness!

Grab this now.....a must read after Firefly. Best series by Molly McAdams to date!

---

## **Chanel says**

This installment is definitely the darkest one of them all. And, I lied when I said you can read them out of order. You definitely need to read the second book, Firefly, before reading this one. They're completely connected. What surprised me was I actually teared up a bit with this story when I didn't in the previous two. It's a bit of tear jerker.

This story picks up where the second one left off. Lily has gone off with the love of her life, the rival mob leader, Dare Borello. Kieran is broken up about it because his life's mission was to protect Lily and love her. Somewhere along the line the lines blurred and he unwittingly distanced himself from her to the point where she found love elsewhere. Her dad, Mickey O' Sullivan, has left jail and he's wanting to kill those he assumed betrayed him and the business and Kieran is his number one suspect. Meanwhile, Kieran has slowly been killing people on a list he made; people he feels has ruined his life and Mickey is number 3. What he didn't bank on however was Jessica.

Jessica is the woman that haunts Kieran's best friend Beck. He fell in love with her years ago but she hates him because he sells to her mother who has a heroin addiction. He claims its to keep her from going to other dealers cause he feels he can best protect them both that way but one incident ruined Jessica's life to the point where she took on a different job trade that made Beck hate her. One night she meets Kieran and they realize they have they have a kindred darkness inside of them and maybe, just maybe they can fix each other while trying to prevent family from being killed as well as killing those who deserve it most. They're like two ghosts in the dark trying to find some semblance of normal in a fucked up world.

Like I said, this book is dark. There should probably be a trigger warning because there instances of drugs, physical and emotional abuse including rape, death and lots of depression. But between the dark parts, there are happy instances which make the book a fascinating, emotional read. I really enjoyed the whole trilogy. They're all really well written and I look forward to reading another Molly McAdams in the future.

---

## Guilty Pleasures Book Reviews says

I have been intrigued with Kieran, aka Nightshade. I never thought it could happen but Molly Mc Adams made me have sympathy and want a happily ever after for this cold blooded, calculated assassin. Nightshade is the end of the Redemption series, which is billed as interconnected but standalone romantic suspense. You can read them as standalones but I highly recommend reading Firefly before Nightshade because you are introduced to Kieran in Firefly and events that affect the plot in Nightshade do occur in Firefly.

Kieran is a complicated anti-hero; he's been raised to be an assassin Holloway gang. He had his heartbroken by the woman he was raised to protect and love. Jessica, wow, what a horrid life she has had, yet she's never given up. In the beginning of the book I wasn't sure I was going to be able to get past her occupation but I kept an open mind and trusted Ms. Mc Adams to make it ok and she made it more than ok. Both Kieran and Jessica are deeply troubled, dark characters who just happen to bring light into each other's lives.

Nightshade kept me on the edge from beginning to the last page. I've loved all three stories in The Redemption series however Kieran and Jessica's is my favorite. The emotions Ms. Mc Adams evoked from me while reading their stories were intense and all over the place. To see these two broken, damaged people fight not only others to survive but their own demons so they could explore the feelings they were having for each other was amazing.

Nightshade is dark, emotional, sexy and believe it or not at times funny. I recommend The Redemption series to anyone who loves romantic suspense and is not adverse to dark romances or anti-heroes and anti-heroines.

## Karen Mc says

"What if it all went wrong so you could find what's been waiting for you?"

Here I sit days after reading, unable to read another book as this story STRUCK ME SO HARD!!! Hours and days after reading, just thinking of this story leaves tears that stay etched in my eyes. I am still STUNNED SPEECHLESS from *Nightshade* by Molly McAdams, a STUNNING STORY that stole, stripped, and shattered both my heart and soul. Captivating ... chaotic ... dark ... dangerous ... and devastatingly beautiful, *Nightshade* is the PERFECT STORM ... MY perfect storm.

Happiness. That word would never touch my life again. Happiness wasn't meant for girls like me.

*Nightshade* GRIPPED ME immediately, chasing my heart and soul like a fierce fire where I fell to the flames. This firestorm of feels was a fight I would not—did not—want to win. *Nightshade* both lit me up with life while casting my soul into the dark. Every breath matched every breathtakingly beautiful word. Light to light. Dark to dark. Beauty to beauty. Feel to feel. **I FELT NIGHTSHADE EVERYWHERE.**

One page and I was ENSNARED in the trap called *Nightshade*.

One page and I BROKE for the heroine.

One page and I knew *Nightshade* would break me ... and that it did!

I wasn't scared for my life. I was scared for my soul.

From the moment I met the intensely dark knight, Kieran, in *Firefly*, the story that precedes *Nightshade*, I LOVED HIM. Long blond hair. Piercing green eyes. Tall and muscular. Fierce. Deadly. A man who would lay down his life for those he loves. A man battling darkness but is still a dark hero. **Kieran, AKA, Nightshade, is the ULTIMATE HERO—my Robin Hood! Kieran is PERFECTION!!!**

He was terrifying. And he was beautiful.

Nightshade has met his match in Jessica. Beautiful. Broken. Bold. Brave. Jessica is as evasive and lethal as Kieran.

"Chaos. Everything you make me feel. Everything you are. Chaos."

**Chaos and calm collide and what an EXPLOSION *Nightshade* is ... a heart-pounding HIGH!!!**

The banter spiked with hate and heat...

The angst that burned like a constant flame...

The chemistry that could not be stopped...

Just so INCREDIBLY INTENSE...just so EVERYTHING!!!

"I hate that I want you."

Jessica has led a life of hell and no man will ever control her. No man until Kieran...

"Because I've never wanted to give up control as much as I do with you."

These sweet and soulful words MELTED ME!!! Kieran and Jessica were EXPLOSIVE together ... a union of fire and ice. Their chemistry was on FIRE!!! I felt their POWERFUL PULL pull me.

There was something inside her that called to me.

**The INTENSITY?!? I felt it EVERYWHERE!!! *Nightshade* had me on EDGE, my heart not beating but THRASHING out of my chest!!!** Twisted. Tortuous. Tender. Tough. These words sliced through me like a knife, cutting me open. This story SHATTERED ME into many pieces. Each piece of this poignant tale took and was a part of me. **My heart bled and beat for this book, a book that BROKE ME IN THE BEST WAY!!!**

"What if I was made for you and you were made for me?"

**When you begin and end a story in TEARS, one so full of PASSION, PROMISE, and POIGNANCY, where every FEEL IS FELT, that story is one that you'll FEEL FOREVER!!!** I SURRENDERED my body, breath, heart, soul, and every emotion to *Nightshade*. I was so LOST in this story that I didn't want to be found. Fire and ice. Dark and light. Love and loss. **Holy RUSH!!! *Nightshade* is the BEST EMOTIONAL CHAOS!!! This soul-shattering story is one not only read but FELT long after the last page.**

?????soul-shattering stars

I love this series so much ♥♥♥♥

---

### **BookSmacked says**

After reading Firefly I immediately needed this book. After all Nightshade (Kieran) stole my soul. If you haven't read Firefly stop reading this review and go pick up that book.

I am such a huge fan of the broody, angry and damaged characters and Kieran definitely fits that bill for me.

I was almost distraught by the end of Firefly because Kieran was all alone after losing Lily and I so desperately needed him to find someone that would love him not just despite his "flaws" but because of them.

I loved the way that his story unfolded. Once again we get some twists and turns as we did with the Firefly and I loved the mystery that we also got in this book. All the secrets and I was dying to figure those out. It kept me on the edge of my seat.

For me though this book was all about Kieran and what was left for him other than being that deadly assassin. Jessica was absolutely perfect and you could feel their chemistry, their bond because of the darkness.

This for me was the best book of this series and I'm so sad it's over. Kieran is my fav character out of this and I'm so glad he got his story because he is just amazing.

A perfect ending to this series.

---

### **Ari says**

Now that was Molly at her best if I must say so myself
