Kurumi makes Hideo quit her cold turkey for two weeks! Whatever is poor, horny Hideo to do? Well, for one thing, his club is visited by a masked OB for some hardcore "physical training." Then, there's a UFO-sighting field trip up to a mountain. But Hideo's never quite over his obsession with the precocious transfer student and he thinks he's gotten just a little closer to the object of his affection when he helps her catch a panty-thief. His reward? A trip to the movies... in handcuffs!

### **Jedi JC Daquis says**

The story continues with Kurumi Sahana constantly giving Hideo Aiba blue balls, with the latter sadistically enjoying their casual encounters of erotic pleasure. These encounters become even more intimate along the way.

Sundome now starts to creep its way to a really, really weird BDSM territory. Some of them are twisted and at the same time funny in an uncomfortable way.

There's another angle Sundome is starting to show: Kurumi's past. The nose bleeds and her frequent absence in class hint that she may have a dark and mysterious past.

### **Timothy says**

Where it felt uniquely twisted (and fresh) in the first volume, becomes just old and plain weird by the end of the second. Far from feeling any sense of tension for the most part between Kurumi and Hideo, instead one just feel pity for Hideo for the crazy hell that Kurumi puts him through, just because she can. Although there are still a lot of funny moments in this volume, most of them involve Kyouko & co. acting in their usual manner. Unfortunately, this does not lead to much repeat reading. Much to my regret, as I had just bought volume 4 of the series. I can only hope things pick up in the next volume.

### **Malum says**

Things get even weirder in volume 2 (if that's even possible). What started as humiliation turns physical as Hideo gets handcuffed, gets caught in his zipper, and even begins to fear being thrown down a flight of stairs. It's hard to hate Kurumi, though. For as mean and controlling as she is, she is never rude or loud with Hideo. She is probably the most soft spoken dom in history.

We also start to get the impression that Kurumi is hiding something about herself...
