Reckless Allison Brennan

Two suspicious hikers ...

An unmarked grave ...

A missing child ...

FBI trainee Lucy Kincaid's spontaneous weekend camping trip with her boyfriend, P.I. Sean Rogan, turns into a deadly nightmare when they come across two hikers looking for their lost son. But when Lucy and Sean split up to help find the missing child, each quickly realizes that the parents have a dark secret they'll kill to keep.

Judy Mcadam says

Reckless

Very believable characters. Police procedure likely. People were easy to get to know in a hurry. Lucy has a good future in the FBI.

Luann says

Lucy Kincaid seems to find trouble like Miss Marple finds bodies wherever she goes. Even on an innocent camping trip Lucy and Sean find, and of course, catch bad guys. Always an enjoyable, easy read.

Lim Mamanto says

It's not worth as a TV movie let alone a novella and the only appealing part in the book was the SWAT talks.

Josine says

Could not get into the book. The writing too simplistic. Not one of my favorite reads. Felt I wasted my time.

Cynthia Harmon says

Good as always

Never a bad read. I'm always looking forward to her next book! Just get my tea and get comfortable, and I'm there!

Jess says

Loved it. Allison Brennan packs a lot into 100 pgs, it has the same feel I've come to love with Lucy's books and it's story that sucked me in. Great read for \$2!

Judy Alexander says

Short, lots of action, predictable.

Lisbeth says

I recently reviewed the book 'Love Me to Death' by Allison Brennan. I liked it so much so I threw myself over the rest of the books in the series (Kiss Me Kill Me, If I Should Die, Silenced, Stalked, Reckless and Stolen). The books are just soooo good I can't stop reading. The stories are absolutely fantastic, so thrilling with many different layers and I can't remember when I read such suspense novels last. Maybe the books of Henning Mankell can match. There you also have a story and a suspense that makes it difficult to put down the book.

This is a series of books and like with the Sookie Stackhouse novels it is a continuing story that covers a shorter period. Where one book ends the next one takes up. That makes you feel like part of the family and you follow the development of the relationship between Lucy and Sean and their relationship with their respective families and jobs.

It seems there is a new trend in writing series with characters that belong to a tight family or 'clan'. I am thinking of the Sookie Stackhouse novels and the Twilight series for example. I am sure there are other books out there with the same setting. The persons within the family or clan help each other and there is a goodwill feeling of caring about each other. It is a nice change to all those stories where people seem to only want to hurt others.

This book sees Sean Rogan go undercover for the FBI and is set to join his former hacker gang. Lucy meanwhile is making her training with the FBI. Neither Lucy, nor his family, understands what is happening. The job is not a clear cut as it seems and as usual other actors have other plans. Thrilling as it can be!

I said in my earlier review of the books that I thought they had something of the books of Dashiell Hammett and Raymond Chandler. There is the same day to day, hour to hour scheme of the story and the whole set is only covering days or a week. I just finished the last book of the series 'Stolen' which was so exciting that I had to force myself to stop reading at 2.30 a.m.! The stories are seen from the perspective of different persons and I find myself thinking or screaming in my head 'don't do it, don't do it' when the heroine or the hero is doing something because they don't know as much as I do. It is all very thrilling.

Allison Brennan (her home page <http://www.allisonbrennan.com/>) is like Charlaine Harris a very idle writer. She writes about three books a year and she has five kids! Where does she get the time? Apart from the Lucy Kincaid books she writes books referred to as Romantic thrillers, Supernatural thrillers and Short stories. The next book in the series (I can hardly wait) is called 'Cold Snap' and will be out in October.

Review from my book blog thecontentreader.blogspot.com

Lyn Soulia smith says

Strong characters with morals, a sense of family and all around good. I love the family connections that the series has and the way they work together. Good series!

Jovdb says

Short story about what happened when Lucy and Sean go away for a romantic camping weekend.

Trying to help a couple who have lost their young son, Micah, Lucy and Sean discover that all is not as it seems with the couple, Anne and Jeff.

Once again, Lucy and Sean find themselves in a dangerous situation involving a meth lab and a drug ring.

Elvan says

[Lucy valiantly rescues the young boys then in the heat of battle abandons them behind some boulders

Meghan says

Each story gets better and better

Lucy and Sean are finally on their weekend getaway and it does not go as planned! Noah talks about being trouble magnets in this quick adventure and I agree. This story is very detailed and visual. I enjoyed the action scenes, but also how in each story, especially here we see how Lucy and Sean are growing individually, professionally and as a couple. This would be a good book on its own, but I strongly encourage reading this series in order to fully grasp the development, relationships and characters.

Stephanie says

Nice quick story of another vacation for Lucy and Sean. They should never vacation again!

Srijan Pandey says

Book per se wasn't enthralling, however I really didn't mind sitting for 2 hours to finish this 100 page book. The book started out with Lucy and Sean's escapade into the woods. The protagonist Lucy happens to be a FBI trainee, and Sean a Detective, who want a quite time together from their fast paced lives. However, even in the quiet cover of the jungle Lucy and Sean find trouble. (Lately it seems trouble intentionally finds FBI agents) Personally the plot was cliche-two agents' find trouble, but at the end, save the day. In addition, the idea of the two being in love and the depiction of fear about either being hurt seemed a bit, so to say, girly. With that being said if you have two to three hours in your hand and want to read a book for the heck of it, then I'd say go for it.

Catherine McCune says

A

Trouble has Lucy and Sean locked into its GPS so it can find them wherever they are. This time they are on a camping vacation in a remote camp ground. Their lives in danger as well as those of others, including two children's, their abilities are tested to the fullest. How they manage to navigate the twists and turns makes this a page turner that's hard to put down.
