C.P. Cabaniss says

This was the final installment in the Spiderwick Chronicles and overall I was very pleased. Jared faces some of the inner struggles that we have seen in the previous novels and finally faces down some of his demons. The sibling relationship between Jared, Simon, and Mallory continues to be a highlight of the series.

We get a lot of both Thimbletack and Hogsqueal in this final installment, which I appreciated. These two are a lot of fun and it was nice to have them around more. We also get to see some other familiar faces, some are not so welcome.

I honestly love the writing in these stories and that makes me want to seek out other stories by these writers to see if they live up to this series. Everything was vivid and well thought out. Sure, it could have gone deeper and become lengthy middlegrade or young adult novels, but I think they are perfect as they are.

If you haven't tried this series I highly recommend them. Read them with your children, your nieces and nephews, students, or by yourself, it really doesn't matter. They are very enjoyable and I think appeal to a wide range of ages. My sister and I both enjoyed them all very much as adults and I wish that I had had them as a child.

Donna says

Ok, so, twelve-year-old me must have had the absolute WORST reading comprehension, because I remembered about 99.9% of these books WRONG in every way imaginable...except for the part with the pixies in the honey, which I guess goes to show what kind of child I was.

Honestly I don't see why these couldn't have been one book? Because I've seen books with an episodic nature like this, and I think it would have worked. Plus probably have cut publishing costs. Not that I'm complaining...it did up my Summer Reading count. :P

That aside, these books were pretty cute and creepy (and shockingly dark at times!), so even though they aren't the BEST thing ever, they get my seal of approval. :3

Jessy says

muy bonita saga, se lee muy rápido y los seres fantásticos que aparecen son muy interesantes. Lo único malo es que todo va demasiado de prisa y se podría haber sacado mucho más, supongo que al ser un libro para

niños era mejor de esta forma, pero me faltó ese algo extra.

Mari Lara Jean says

3.5 stars

Jennifer (Jen/The Tolkien Gal/?????) says

Not a bad conclusion to the series at all. I just wish the world could have been more fully explored and not limited to a backyard.

PilesOfPages says

Sin dudas, el mejor de la saga.

Este libro tiene toda la acción y aventura que necesitaba. Nuevamente se muestran nuevas criaturas mágicas, sabemos más del villano y sus intenciones y conocemos el desenlace de esta historia. A pesar de que no me convenció mucho como terminó esa "batalla final", entiendo y acepto que es por estilo y el público a quien está dirigido.

Sigo pensando que todos los libros pudieron formar un solo libro completo, en lugar de varios libritos cortos que parecían capítulos, pero claro está, fue decisión de los autores. No niego que me arrepiento de no haber leído estos libros más joven, se que los habría disfrutado más. De igual forma me gustó mucho esta saga, perfecta para quienes buscan una lectura ligera y entretenida.

Lupe Dominguez says

What a great conclusion to the series! I really enjoyed this series. The fantasy angle was well developed and the story was fast paced but not rushed. The ending was perfect and bittersweet but I loved it. So good!! So glad I let my son read them!

Evelyn (devours and digests words) says

If I could rate the whole series altogether, I would give it a total of 3.5. The artworks though? That would be

a brilliant 5/5.

I feel that the author could do something more with the plot. Something more *wow*. This is the final book in the Spiderwick Chronicles and was I impressed? Not really. The world-building was great, the characters (humans and fey alike) are all fleshed out really well and each has a unique quality about them.

I guess I wanted more. I wanted the books to be longer. I wanted the villain to be more menacing. The whole *'take over the human realm'* thing is getting real old. In conclusion, this is a good series if not above average.

Crazy Uncle Ryan says

I've mentioned this before but this is a really short series. Each of the books took me about 45 minutes to an hour to read. I thought this was a really good and creative story but with that being the case I would have liked to have seen the authors do more with it. In other words, make it longer. Granted, these books are aimed at people about ¼ my age so I guess I can't expect it to be too long. Overall, I really liked these books.

Siobhan says

I can honestly say that this series is one that was really let down by the film adaptation. Back when the film was released I found myself excited for what was to come, only to be extremely disappointed with what we were given. If you're someone who enjoyed the film then I really do suggest that you read the books to find out just how great they actually are rather than taking the film standpoint on it.

The final book in the series is yet another fast mover, bringing the series to an end through the characters dealing with the creatures in a way that I will not be sharing with you (honestly, there is no point in saying too much and ruining it for you). Just know that you finally get to figure out a number of things (both positives and negatives). I will, however, warn you: the ending is tragically beautiful so be careful on that front.

GaiasWonderland says

"That would be overly kind to a goblin in a bind. No, we'll set rats to nibble off your toes, pike out your eyes, and put them up your nose. Your fingers we'll remove with dull scissors, and we'll wait until your confidence withers."(- Thimbletack)

I really liked the whole series. It's kinda funny as the first book I was like "Hmm.. I'm not sure. I like the setting and I love faeries but just not sure." And ta-da! I really enjoyed all of it. The sibling bonding, the creatures (Thimbletack, Hogsqueal, Mulgarath) and characters. I would love to watch the movie now.

Reddish says

Supuestamente estas son historias para niños, pero he de decir que ha habido algún tema serio que sería difícil de explicar (no diré cuales, obviamente. No quiero spoilear). Pero dejando esto aparte, ha sido una bonita historia de hadas y ogros, que de vez en cuando se agradecen. Me ha gustado mucho como han unido el mundo "real" con la magia, y las ilustraciones en todos los libros han sido preciosas, y además ayudan a meterte en situación. En resumen ha sido, en general, una buena experiencia. Bastante recomendados si tienes un rato libre y quieres leer algo ligero.

Furi Hanifah Zanuardi says

Akhirnya, bisa menamatkan kisah spiderwick. Makhluk-makhluknya aneh-aneh, sejak pertama si buat bingung dengan kebiasaan dari para makhluk anehnya.

Omar says

So, I finished all the books and watched the movie yesterday. The movie used books 1-3 and 5. As always the books are always better than the movie. With that said... I have to admit I enjoyed the movie as well. It rarely happens that I can like both, but this was one of those occasions. The movie... without giving away too much, allows you to see more of the faeries than the book touched upon. It also changes a few things here and there as well. In the end you have a good book series as well as a good movie.

Tori I says

About 30 minutes ago I finished the last book of The Spiderwick Chronicles. This book is called The Wrath Of Mulgrath. This book was probably the best one out of all five. The best part of this book is at the end because you finally get to figure out some good and some bad things. The ending is super sad because Aunt Lucinda is out of the hospital and go to her aunt Lucinda's dad - Jared, Simon, and, Mallory's great great

uncle. He has been gone a long time and gets wished back. He sees Lucinda hugs her, but he can't touch the ground or else he will turn to ash. He says his time is over touches the ground, turns to ash, and whirls up to heaven. That part made me cry because my great grandma died to and I felt so sad and just cried my heart out like aunt Lucinda. Aurthur Spiderwick gets freed by.... wait I am not going to spoil it. I guess you will have to read the book for yourself. I gave this book five stars because it has made me want to read it all the time and can't wait to read whenever I can. Over all this series has been my favorite books of all time and can't wait to read Beyond The Spiderwick Chronicles. This book is outstandingly amazing!

Amy says

A nice end to the series.
