## **Lucky Numbers Kelly Gendron**

*One locked safe, a troublemaking tattoo, and two determined people... add up to unlocked secrets and a love that just won't stop.*

Luke "Lucky" O'Conner is a committed bachelor. His motto... "Nobody's getting this Lucky." So when Kaley Harlow walks into his tattoo shop and somehow leaves with the only record of the numbers to his new safe tattooed on her sexy little hip, Lucky's motto is threatened. If he wants to see those numbers again, he has to get close. Closer than he's ever gotten to any woman. And he has three weeks to do it.

Kaley Harlow, a happily washed-up former child star, is out to ruin her reputation. She's through with people looking at her like she's still that innocent little girl in pigtails. Not to mention, her agent has just signed her up for a movie contract. But, really, all Kaley wants is to start a new life and finally go to college.

When Lucky happens into Kaley's life for the second time, the hot, tattooed badass is exactly what she needs to sabotage her image. But this badass has a secret, one that could ruin more than just Kaley's reputation...

## From Reader Review Lucky Numbers for online ebook

**Nina ~ Meleth Bookaddicted ~ says**

Sigh... books like LUCKY NUMBERS make me reconsider if I want a tattoo or not – simply for the possibility of running into a hot tattoo artist like Luke “Lucky” O’Connor. Too bad my boyfriend does not have – or even want – tattoos at all. But back to Kelly Gendron’s third book in her Trouble Maker series. All books of this series can be read as standalone – which is exactly what I did. Contemplating how much I liked this book I it is likely that I’ll read book #1 and #2 as well.

“Nobody is getting this Lucky.” Wow, what an arrogant self-absorbed asshole, having such a motto for life! Must be someone who has only love for himself. ...right? Well, not exactly, because Lucky has reasons acting like this, shoving everyone away who might care about him – but deep down, he is an affectionate, sensitive and caring guy: beautiful inside and out.

...and former child star Kayley is about to discover just that. Being tired of her “good girl”-image, she desperately wants to escape it, starting with a nice tattoo on her hip. When she gets in a quarrel with her drunken friend Marissa and the even more drunken tattoo artist who is currently working on her tattoo, the shop’s owner – Lucky – appears. Eventually he is the one who finishes Kayley’s tattoo, but not without leaving a very special mark on her hip. Never would he have thought that he has to see her again – that is until his cousin Sloan throws away the chit on which he noted down exactly what he worked into Kayley’s tattoo.

To add to Lucky’s trouble, Kayley is determined to use his “badass” to finally destroy her pure and white reputation irrevocably.

Both of them are in for a ride neither of them expected – or even wanted.

I loved both sides of Lucky – Lucky the badass O’Connor as well as Luke himself, his sweet and real side (...although I wouldn’t have minded if “badass” stayed a bit longer). The more time he spends with Kayley, the more the real Luke leaks through, without him even realizing it. Soon the original reason to get to Kayley takes a back seat and his motives begin to totter.

This is a sweet romantic story about a hot and sexy not so bad-assed tattooed guy finding his match in a sweet good girl who does not want to be that good. It is well-written, with absolutely likeable characters and has just the right amount of tension, suspense and emotion. Just wonderful!

As a side note, I really would love to get a book about Luke’s secret guardian angel, his twin brother Fallon, who is missing since he lost his wife. The one appearance he made had me intrigued and I really would love for him to find a way back to the good side of life again.

...but first I am looking forward to Sloan’s story, which will be next :)

---

**~Steph K~ says**

Let me start by saying that Lucky can tattoo anything he wants on me - and actually he can do anything he wants to and with me any time!! Yes, another hottie to add to your lists of "best boyfriends ever"!

Kaley decides she needs to change her "good girl" image and goes in to get a tattoo - meeting Lucky, the ultimate "bad boy" tattoo artist. She not only gets the tattoo she wanted, Lucky adds a little something extra that she doesn't know about. Luckily for both of them - that tattoo will be what brings Lucky back into Kaley's life again.

Kaley is shocked to see Lucky again - and realizes he may be just what she needs to finally destroy the perfect image the public seems to have of her. Luckys is all for helping her out - acting the "bad boy" - he goes above and beyond the call of duty. Of course, being around each other, these two can't deny the sparks that are flying around between these two - and when they get together - it is HOT!!

This was a great "never judge a book by it's cover" story. There was so much more to Kaley and Lucky's personality and life than what everyone might have seen from the outside. I loved watching them get to know each other - and enjoyed having some of the characters from the prior books show up for a bit in this story. In the end - these two ended up helping each other out in unexpected ways - and having more than they ever could have imagined.

I'm really enjoying this series - and I love how with each book the stories are getting better and better.

My Review

4.7 Star Review – Lucky Numbers

Lucky or Mr. Badass as some call him owns 2 tattoo shops. He is getting ready to open two more but has to remember the safe combination.

Kaley was in the process of getting a tattoo but Lucky has to finish it.

Where can he put the safe combination but within her tattoo. He does disguise it so no one else can see it.

He does also write it down but that paper gets tossed.

Now he must track down Kaley and somehow get a look at her tattoo.

Kaley needs help and Lucky is just the man for the job.

He is going to help her ruin her reputation while somehow getting those numbers.

Sounds easy right?

Well not when the chemistry is off the charts.

How can you keep it a mission of just getting the numbers when you are falling for the girl?

Will the truth of what Lucky needs from Kaley come out?

Will Kaley want Lucky if she learns all his secrets?

Should Lucky have just called a lock smith in the beginning?

You will have to read the story to find out!!

Love Kelly's writing style. You can feel the emotions come off the pages of the story. She keeps you turning the pages until the very end!!

I highly recommend this book.

## 1-Click Addict Support Group says

\*Ahem\* Truth. If my tattoo artist was Lucky O'Connor, I'd have more than two tattoos. I'd have several. Hundreds, in fact. Anything to get me back in the chair, near him. Whew, is anyone else hot?? So I guess y'all can tell that I have a new book boyfriend, huh? What gave me away? The raving about additional tats? Or maybe the fact that I could not put *Lucky Numbers* down? There's a song that goes "she's up all night to get lucky" and it totally applies in this situation. I was up wayyyyyyy past my bedtime reading this book and then up at the crack of dawn to finish it (although the baby may also have factored in my early rising time).

Lucky has plans. He already owns two successful tattoo parlors and he's about to expand his chain by two more. After safely sealing his collateral in a new safe, he watches as the written record of the combination is destroyed and he needs to make a new record of it before he forgets. In the middle of an altercation between one of his staff and a tipsy client, he finds that the only ink he has on hand is tattoo ink. Luckily, there's a gorgeous canvas in the form of Kaley Harlow in front of him to...*write* on - only she doesn't know just how important her new tattoo is about to become.

Kaley is a former child star looking to sully her reputation so she can move on with her life, and her first port of call is Lucky's tattoo parlour. She takes one look at the sexy badass and is immediately attracted to him. After embarrassing herself and getting her tattoo, she leaves the shop assuming she'll never see Lucky again. Until he needs to get a look at her hip, that tattoo and his combination....

I absolutely loved this book. Aside from causing me some major eye baggage from lack of sleep, there wasn't a thing about it I didn't enjoy. I haven't read the first two *TroubleMaker* books but I'm going to now. *Lucky Numbers* dropped hints about the couples introduced in the previous books without making me feel

like I was missing something important, while also intriguing me enough to go one-click them. It also introduced a juicy story for book four - another future one-click.

I've already waxed lyrical about my adoration of Lucky - who is big hearted and obviously stubborn in addition to being a sexy, tattooed badass - so maybe I should tell you why I also liked Kaley? She was sweet, and determined to change her life. It was great to see her learn to trust and grow. She was a little bit shy but also brave. She seemed like someone I'd like to be friends with. Speaking of which, her "pretty awesome" friend, Marisa, was a hoot too. I do so love secondary characters that make you sit up and pay attention. There were a few of those in this book.

I wasn't originally going to read *Lucky Numbers* (because I hadn't read the earlier books) but I am so, so glad it did. I definitely got lucky.

This is the third book in the *TroubleMaker* series but can be read as a standalone, no cliffhanger.

~ Beth, 5 stars.

### **Christine says**

Mmm... Beware you might need to change your panties while reading this book. I could not get enough of Luke (Lucky) and his tattoos. I do not have any but I sure want one. Kaley wants to be known as a bad girl so she gets a tat and then a little something more. I loved how the sparks flew, the air sizzled and exploded around Lucky and Kaley. Looking forward to the next book in the series.

I received a copy in exchange for an honest review.

### **KFForever says**

#### **FIVE STARS**

Reviewed by Claire Rose for **Kindle Friends Forever**

This is the third book TroubleMaker novel and each book is a standalone. Although I haven't read the first two books, I loved this one and would love to read the next one and any more in the series.

Luke O'Conner, aka Lucky, has everything a woman wants or needs. A loving family, his own business and a godly body. The problem is Lucky bares guilt from events that happened when he was a teenager and he can't move forward. While trying to remember the safety deposit vault numbers he'd had installed, he's distracted by one very high maintenance co-worker and a drunk woman in the shop and has no option but to go and investigate.

This inebriated woman just happens to be a Kaley's BFF. Kaley is having a tattoo done and because of the disturbance, he not only ends up tattooing her, but he also has to put things right since his co-worker screwed this young gal's tattoo up. There is an instant attraction between the two of them, so he flirts with her and she

flirts back knowing nothing will become of it. Or so he thinks until he realises he's made a dreadful mistake and he must find Kaley as she is the only one who has the answer.

Kaley was a successful child actress and struggling with her own events in her life, in her career and in her relationship with her mother. Even though she becomes rebellious, Kaley herself knows what she wants. She has a strong personality and has a best friend that every woman should have, too.

Lucky has no option but to find Kaley if he wants to get back what he inadvertently gave her. What is it you may ask? Well, not even she knows what it is and the only way to find out is by reading this story with a brilliant and fast-moving plot. When he does eventually find her, is this gorgeous badass of a man with tattoos and muscles in all the right places going to be honest with her? Is she going to accept or refuse a deal he offers her? But more importantly, is he going to be the man she thought he was or is he going to turn out to be sly and deceitful?

I have to say that despite Lucky battling with his past, he is one hot male and oh Lord, the way he talks and flirts with Kaley (which leads to a very hot sex scene), was above my expectations. I want him!

This book is written beautifully and I couldn't see any grammatical mistakes. Although this book is not my usual read, I'm looking forward to more books in this series from this author and I hope she writes about some of the other characters in this book. (Fallon, Lucky's brother, Marisa, Kaley's BFF) as I felt they also have stories to be told. A highly recommendable read and definitely worth the five star rating I have awarded.

### **Heather andrews says**

Kaley that girl is something else, I loved how she sounded dirty without meaning to sound dirty, "then tell me, Lucky, why should I let you be the one to poke me?" She flushed, realizing just how sexual the remark sounded." I was impressed with the self restraint that boy had when it came to Kaley, "needing to get a handle on the situation and his irrepressible co\*\*, he ended the kiss but remained locked to her body." Kaley she offers to ease his pain a different way most other women would, through conversation:

"You wanna talk about my tats again?"

Her lips turned up a bit. "I figured it'd help get your mind off, uh..." She glanced down, then looked back up.

"Oh...that." He tilted his hips, his hardness imbedding into her more deeply.

"Yeah, that. I'm sure you don't wanna get out of this pool until that, um...settles down." Her smile widened.

"If you'd prefer, we could talk about sports. I do know a little about baseball."

Sometimes Lucky has to set some things straight when it comes to whose doing what in the bedroom, "hey! Don't go getting cock.y." He snatched her hand. "I'll be doing my share of giving - the kind of giving that'll have you begging me to do the taking too." Kelly once again grabbed my attention and never let it wander one of the things I love most about her books.

---

### **Heather says**

I have been reading the TroubleMaker series since Kelly Gendron first released Broken Fences. I fell in love with her heroes and the ladies they love, her writing style, just everything about these books.

Lucky Numbers did not disappoint! I feel like every time I get done with a new book by her I say to myself this is my favorite one!, then she releases another and I am torn, I think this might be my favorite one!, now she has introduced us to Lucky and I think he is officially my favorite one. :)

I could not wait for Lucky's story after reading Broken Fences and Favorite Places. We got a little taste of what he was like and I wanted his story.

I have a thing for tattooed bad boys.

Nobody's ever getting this Lucky.

Those are the words Lucky lives by. He has had things happen in his past that leave him committed to being single.

Then Kaley walks in. In Lucky Numbers we know what Kaley's immediate reaction was to him and that was an intense reaction to just his appearance in the room. The way he talks would make any woman swoon, he is the type of alpha male who knows he doesn't have to make a big show of saying that he is in control or of needing to have control, he just has it.

I hope that makes sense. In some books the alpha male is very I am caveman you be Jane, it is said out loud, in Lucky Numbers, you just know that Lucky is the kind of man who gets what he wants and protects what is his.

I really liked Kaley as our female role, she starts out on this journey in desperation to get out of her contract by being the bad girl (not quite as bad as Brittany shaving her head). I think she grew a lot during this story, with finding out what it was she actually needed/wanted, and it wasn't a new hair color.

I loved this book just as much as I loved the others and I cannot wait for Finder Fees, Sloan's story. Kelly Gendron's men are lust worthy, protective of their women, but just as proud of the fact that they can stand on their own two feet, and her women are the type you want to have on your side, they stand up for themselves, they can be a little mouthy, they are tons of fun, and a bit of trouble (so are the men for that matter). I hope this family never runs out of members because I don't want this series to ever end. I know Sloan has her story coming up and I am hoping that Fallon will have one also. I cannot wait to see where she goes next!

Thank you so much for my copy that was gifted to me to facilitate this review.

## **Lourdes says**

Lucky Numbers is the 3rd book in the Trouble Maker series but hold your horses. No need to run out and purchase books 1&2 just yet so you can get yourself acquainted with the storyline as this delightful book is a true standalone. However after enjoying Lucky Numbers, you will want to read all of this superb writers' works. I fell enlove with her creative storyline centered around vibrant and interesting characters. The dialogue and layout was perfect and set the scene for an amazing read. Throughout this enthralling romance, the phrase "Poetry in motion," often came to mind. I REALLY LIKE THIS BOOK!!!

Lucky, Luke O'Conner is a sexy inked up tattoo parlor owner looking to expand his business with 2 additional shops. This hotty enjoys his singlehood and have no intentions of being in a relationship until he lays eyes on the most perfect canvas to ever sit in a tattoo chair, Kaley Harlow. In the midst of their first chaotic meeting, Lucky makes a decision that will ensure these two see each other again and for Lucky's sake, hopefully Kaley will have her pants down. But Lucky has no idea the beauty he involved in his rash decision is a former child star whose known for always doing the right thing. He's not called Lucky for nothing, cause contrary to what Kaley is known for, she is looking for someone different. Although these two have no intentions of having a relationship. Fate says otherwise.

I relished watching oops reading (the story transitioned so well I felt like I was watching) the characters develop inner strength, confidence, acceptance all while finding true love. Lucky and Kaley made the perfect couple. They complemented each other's personalities and physically made one hot couple!

Kudos Kelly Gendron.

Review Originally Posted at: Book Freak

**"Nobody's getting' this Lucky."**

Who's going to be that Lucky girl who will sweep him off his feet?

Luke "Lucky" O'Conner will forever be a bachelor. That, first statement up there is his mantra. He loves his singlehood, he loves the freedom, he loves his business, and he has some dark secrets he didn't need anyone to know. When Kaley Harlow, former sweet child-star, walks into his shop – his world did a 180. Not only that he tattooed the number of the safe on her hip (which I know was really one of those WTF-dumb moments), the attraction was a bit strong too. He knew he needed to get close, but he wasn't prepared for the sexual tension, the intense attraction that they will eventually share. Ah yes, he has three weeks to get those numbers.

Kaley wanted a normal life. She wanted to get away from her former child-star status of being a goody-goody. Her agent signed her up for a movie contract when all she wanted to do was to leave the business, leave a normal life and finally go to college. So, she do things that will ruin her pristine reputation – she colors her hair, inks her skin and will love to pierce her body too!

She thought she had left him in his tattoo parlor – but this man who had her panties in knots showed up for the second time, and offered to help her sabotage her reputation. How can she say no, when her mind gets crazy whenever he's near? But she never thought that this guy had more secrets than the tattoos on his body. His past had the potential to ruin more than just her reputation – it may ruin her heart too.

So he tries to drive her away – but the new Kaley wouldn't let him (thank goodness). She fights her way to his heart. The sexual tension was frustrating – he was building up anticipation, and it was killing Kaley that he wouldn't go through with it. It was a pretty much long foreplay – but the whole thing was so worth it when they finally made it to the bed. OMG. It was soooooo hot!!!!!! Indeed, good things come to those who wait!

But before he lays her feelings for her, he needed to lay his secrets first. Starting with the numbers inked on her hips, followed by his dark past. But before he can even start explaining – she overheard it, and all-hell broke loose. My heart broke a little for her, and for him – good thing Lucky knows how to do his grand gesture! I was thinking of hearts and flowers, but he did better. And thank goodness for Fallon, who miraculously showed up when he was needed the most.

His secrets just broke my heart, and I understood why he needed to protect Kaley from himself. But he underestimated this girl, if he thinks she was too weak for him, he was all wrong. Kaley can take him, his secrets and everything that comes in between. The love they shares was so much stronger than his past, and is enough to make them a future.

I had fun reading this book just as I had reading the first one in the series. Kelly knows how to stir up anticipation, and when you are just about to get sexually frustrated, she gives you one hot steamy scene that will raise the temperature of your room to some notches. She knows how to tickle your senses: to make you smile, to make you cry, and to make you fall in love. This was one short read that makes a great addition to the series.

🌟Complimentary Copy was given in exchange for an honest review.🌟

## **Linda says**

Haunted by his wild and troubled past plus the recent death of his dad, Luke O'Connor graduated college after his twin helped turned his life around. "Lucky" as he was called by his family vowed to never keep a woman for any length of time as he was unworthy of love and lasting relationships, but as he took over for Rex who was fired for hitting on a client, he was instantly attracted to woman that lounged in his recliner. How could this perfect want to get a tattoo on her perfect skin? He secretly added his new safe combination into her hip as there wasn't a pen nor pencil in the room, he took a call and left the room to get paper and a pen then wrote the number down and stuck in his pocket. Once he settled down he put the paper in his cup then left for the day.....

Former child star, Kaley Harlow needed to get get out of her contract that her agent committed her to, she thought if she got rid of her good girl image that she could get out of the contract and they wouldn't want her any more. Her first revolt was to get a tattoo. She wasn't looking for a man as she'd just got out of cheating boyfriend that used her. She needed the badass that walked into the room to help ruin her reputation.....

Kelly Gendron pens an interesting conflict as both Lucky and Kaley wanted different things in life but did they?

---

### **Amy says**

All I can say is I want to get Lucky and a tattoo by him. Cute story about a girl trying to lose her old good girl identity and move on to being an adult. One way to do it is get a tattoo and a hot guy to go with it. That's what Kaley did. Luke, who tattooed numbers on Kaley because he knew he might forget them, kinda struck me as weird. When he needs to find her to retrieve the numbers, he feels obligated to help Kaley ruin her image. How these two were able to keep their hands off each other is beyond me but they did and it was sweet. Luke, has a horrible past and guilt he's been carrying for years. I love how Kaley never gave up on him and in the end it was all worth it.

---

### **Dena says**

I liked the characters even though they were hiding their true feelings which I thought was ridiculous. I needed more substance though. I felt like this was 90210 or another teenage story t.v. Show that made me think WTF. So even though it was good I couldn't rate this more than a 3,

---

### **Milan says**

This book was kind of a let down, but don't let that discourage you because it's still a good book.

From the beginning, and if you read the other two books, you would've though Lucky would just be oozing sex. Maybe I'm a horn dog ? but I really thought Lucky's story would be drenched and filled with all kinds of sex scenes...but it wasn't lol and that's okay.

Some parts of the book were really misses to me when it came to transitions. But I can't say without spoiling the book lol I can tell you my favorite transitions were how she found out about Lucky's Secret, how Kelly used play on words with the phrase we saw in the first two books "Nobody's getting this Lucky" that was really cute to be honest lol

The foreplay scenes were hotter than the actual sex scenes lol

Idk what else to say really. Because this book didn't really excite me. I put it down more times because I was bored rather than it being soooo good that I couldn't handle it. And we all know how much I love Kelly's books lol

I gave it a 4 star because some parts were okay (like a 3 star) while some were great (like a 4.5 star) now add divide by two = 3.75 and I rounded up because when it was good it was great lol

---
