Whispering Falls

Book 4

It's almost love at first sight when Cassie rescues Heath from a car accident one rainy night. A concussion lands him in the hospital and gives him a slow start on his job as assistant sheriff, but he soon recovers and gets to know Cassie better. But then he learns that a suspected drug dealer was related to Cassie's late husband - a man who died on the honeymoon.

They date openly, but Heath has another reason to be dating her - it's part of his job, right? Then as they learn the truth, it could drive them apart forever.

The characters from the first book are heavily re-visited since Cassie is Austin's sister and they are having their first child. Cassie still lives with them. This is an added bonus as I really liked this couple - a lot. There is news on Creed and his wife (can't remember her name at the moment) as well. The news is sort of sad because it lets you know the trial they've gone through and the possible news they probably received at some point in their short marriage. But it's nice to see these couple being real people with real problems even after marriage from their own book romances!

All these elements led to a great wrap-up to this series!

Karen says

Cassie's short marriage filled her days with sweet memories. Heath, the new Assistant police chief, was tearing into those memories to find out about drug trafficking. Can their love overcome the things that will be uncovered?

John Hanscom says

Maybe 3 1/2. Well written, but pretty typical.

I enjoyed reading The Lawman's Honor. One in the Whisper Falls Series.

Heath moves to Whisper Falls to get away from a busy town he was working in. Meets Cassie when he is moving to Whisper Falls. He is on the road during a storm and goes off the road. Cassie is behind him and sees it happen. Cassie goes down the ravine to help. Can't get him out. Calls for help. She talks and talks just to keep him awake. They become friends. He checks into her dead ex husband on drugs. She gets mad but they end up together. A very good read. I like the brownie recipe. Thanks

Vickie McDonough says

I really enjoyed this novel about a policeman in a small town attracted to the woman he's investigating. The secondary characters, especially the ones in the heroine's beauty shop, were a hoot and added good conflict with their pointed questions. The chemistry between the hero and heroine was wonderful, and the ending, while having some traumatic ups and downs, was satisfying.

Linda Goodnight is a fabulous author, with unique analogies and great ways of saying things. I really enjoy her writing, and although historical novels are my first love, I don't miss them when I'm reading one of Linda Goodnight's compelling books.

Very good book, loved it!!!

Kay (aka) Miss Bates says

Goodnight is usually one of the inspirational romance authors I prefer: her characters are fleshy and interesting; her plotlines, not too treacly sweet; her writing, adept and smooth. These elements are in THE LAWMAN'S HONOR as well. In this case, however, I was disappointed in her latest. The main problem was in the hero's unconvincing suspicions of the heroine, so much so that he comes across as paranoid and stupid. 4 STARS

I like the Whisper Falls series. The town changed its name to match the nearby falls. There is a legend going

around that if you climb to the top of the falls and go behind them and say a prayer. Your prayer will be answered.

Cassie climbs up to the falls and prays for the numbness is released. Her husband died a couple of years ago on their honeymoon to Mexico.

Cassie cares about her town and family.

Heath came to Whisper Falls for some peace. He is the new assistant police chief. On his way to town has accident and Cassie saw and got help.

Cassie and Heath start as slowly as friends. Neither is looking for more.

This book has some drama, decisions that can affect the future. Mostly it is small town relationships that draws you in and keeps you reading.

It is a clean read. Does have talk about prayer and church. Not preachy at all.

I would come back and read more books like this in Whisper falls series. I like Linda Goodnight stories.

I was given this ebook to read and asked in return to give honest review of it by Netgalley and Harlequin.

The lawman's honor

Heath goes to whisper falls to investigate a drug operation. When he arrived in town he has a accident and is rescued by Cassie. They get to be friends and then good friends until she finds out he is investigating her late husband. Enjoyed this book just like other books by Linda Goodnight.

Karen Collier says

Linda Goodnight is known for sweet romances featuring a strong sense of family and community, and The Lawman's Honor certainly lives up to that reputation. This is book 4 of the Whisper Falls miniseries based around a small town in the Ozarks that is named after a nearby tourist attraction, where prayers are said to be answered. I have not yet had the pleasure of reading the first three books in the series, but I was happy to find that this one can stand on its own. Even so, now that I've been introduced to Whisper Falls through Cassie and Heath's story, I find myself curious to read more about the town and its inhabitants and I can definitely see the appeal of reading the miniseries in its entirety.

I liked the premise of a policeman falling for the widow of the man he's investigating. There's some very real potential for conflict and challenges built in there to keep things interesting. Was she an innocent bystander or somehow involved? How will she react to his investigation and the information he uncovers about her deceased husband? Can they trust each other? And most importantly, how can they possibly find their way to happily ever after with the investigation coming between them? I thought the author did a great

job exploring these questions (and others) and their ramifications for the developing relationship between Cassie and Heath.

I found the characters, both major and minor to be interesting and well fleshed out, and I loved the chemistry between hero and heroine as well as the witty banter between them. The pace of the romance and the various plot elements worked for me. In fact, I didn't want to put the book down, from the opening onward. I think my favorite scene was when Cassie went to investigate the car crash and waited with Heath for help to arrive. What a way for two strangers to become instantly well-acquainted!

The faith element in this one is relatively minor, featuring church attendance, prayer, and an emphasis on the importance of family and community. I enjoyed watching both characters learn and grow as Heath comes to realize the importance of family, and Cassie learns to open up and feel again, even at the risk of getting hurt. And of course, I loved the happily ever after. The epilogue tied things up in a refreshing way for Cassie and Heath as well as providing some further details into the lives of other characters previously featured in this miniseries.

If you've enjoyed any of the other books in the Whisper Falls series, you'll definitely want to get your hands on a copy of *The Lawman's Honor*. Likewise, if you have enjoyed other titles in the Love Inspired line from Harlequin, you'll want to check this one out too. And, if you're new to Love Inspired, this or another title by Linda Goodnight would serve as a great intro to the line. She is an award winning and bestselling author, and has written quite a few Love Inspired romances. In fact, she is one of a few authors that the Love Inspired editors have mentioned as recommended reading for authors new to the line and looking to get a feel for what makes a good Love Inspired romance.

Thank you to Harlequin for providing an electronic copy of this book via NetGalley for my honest review.

"This is a heartfelt story with a sweet romance (and a delicious brownie recipe). Goodnight skillfully weaves storms, both literal and figurative, into the characters' lives". (RT Book Reviews, rated 4 stars)
