## **Beyond the Clearing** Robin Mahle

From Author Robin Mahle comes a new supernatural/suspense tale of the choices we make in our lives, the consequences of our actions and if our fate could ultimately be changed by altering a single decision.

In memory of a dear friend who had been taken too soon, they decide to honor a wish that was left unfulfilled. The Serenity resort, carved into the stunning red rock mountains would be the place to celebrate the life of their beloved Diane. And to allow reflection on their own lives, Maggie, Rachel and Susan thought this would be the perfect getaway.

But the resort holds an ancient and deadly secret, one that employee, Tony DeLuca, tries hard to ignore. It is only when Susan comes to him after a frightening and unexplained event, that he's left with little choice but to face it head on.

Warnings of what will come to pass soon arise from a most unexpected source, delivered by one who is compelled to help.

But the demon whispering promises of change will find weakness among the friends, delving into the depths of their greatest regrets. When all choice is taken, will they recognize it before it's too late?

## **Helena says**

This book is in deep need of an editor! There were times when I couldn't tell who was speaking, and there were times when the author didn't seem to know herself...  
It could be a good book, but it's just ok.

## **Ellen White says**

Maggie, Rachel and Susan came for a celebration of life for a friend who too early in life passed on. The time together was one to cherish, the forest wasn't as willing. Dark secrets were held there and who would know about them. It came to each, and with what consequences, would they have Entertaining, and interesting of how it affected each

## **Barbara Wanda Johnson says**

Being familiar with the southwest I found the setting compelling. It's not hard to imagine otherworldly experiences in these mystical places.

## **Randy says**

Three friends, Maggie, Rachel, and Susan, attend a seminar at Serenity Resort in memory of their late friend who'd passed the year before from cancer. It was supposed to be renewal and new beginnings.

It didn't take long for things to begin happening. They seemed hallucinations from deeply buried feelings in each of the women. They struck most often at certain points deep within the forest. Something evil lived there and was drawing on the trio's deepest fears.

Only Tony, an employee of the resort, is there to help. But can even he do any good?
