Jane and Ted Price have always known that something isn't right with their son, James. Despite all of the visits to specialists, no one has been able to diagnose what is wrong with him. In desperation, they turn to well-known psychiatrist, Bill Stevens for help. A series of suicides related to James' presence forces all involved to find answers.

Suicide Whisperer is a novel filled with telepathy, magic, darkness, love, suspense, and characters that are desperate to find their place in the world. It follows the Prices through a troubled marriage, an enchanted childhood, and a world they never knew existed.

What they discover will change their lives forever.

As a reader of Sci-Fi books generally, I don't often stray too far from the genre, however sometimes I come across a book that makes me want to venture out of my comfort zone out of regret for the stories I might be missing out on.

Suicide Whisperer is one of these books, well written and a captivating storyline with interesting and flawed characters, and while dealing with a dark subject matter remains not depressing but intriguing. Just needs a second book now please.

The Prices 'son has never been normal as he hear people thoughts. James has been hearing suicidal thoughts from nearby as they commit their act. Trying to find help for their son, they seek the aid of a psychiatrist named Bill Stephens.

Along the way, they must deal with Prices failing marriage and an affair that is threatened to come out. Things are not always what they seem as this case follows closely to another boy who ends up dead.

A moving read that keeps the reader engross till the end.
