Isabelle's mission seemed so clear: kill the king of the vampires to give humanity a fighting chance. Except she didn't count on falling in love with him. And she didn't realize he held secrets that could actually end up saving the human race.

As the kingdom falls and Isabelle's heart is torn between two worlds, everything changes. There's something more dangerous out there, a plague that might destroy both humans and vampires alike. The only way to survive it might be to find a truce between species.

Peace will require the ultimate sacrifice.

And change the future of the world forever.

### **Sandra Brands says**

Because the book ended in the middle of the story, it's hard to review the novel. I'm not crazy about the direction it's headed and hope the second part will change that feeling.

### **Lori says**

I really enjoyed the 1st part of the second book, but I will hold out my complete review until I finish the entire book! Anxiously waiting for the 2nd half to come out!!

### **M says**

One star because I Paid too much before I realized this author has ripped everybody off! Maybe this will pull her attention! Book 3???

### **Amy says**

Waited ages for this and wasn't disappointed but can't wait for what comes next. Review coming soon!

### **Brice Jale says**

I only got the first part of the book. Dang it! When is the Part 2 going to be available?!

Nevertheless, this book(or should I say this series)is great and I loved the concept and the idea of everything. The romance is steamy and hot and I definitely need a fan. Hahaha LOL.

I would've needed to know that this was a Two-part book because it kinda left me hanging, you know? I was really worried at first why the book was so short and when I knew that it was just half of what the whole thing was gonna be, I felt that I never should have just read this.

I rated Night of the Fallen a 3.5 out 5 stars. It would have been a 4 or a 5 if it was complete 'cause that was just a huge let down. But seriously, if you love post-apocalyptic books with romance and vampires, then this is the perfect book for you.

Happy reading! ;)

Belle has returned to the other survivors to share the new facts she has discovered. She wants to convince them they aren't safe and that not all the vampires are bad. She left wanting to kill Marcus the vampire king and returned in love with him. As she tries to get them to understand about the Rabids and that they need to rethink things. Marcus is injured but will stop at nothing to find belle and keep her safe. He has to hurry as he knows she is in danger. They both are in love and now have to show everyone what they feel and that he can be trusted. Will they listen before it's to late?

Picking up where the first book ended you see right Belle and Marcus are of one mind they love each other. The rabids seem to be multiplying and they are a danger to all vampires and humans. Belle is trying her best to show the other human survivors they can trust the vampires but she isn't having much luck. A few secrets are revealed and it makes you see you never know for sure all you think you do. There is danger, hot scenes and so much more in this story. This review is short as it isn't complete yet. The second part is being released in August and I will just have to wait till then to see what happens. The author has done a great job so far in this series and I am sure many vampire lovers will enjoy this series.

Loved this book...hated that I was not told before buying it that it was a two part book... A warning would have been nice. It's great that we get it for free, but you should tell customers upfront so that they are not surprised. I think what you did was smart, but this needs to be on Amazon so that customers know.

I was kindly given a ARC copy of Night of the fallen for an honest review.

I was so hooked when i read City of the fallen Dark Tides 1, that i stalked anywhere and everywhere that Diana Boccowould add information about when the second book Night of the Fallenwould be released, when i got the email to pre-Order it i was way to excited then a grown adult should be lol and even more excited when i checked my email to find Diana had sent me a copy to read and review.

So lets start should we.....

Night of the fallen picks right up again after Belle took off in the car to escape the burning compound and Rabids, she returns to the farm with open arms and is anxious by their questions, and so this is how the story begins she is fighting her feeling for the people she feels she has to protect and the love she has for Marcus the Vampire King she has fallen deeply in love with.

Night of the fallen has a Walking dead feel to it except the threat is from Vampires,so if you are a fan of the program and vampires then this is 100% for you, i personally wouldn't recommend this to a anyone under the age of 17 hmmm maybe 18 due to the sexual contents, which is written very well but id still shelf this as an 18.

Once again i was hooked from the first few pages, i was anxious to find out what had happened to Marcus and if he would go after and find Belle, and have their happy ever after, Unfortunately Diana didnt get to finish the book for a number of reasons, but didn't want to further the release date and upset her fans, so released it early unfinished, but it gives you enough to keep you hooked and excited for the next part.

Part two will be released in August and if you purchased Night of the fallen it will automatically update free of charge through Amazon/B&N/Apple and you will receive a notification from them prompting you to update.

This was a honest review and i gave the book a 5 Star rating \*\*\*\*\*

I also want to send out a big Thank you to Diana for allowing me to read thi before its general release.....i look forward to part 2.

**I need more!!**

just finished night of the fallen and am dying for more!!! I am in love with Marcus and Belle. Belle made it back to the farm unscathed but now has to deal with telling her group what she found.....and that instead of killing the king she has fallen madly and irrevocably in love with him. the threat of the rabids is bearing down on them more than ever. I can't wait to get the rest!!!!

Isabelle escapes from the compound after the rabid vampires attack. She goes back into hiding with her human friends hoping they do not discover that she fell in love with the man she vowed to kill, Marcus, king of the vampires.

I love Night of the Fallen. The story picked up where book one, City of the Fallen, left off. The action never stopped.

Isabelle is a worthy heroine. She struggles with her feeling for Marcus and her loyalty to her human family and friends. She realizes that not everything is what it seems and that not all vampires are bad. Just like all people are not good.

Marcus is a well-intentioned leader. While things did not turn out how he wanted, he does try to do what is best. I like that he truly loves Isabelle. I appreciate that he seems to put a lot of thought into things.

Dark Tides is a terrific series with a refreshing dystopia spin on vampire novels. It is clever and well written. I am anxiously awaiting the next release to the story.

Full Review at: [What's Beyond Forks?](#)

Night of the Fallen is the second book in the Dark Tides series by Diana Bocco. This book takes off where the first book ended. Belle runs back to the other survivors, we don't know where Marcus is, and the rabids are worse than we thought. Unfortunately, the author had to split this book into 2 parts because well... life happens. But, she didn't want to disappoint her readers by pushing the release date back any farther. We can look forward to the second part to be released later this summer. This first part was full of heat, suspense, and danger, and was a big tease of what's to come. I'm anxious for more.

Night of the Fallen by Diana Bocco was kindly provided to me by Tasty Book Tours for review. The opinions are my own.

Overall Rating: 4.5 Rockin' ★★★★?

Since the Vampires had invaded Earth things have gone from bad to worse for humans. Marcus' brother Patrick wants to enslave and kill humans, while he wants to work with them in a reciprocal relationship. Patrick also has found a way to leash the rabids, vampires that have become sick because of the void. Patrick is systematically destroying all life on the planet and that included other vampires. While Marcus had gone to fight the rabids, his strong hole was attacked and destroyed by Patrick. Marcus had been tricked into leaving the compound unprotected and the result was catastrophic. Marcus is the King of the Vampires and has found his true love in a human mate and he had left her behind at the compound.

Belle loves her vampire and is worried that he may have been killed during the fighting. She manages to escape and returns to her people so that she can warn them about what is coming. No one will be safe and human life may cease to exist unless a miracle happens. Not only are the rabids overrunning everything they are not restricted to the night, they can move during the day as well. There is no longer a safe time for humans! The sense of safety that her people have felt is false and they need to move immediately to another safer location.

Marcus will move heaven and earth to find Belle and he would lay down his own life for her. When he finds that she is not at the compound and has left to return to her people, he knows that he must follow her. Patrick will not rest until he has destroyed her, will he be too late? Will he be able to find her in time? Where is she hiding? Can Marcus keep her safe and find a way to stop his brother and the rabids? ## **B. Brown says**

Book was great, but unfortunately only a snippet of what is was supposed to be. Now the 3rd book has

changed everything and will supposedly be much longer. As much as I really loved Night of the Fallen, I paid full price for the 2nd book that was barely over 100 pages with the assurance that it would be updated for free. I understand that things happen and plans get changed, deadlines moved. But now, if I want the rest of the story I will have to pay as much or more for the last one...just cannot decide if it's really worth it or not yet.
