Her Dominant SEAL (Midnight Delta #6) by Caitlyn O'Leary

4 stars

M/F Thriller Romance

Triggers: Drug abuse, Gangs, Prison time, attempted murder

I am using my own personal copy for the bring your own book for Wicked Reads.

This is the first in the series that I've read and I never felt that I was missing anything. I'm sure there are characters that show up in previous books, but this one explained who everyone was.

This is a story about love of family, friends and falling in love. It was not at all what I expected.

While I loved the banter between siblings, I found that their story was so much more compelling than the story between Karen and Drake. While I enjoyed the chemistry and banter between Drake and Karen a lot, it felt, at times, disjointed.

Drake's protection of his siblings is admirable. He is also so disgusted with where he came from that it's hard for him to come clean with his best brothers in arms. Despite what they have been able to figure out about him, his friends are there when he calls.

All in all, I enjoyed the story a lot. The action in the story was fast paced and planned, the relationships were complex without being over done.

I can't wait to see what else happens and I am looking forward to going back and reading the previous books.

**Drake Avery is called back home after his 16 year old sister Piper calls him at night for help. He hasn't been home for 12 years and it is time. Time to face his demons. Saving his sister and being framed for a crime he didn't commit as he sent his father to jail. He returns home.**

**Not having time for love it hits him anyway in the form of a kindergarten teacher.**

**Karen Eastman has heard a lot about Drake. She comes from Alaska to get away from her overprotective brothers and father and meets a dominant SEAL. Got to be honest here. I didn't quite see where he is dominant but okay.**

**In the end is team comes in to support him and there is action packed with a punch. I really enjoyed this book there is a great plot with great characters. I had a lot of fun reading about Drake and Karen. The story flows in the right direction and I like the author's writing style.**

**What I didn't like where the six sisters specifically Eve who was a bickering and it got on my last nerve as well as the instalove between the main characters after five days.**

**Which leads me to backtracking and starting the series from the beginning as this is book 9 in the series.**

### **You Just Gotta Love Drake**

All it took was a call from his youngest Sister Piper, and Drake WS pedal to the metal on his way home. It has been more than ten years since he was forced out of town by then crooked law, but he kept track of his family the best he could, while keeping them a secret from his team. But the shit is about to hit the fan for this Knight in Seal Armor. As his brothers in arms come alongside to help save his family, things as he knew it will never be the same.

This incredible story of an older brother who does everything he can to help his sisters as much as he can is utterly emotional. The reunion even at the risk they take I heartbreaking. The love the siblings share is so intense. I love how he just about melts when he meets his match in Karen, and the love between him and all of his sisters. This emotional rollercoaster has intense ups and downs with moments where you swear you are there. The amount of emotions this story raises in its reader, is a testament to the incredible writing of this Author. Well Done!!

When you read a Midnight Delta story, you're guaranteed a fast paced, intensely gripping plot, that's jam-packed with suspense, action and romance. Spine tingling expectation and excitement builds throughout this story, and keeps readers on the edge of their seat till the last page is turned. Each scene is written in such vivid detail, that the images practically jump off the pages and the energy and emotions of the characters are felt deep within your soul.

Ms O'Leary has once again demonstrated her ever-growing talent with HER DOMINANT SEAL, as this is a story filled with long kept secrets, unexpected twists and surprises, and coordinated events that ensure there is never a dull moment throughout the entire book.

While we all have our favourite characters, there's no denying this series has continued to get better and better with every story written, and has kept me coming back with the promise of a one-sitting read that I know I won't put down till the very end.

Her Dominant Seal is the ninth book in the Midnight Delta series. It can definitely be read as a standalone. This was my first book by Caitlyn O'Leary and I absolutely loved it! It had a touch of insta-love without feeling forced or rushed.

"We've only known each other a few days, Mr. Avery, and it feels like so much longer. You scare me." He brought her hand to his lips. "No, I don't. And that's what really scares you."

Navy SEAL Drake Avery receives a phone call that sends him back to his home in Tennessee. He must protect his six younger sisters while getting to the bottom of the threats against them. With his mind on the dangers of the situation, he is taken by surprise when his youngest sister's tutor, a kindergarten teacher, gets under his skin and into his heart.

"Your love will make it better."

"I don't see how it can."

"It's made all the difference for me." Green and gold eyes shimmered up at him.

"I hope to hell it has. It's all I have to give, and it isn't much."

This book has tons of action and suspense and a sweet romantic storyline with an awesome protective alpha hero who knows what he wants when he finds it and isn't afraid to stake his claim!

"How about this, no matter how pale you get, your lips are still strawberry red and you biting them right now just makes them more swollen and kissable."

It no longer hurt to breathe, because she was no longer breathing. She stared up into eyes so brown they were black. He looked like a fallen angel, and God help her, he could talk like one too."

I loved the touches of humor sprinkled throughout this book! I am now a big Caitlyn O'Leary fan and I can't wait to read more. Maybe go back and discover the rest of the Midnight Delta SEAL team stories.  
5 Stars from this newest fan!

"Karen took a step closer and knocked on the body armor.

"Take this off."

"Okay." He grinned. "Wanna see my boo-boo?"

"Is that what men are calling it these days?"

"Just SEALs."

Medal Winning Brother, and oh yeah, SEAL.

Drake had just returned from a mission and was resting up like the rest of his team when he got the phone call. A soft female voice he almost didn't recognize, Piper, his youngest of six sisters. He didn't know what it was but he was up and grabbing his bag as they spoke. It had been too many years since he'd been back. They were in trouble and the people causing it didn't know trouble but they were about to.

The little town was not his favorite place. He'd left and joined the Navy. The other option wasn't acceptable. He expected to be treated like an exile. There were surprises in store for him. One, a little package of dynamite in charge of a room full of five-year-olds. Watching Karen handle the big bad SEAL as easily as she handled those kids was not only hysterical but when his guys show up to help out, they loved it too--at least until she took them to task as well. Then there was the tiny little niece, the one who was likely to become a millionaire, she had him from, "Unka Dwake?"

Drake and Aiden, and eventually some more of the team, had a lot to deal with but they were SEALs. When the enemy couldn't get at his sisters, they went for the woman who had him thinking things he swore would never be in his life he had to remember he wasn't on a sanctioned mission, and holding back from lethal retribution was difficult. With his team and family around him, Drake finds a whole new mission in life.

From my first Caitlyn O'Leary book, I knew she would become a favorite author for me. Strong female characters with a soft side that is sometimes a puzzle for the strong, alpha heroes, storylines that are all new, exciting and passionate. I only ask one thing, please don't ask me to pick my favorite O'Leary book because they are all my favorites.

What a great feel good book. I love a Navy seal and when you put him with a kindergarten teacher (swoon). Drake is protective, dominate, and a bad a&\$. He doesn't put up with anyone's crap, and will do what ever he needs to keep his baby sister safe. He also has a great set of sisters that kick a&%too. I loved Karen! She is so amazing.

I only wish I had read Caitlyn O'Leary's other books. This is a wonderful book, and you don't need to have read the other books in the series.

Drake and Karen had wonderful chemistry, and their story was a lot of fun, once they actually got together.

Their first real interaction wasn't until about 40% into the book, and for me this messed up the pacing of the story, as their relationship, and the resolution of the other events, seemed a lot faster than the first part of the story.

There was also a lot of additional stuff going on around the central couple, with a difficult family history, issues with the local police, etc. which I found to be a little distracting. I get that he was from a large family, with 6 sisters as was often pointed out, but giving each of them time, and mention, in the story left me feeling like the narrative was pulled in a lot of different ways.

The lack of the focus in the narrative as well as the time it took to get the main characters together made this feel uneven from the beginning to the end and resulted in a narrative that felt forced and pacing that seemed very uneven.

There were small appearances of other characters who were from other books, and while there were some moments with the characters, nothing that I would consider to be a spoiler or something that would keep this from being a standalone.

This was a fun romantic suspense read. I really liked the interactions between Drake and Karen, and Drake and everyone else. His sisters were a hoot, giving him grief.

I had no idea this series existed before and this is book 9. I'm going to have to go back and check out some of the others in the series since I enjoyed this so much.

Drake, a SEAL, hasn't been home since he was eighteen and told to never come back. Not being there for his six younger sister, not seeing them in person for twelve years, has broken his heart, but as his Mom agreed with him not returning, he stayed away. But when Piper, the youngest at sixteen, calls, terrified, he knows nothing will stop him from going home now and dealing with the mess their father created after just being released from prison. Piper, it seems, witnessed their Dad committing murder and testified against him. Now that he's out, he's looking for her.

Karen, a kindergarten teacher, is happy to help her teacher's aide, Piper, by picking up her homework from the school she's missing and drop it off. Karen isn't at all put off by Drake's attitude and knows full well the situation Piper is currently dealing with. As Karen also tutors her, she's agreed to be the go between for Piper and her high school teachers. Karen is touched by the concern Drake shows for not only his sisters' safety, but also for her.

When Karen calls Drake, scared because someone is breaking into her house, Drake immediately heads to protect her and when he sees she's hurt, he realizes she's gotten to him and he'll do whatever is necessary to protect her. As for Karen, though she swore off dating men like her overprotective Alpha brothers, she's intrigued by, not to mention attracted to, Drake.

As Drake, and a few of his teammates, work toward protecting Karen and his sisters, they're also looking into what his Dad is currently involved in, and what part his Mom plays in it. During this time, Karen, as she's staying with Drake and his sisters for her safety, and Drake grow closer, realizing they've found something special in such a bleak time. Both are taking it a day at a time as the situation is so precarious, but they know this is it, they've found their one. But first, they've got a criminal ring to take down.

What are Drake's parents engaging in? Who all is involved? Why are they after his sister, Piper? How far reaching are their plans? Can anyone in a position of authority be trusted? Can Drake and his friends keep everyone safe? Is Drake himself safe? How can Drake and Karen continue their relationship when they live in two different states that are very far apart? Is there a happy ending for the Avery siblings? Will Drake and Karen get a HEA?

One-click now and follow along as Drake returns home, reuniting with his sisters, and discovering a love that will overcome anything. While this book didn't contain the same pace as the others suspense wise, I think it was the perfect way to let us see the true Drake and why he is the way he is. His usual attempts that tend to result in his foot seemingly going in his mouth, sideways, is a direct result of spending his life protecting and taking care of his younger sisters. It was also nice seeing Aiden again and I like that it seems he'll be more visible in future books, at least for the foreseeable future. Also, I have a feeling Aiden's story is going to involve Drake's sister, Evie. If she'll ever forgive his attempt at a joke which did not have the desired effect and in fact hurt. He needs to prove himself to her and quickly.

I am a sucker for Military Romance so I thought that on that basis alone I would love Her Dominant Seal but sadly that was not the case. I had a really hard time getting into this one and even when it finally picked up I still found myself getting distracted easily. The title truly says it all in this case. I felt that Drake was just way over the top with his macho man vibe and frankly I found him repulsive. I don't know why anyone in the world would want a man that abrasive. A little bit of abrasiveness goes a long way! I loved Ms. Eastman. She is a very likable character because she will stand by those she cares about even when things get down right nasty. I also loved how the Avery family banded together in the face of evil. It was nice to see strong supportive family. I, however, didn't like insta love in this, it seemed forced or something. I couldn't really tell you what but it just didn't sit right. It was a great story line and I feel that it could have been truly amazing but it just simply fell flat for me.

Her Dominant Seal is the 9th book in the Midnight Delta series, but can be read as a standalone. I am a Caitlyn O'Leary newbie and was so glad I read this book. It was suspenseful, passionate, overwhelming, and an enjoyable insta-love read. Drake lived every day remembering his past and it was time to come face to face with his present.

Drake Avery wasn't always a strong, sexy, and skillfully Navy SEAL. He grew up in a broken household. The only good thing he had were his sisters. He did and would always be their protector. A fight and a few allegations later, Drake was faced with a choice. That choice led him to join the Navy. He had to leave the only family he cared about and hadn't seen them in years. A phone call from his sister had him catching the first flight to Tennessee. Would he make it in time?

Being back in his hometown was surreal, but he needed to get to his sisters. In all the drama, he met one hell of a woman in Karen Eastman. She was a kindergarten teacher who was pretty but didn't know it. After hearing so much about the infamous Drake Avery, he was even dreamier in person. She was captivated and so was he. Was it love? It couldn't happen that quickly..right?

Karen was intelligent and so brave. She knew the drama that was in the Avery's lives. But she wasn't the type of woman to walk away. She couldn't, especially since she was Team Drake ;) Things were always unexpected ever since Drake returned home and Karen knew first hand the pain it could bring. When she needed him most, Drake was there. Their love for each other grew by the minute. So, who would admit it first?

It usually takes me a while to get into a SEAL book, but Her Dominant Seal was addicting. I was hooked and on the edge of my seat..okay edge of my bed ;) I loved getting to meet Drake and Karen. It was hot when Drake went into protector mode and when he was acting silly with his sisters. Karen always made an awkward situation feel less so. She had a calming way about her that I feel made her Drake's perfect match. Love was new to both of them, but they instantly knew when they had it. They were brave because they gave their love a chance evn when they were afraid to. I give this 5 stars. Caitlyn O'Leary made me love a SEAL book, and that is hard to do :)

Okay off to binge reading more of her books.

XOXO,  
Perfectly Perez

Marie's Tempting Reads ARC Review:

Another seriously AMAZING book in the Midnight Delta Series by Miss Caitlyn O' Leary. After several books, we finally get Drake's story and oh boy, his book had me hungrily turning page after page. His commanding presence and his domineering ways I find exceptionally sexy and after learning about his past, yep, he became even SEXIER and I honestly didn't think that could happen. His protectiveness and his caring toward his sisters awes me and I swear, I sighed so many times, I think my husband thought something was wrong with me!

Drake Avery won me over from the moment I first met him in Her Vigilant SEAL but when I read his story, I am not only in love with him but lusting after him hot and heavy. His sisters are just as commanding and fun and sassy and you will no doubt find it entertaining as I did. And then we meet the woman that stole Drake's heart and I tell you, I FREAKING LOVE Her...almost as much as Drake! She is curvy, sassy, has a beautiful heart and perfect for Drake...and did I mention she is curvy? Yes, as you can sense, I LOVE curvy heroines and the fact that Drake loves Karen's curves too just made me love him all the harder. Her Dominant SEAL is full of adventure, action, suspense, sexy alpha males and wonderfully spirited heroines. This book deserves A FREAKING TEN!

Since I am actually unable to give this book a ten stars, I will happily give it the second best, which is an AMAZINGLY SEDUCTIVE FIVE SHOOTING STARS! If you love your hero to be a alpha military man who knows how to take care of himself, his sisters, AND his woman, than I KNOW you will love this book!
