I already got used to the werewolves and I actually thought that every story was made for the same author, so when I realized it wasn't like that I felt a little bit anxious and afraid it wouldn't be as interesting as the ones made for Mina Carter...but I'm always open to new experiences and, I must say, Milly Taiden got me pretty fast wrapped around her little finger and making me pay a lot of attention to a story pretty funny, even though kind of make me remember that movie of Nicole Kidman and Sandra Bullock about love spells, maybe that was the name of it, I don't know.

The story, well the tale is about a curvy witch, who was already exceeded with drinks and she passed out right after thinking about her sexy as hell neighbor, who actually is a shifter- even though we only got to see a partial change in his claws-and of course for some motive beyond reason this neighbor who is also very attracted to her, felt that she was in some trouble so he went right straight to her house in order to do that.

But we all know what could happen when a very horny girl wakes up after having a few drinks and realize she is in the arms of a very hot guy...

So that was pretty much the summary of this little tale.

And I'm lookinf forward too read more about this author, althought I don't know if it's because the story is short; but is filled with a LOT of dirty talk!!!!, at least ten dialogues per page, of course when we got in the hot parts. Ah well the good thing is that I'm not against it hehe.

#### **Hot Damn!!!!!!**

Yes!!!Yes!!!Yes!!!! This is the sort of curvy gal I want to see more of in the genre!!! She isn't moping around thinking her body isn't good enough. At one point she even says she loves her curves!!!! Hell Yes!

The story is kind of a tease, I want more!!!! Ladies I am begging for a series that is longer and more detailed!! You're all about length and girth, go ahead an endow those stories!! It is your own fault for writing it so well!

Love the hot and heavy smexy time. Good Lord, when you promise smut, you deliver. I am talking serious pantie soaking steamy! Have the cold shower ready!

Yummy Kindle Unlimited Selection!

Read for free in the box set edition.

Selena is a witch with the hots for her new werewolf neighbour Cage.

Didn't like the drunken stupidity of Selena. Her mother told her not to do anything whilst drunk but she doesn't listen and then wants her mother to fix it. What a Woosie.

Then she has sex with Cage, a guy she knows has had a parade of women through his bed since he moved in two weeks ago. Yuk. Where is her sense of self-worth.

Super intenso y aunque es corto y poco profundo, me gustó a su modo.

## **Galina Sulaiman says**

Selena is a witch, she is going to cast a love spell for her friend, but is drinking while she starts. Drinking a lot. She keeps thinking about her sexy new neighbor Gage, a werewolf. Next thing she knows she wakes up with him next to her. Is it the love spell? Or is it real?

\*\*I was gifted a copy of this book\*\*

Selena has been fantasizing about her sexy new neighbor for weeks. Gage Black, the big, sexy, sometimes furry, hot as hell wolf makes her body go into a nuclear meltdown whenever she sees him. Little does she know, he has been wanting her for a long time as well. While making a love potion for a friend, Selena passes out and wakes up in Gage's arms. Her first thought is that she's dreaming but then gets worried that she may have used the love potion on him...after all, why else would he want her??

"I want you because I've wanted you since I first laid eyes on you, my little witch. And now you're mine."~ Gage

I loved this short, erotic story so much I read it twice! I always love a good wolf shifter story but this was my first one with a witch. Gage and Selena had amazing chemistry, loved the humor and the sex scenes were hot. Great ending!

"I can tell you want me," he said, his voice low and oh so sexy. "I can smell how wet you are."~ Gage  
He did? She needed better underwear. ~ Loc 179

### **80's says**

Don't Drink and Hex is a quick erotic read featuring a spunky witch and her sexy wolf neighbor. Selena is mentally lusting after her new neighbor Gage when she casts a love spell for a friend. Selena's drunken behavior draws Gage over and some sexy high jinks ensue.

Even though Don't Drink and Hex is a short story, Milly Taiden writes an interesting plot that left me feeling happy and not short-changed at the end. As I've said before in other reviews, it takes an extremely talented writer to be able to convey a "complete" story with such few words. Highly recommend to fans of paranormal romance.

Milly Taiden is easily one of my favorite authors. These books are always perfection (in my opinion) and I only wish they were longer.

Every now and then I just have a craving for short and sweet, fill every hole smut and this series has so perfectly hit the mark on a stormy Sunday arvo tucked up in front of the fire I just can't put them down.
