### **Rachel Lynn Sterling says**

Ok, so I downloaded the first book in this series because it looked like a quick, easy, junk-food for the brain kind of read. I'm far from a teenager, but I still enjoy some good YA drama. I didn't care for the title and really didn't think I would care for the book, but I wound up loving it. Or I think it might be more accurate to say that I became so involved with the many unique characters that I fell in love with them. Even though the first book stands on its own and it's not necessary to read the others in the series, I really wanted to know what became of each of them. I don't spend money on books very often (I'm too much of a tight wad and there are too many books I can read for free.), but I purchased every book in this series and loved them all. The writer really makes you feel like you are part of their group of friends. I cried with them; I laughed out loud with them (many, many times); I fell in love with each and every one of them.

I do need to say that I would not consider this a teen read. There is a lot of partying and alcohol use at a very young age. The sexual content and bad language is limited, but is still prevalent.

I can't believe it is over!!!! :-) I've been a fan of this series since the second I found it on Barnes and Nobles and I honestly can't believe it is over. No more Meggie and crew to smile and for Julie to torture me with. Well what a ride it has been! I laughed and cried and wanted to tear my hair out. It was a journey with a beginning and an end and I loved EVERY freaking minute of it!

As I have said in other reviews for this series I must disclose that I am a friend of the author. She teases me mercilessly about my love of all things Alex and Meg and even wrote me into the series. But this is my unbiased opinion as a reader and a reviewer and is in no ways swayed by our friendship. I was just lucky enough to get to read the rough draft way before it came out. HEHE. Okay, now I can get to the review.

Um, did I mention that I LOVED it?!?! Because really I honestly did. Writing the final book in a series has to be the hardest thing to do. There is so much pressure on getting everything just right, tying up loose ends and making your readers happy. Well Prestsater did that and more. Like I told her I think Double Threat Forever is by far my favorite of the series and I was insanely crazy about the other books. Prestsater managed to bring all that fun and uncertainty from So I'm a Double Threat into Double Threat Forever, but she did it in a way that showed how each and every character had matured and grown. The girls all had struggles like they did in the other books, but these struggles weren't over stupid high school drama. It was over growing up and deciding where to go with your life and who you want to be. It was about realizing that boys will always be there and so will your friends, you just have to make yourself happy to make it all worth it.

Really I loved every last minute of this book and I think the did absolute justice to the series. It gave it the closure it needed and moved the characters forward in a way that made them stay true to who they were. I am going to miss Meg and Alex and crew like crazy but I'm also grateful they came into my life. I look forward to what else Ms. Prestsater has in store for us.

I'm so sad that this series is coming to an end, but what a satisfying end it was! Being able to follow Megan, Alex and the rest of the crew through their high school years was an absolute blast and to even get a bit of a glimpse into the future was an added bonus.

In Double Threats Forever we got to see how this crew had matured since their first days in high school and how the things going on in their lives were effecting their decisions and their outlook on life.

Julie Prestsater did an amazing job once again of capturing the voices of this crew in a fun, no-holds barred way just like a bunch of high school and early college kids would be.

I look forward to what Julie has to share with us next!

Finally, it is Megan's Senior Year! I am excited for her future as much as she is and after three years, I am confident that the non-relationship that she and Alex have will finally happen the way it is supposed to. What I wasn't prepared for was Ben being gone.

I spent a good portion of this book choked up. I missed Ben right along with everyone else. I wanted him to be there for his little one. I was proud of Ben and the decision he made, but it was a struggle watching him chose the path he did. I welled with pride in Ben and he stole my heart for the love of his country! I know I am overly patriotic but I just adore him so much!

This book was my favorite out of all four books but it was because I saw the struggles that Megan went through each year of high school. And the Epilogue... GAH! I couldn't stop crying at the new Double Threats. I just adored this one so much more than I was expecting. Choosing a college to go to without letting Alex or her friends factor into her decision... GAH! But this book ended on such an amazing note. I adored all four of these books and I am so glad I have read them! Julie Prestsater just does a fabulous job with this group of friends, and their crazy witty banter. I wanted their senior year to last so much longer!

Really loved this book. Loved the ending, it was really sweet. Although there are adult themes in these books, they are experiences that high school students really have and share, but she wrote about them so honestly and so well.

I can't believe this is the end of the Double Threat series. I have loved this series from page 1 of "So I'm a Double Threat." I feel like I was part of the gang with each page, and now that it's over, as happy as I am for everyone in the gang, I'm just as sad there will be no more adventures! For anyone who reads YA books, this is a MUST-READ series! You will absolutely love it! Julie, once again, you did very, very, VERY goodly!

### **Kinsey Faucette says**

Although this book series was a YA series, I actually loved all four books! I waited to write a review, as each book flowed nicely into the next one, and I really didn't have the words to say. I decided then I would write a review when I completed the series.....however.....

I'm still rendered speechless.

### **Brandy Jones says**

So sad this series is over! I have loved it from start to finish.

I loved following the Double Threats crew has the navigated the waters of high school (and in some cases beyond). It was great to see the characters grow over the series. Loved the added bonus of seeing the Crew in the future.

Julie Prestsater did an amazing job and I can't wait to see what she has for us next!

### **Rose says**

This was the perfect ending to a great series. The characters personalities develop and the author does an exceptional job telling the whole story. Upon finishing, I felt like there were no questions left. Which, to me,

is the best feeling while reading a series. The entire double threat series is a great portrait of friendship, romance, and teenage angst. I just hope the author continues on with the story with another generation.

4 STARS out of 5

**SUPER EXCITED and EXTREMELY SAD** for this book.....

It is always bittersweet when a series comes to an end. :(

Double Threat is an excellent series that gives you teens with real problems/issues such as

**-Weight**

**-Boy's**

**-Dating**

**-Boy's**

**-Friends**

**-Drugs**

**-Boys**

**-Kissing**

**-Boy's**

**-Teen pregnancy**

**-School**

**-Secrets**

**-Boys**

**-Betrayal**

**-Parents**

***And did I mention BOY'S!***

It was a shock to my system when I first read

So I'm a Double Threat, simply because it was so realistic. I even had a few flashbacks to my high school years. \*\*sighs heavily\*\* So Bittersweet....
