5 Phenomenal Stars!

Good Girl. Notoruoius Bad-Boy. One Phenomenal Love.

Phenomenal X was a fabulous read. X really does hit the spot! I love Michelle Valentine's *Black Falcon* series and I wasn't sure if any guy she wrote would top Riff for me. Well, Xavier Cold pushed his way to the top! This is by far Michelle's best work yet!

Anna Cortez is a young girl trying to make her own way in life. After being raised a controlling and overbearing father, Anna leaves her home in Portland to live with her aunt and cousin in Michigan. To start fresh. On the airplane, she notices a man. A big man, a gorgeous man with light eyes and dark long hair. Everyone on the plane seems to know who Mr. Tall Dark and Handsome is. Everyone but her.

??Xavier Cold is a pro wrestler known as Phenomenal X. He's on his way home for the first time in a long time. When he see's Anna on the plane, he knows there is something about this girl. When he meets her, she is unlike any other woman he's met. Most women only want him for his notoriety. She has no clue who he is. It's refreshing.

The attraction between Anna and X is palpable. As much as Anna wants to, she can't go there with this man. Not right now. She is just trying to get her life situated and doesn't need the complication. X is intrigued by her. The fact that she isn't sleeping with him makes him realize that she really is a good girl. A girl that needs protected. Protected from guys like him. X makes that his mission. To protect Anna while he can, to be there for her. To be her friend. They quickly fall into the 'friend zone'.

It's obvious they both want more, the attraction between them and the sexual tension is off the charts. But even more than wanting to sleep with Anna, X wants to protect her. Even if that means protecting her from himself.

"There's more to me than just the persona that the public sees. There's darkness inside me that

no one should have to experience, and that's what I'm trying to protect you from. No one should have to live with my demons but me."

Now let me tell you a little bit more about the man that is Phenomenal X-

Xavier is **sweet**...

"Did you just reference a princess story? Macho guys like you aren't supposed to do that." He pulls me up against his side and wraps his arm around my shoulders. "We do if we're hoping to be a woman's Prince Charming some day."

Xavier is **sexy**...

"I could do things to your body that most women only dream about while reading their dirty romance novels, and I promise you'd fucking enjoy it."

and Xavier is a little bit on the **damaged** side with a past that tortures him...

"Don't think for one second that I'm not a monster, because I am. I can't change who or what I am. I hate to disappoint you, but I'm not a hero. I'm the fucking villain in this story."

Sweet, sexy and damaged= Christy's perfect man.

Anna and X stay 'just friends' for the time he is in Michigan. But with chemistry and a connection like they have, how long can they fight their attraction for one another?

When Anna finds herself without a job, she accepts X's offer to be his personal assistant. You can imagine how that goes... To be with this man 24/7. The ending was a little bit on the cliffy side, but it was one of those cliffhangers that made you want more and made you even more excited for the next book! I for one can't wait to see how this plays out!

I started *Phenomenal X* on a Saturday night. I laid on the couch and opened up my iPad and didn't stop reading until I finished. I found myself praying the depleted battery on my device wouldn't run out. I was engrossed in X's and Anna's story and didn't want to put it down. Xavier was an amazing guy. And Anna, a refreshing heroine. Even though the two were so very different, they had an undeniable connection. I really loved how the two were friends for so long, and got to actually know each other before anything happened. It's a welcomed change opposed to that insta-love that happens so often in books.

If you're looking for a sweet and sexy romance with a hot and damaged fighter, you've found your next read! *Phenomenal X* by Michelle A. Valentine gets 5 stars from me!

“We all have things that haunt us- things we’d like to forget. The key is to not allow them to get in the way of our happiness.”?“Not everyone’s meant to have happiness, Anna. Some of us are meant for the dark.”

I went into reading this book with lower expectations than my last read, and I can honestly say that I was entertained but I did miss the "wow" factor that I get with some books. I will give this a 3.5 stars as I did remain interested in what was going on; but a big reason that I am not going to give the four stars is that I DO NOT LIKE CLIFFIES!!! I felt like the ending literally cut right off at a critical part in the scene. I actually thought maybe I was missing a few pages. *sigh* That has to be one of my biggest pet peeves when it comes to reading. The story itself I did enjoy for the most part. I felt it was fairly simple as far as storyline's go, and even though there was somewhat minimal angst; at one point I almost didn't finish the read thanks to Mr. X's actions. I did eventually forgive him; but I will state this: if he does anything like that again...I will NOT finish the next book!!! It needed to be stated!

Basically this is a story that we have gotten from a lot of other books. We have the sheltered, good girl who is very naive and is basically running away from her home and family to experience life and freedom. Then we have the tortured, bad boy who has only two ways of coping with his emotional pain: through fighting and f--king. Oh, and Mr. Phenomenal X as he is known; is a professional wrestler. These two meet on a plane ride to their destination. Right away X, aka; Xavier Cold notices Anna Cortez and is immediately drawn to her. Anna is drawn to him as well; but she does hold on to her values and refuses to join the "Mile High Club" with this playboy! Of course, her putting the breaks on anything sexual, only makes him want her even more. Surprisingly enough though, these two end up going into a friendship at first, instead of jumping in the sack..Even though they are becoming good friends though, Xavier is holding back a large piece of himself and it doesn't sit right with Anna.

As the story continues, certain events happen where it ends up that Anna is hired by Xavier to come on tour with him. She does and begins to fit right into his life. The possessiveness and intensity of Xavier's feelings for Anna is something that I do love. He really did worship her, and he wanted so badly to protect and care for her. He is a bit of a caveman; but I will admit that I do love my heroes to be Alpha to the extreme! Phenomenol X absolutely lives up to my expectation of what a hero should be, and I developed quite the soft spot for him, especially once I found out how awful his childhood was.

While this couple becomes closer, there are outside forces who want to cause waves. Will X and Anna be able to overcome the negativity and be there for one another. Or will they crumble under the pressure? This is their story of how two people from two different walks of life can still fall in love.

Phenomenal X is book one in the "Hard Knocks series; and I will be waiting for the next book to come out! I am looking forward to finding out what will happen between Xavier and Anna. This was my first Michelle

A. Valentine book, and I will admit that my curiosity is now piqued on how her other books will be. She is for sure an author who I wish to check out more of her work from! All in all, it was a pleasant read that kept me entertained and reading through the night!

5 Phenomenal stars*****

Anna Corez is starting a new life, a fresh start moving a way from her controlling father she's been sheltered her whole life living in a good ole Christian home but there's religion and what's right, what's wrong and loving our family unconditionally, what Anna lives is not that at all, she's scared of her father and has not had a happy home so she's leaving to learn how to experience life, make friends and make mistakes too.

Anna is travelling on the plane finally getting away but manages to catch the eye of the one and only Phenomenal X.

Xavier is a professional wrestler on his way home for the first time in two years getting away a bit of time to reflect on his game, He catch's the eye of Anna feeling her eyes on him there is instant attraction between them both and after offering Anna a seat to her after an accident which she needs to clean up he is offering his company for there plane trip.

"I could do things to your body that most women only dream about while reading their dirty romance novels, and I promise you'd fucking enjoy it."

What Xavier doesn't know yet is that Anna has no clue who X is, she's lived a sheltered life and he is shocked by her innocence it's also very refreshing. Xavier also thinks he's a bad man and although he desires Anna and her body he see's how unique, beautiful and pure she is and that stops him from touching her he feels like he needs to protect her from the world and from himself.

So they make a deal and that is to become friends, she needs a friend in this new life and he wants to keep her safe its a win win, although they WANT each other desperately and their sexual tension is off the charts

they need each other in other way for the now.....

And that's how their relationship begins a friendship that becomes WANT, lust and eventually more when they both overcome their feeling towards each other.

"How am I looking at you?" I whisper. He tugs my earlobe lightly with his teeth. "Like you're begging for my touch." He inhales deeply through his nose and then growls, "I haven't even kissed you yet, and I'm already fucking hard. Spend the night with me. let me show you just how good I can make you feel."

"You're fucking sexy, do you know that?" His tongue darts out and he licks my bottom lip, causing my toes to curl. "You're my addiction."

Anna is new to living she's learning new things, by living with her cousin and aunt who are nothing like her father and her cousin getting her a job as a waitress she begins the process of making friends and making new memories', having new experiences.

She's also new to men and more importantly keeping Alpha strong males in her life.

What I did enjoy about Anna is her ability to handle Xavier from early on, with Xavier comes women and she quickly learnt to fight for her right to be with him if it was to be his friend or more, which was quite remarkable for a sheltered woman but really that's another part of why Xavier enjoys Anna.. **Refreshing**

Xavier

Ahh sweet Xavier although he comes across as a strong Alpha male and a bit of a man whore he really has a heart of gold, he doesn't see that himself but I definitely did. He did nothing but protect his girl but he has a dark past and a dark childhood that is the cause for a lot of his inner turmoil.

I know me. Once I become addicted I won't be able to let go, and I'll drag her down with me. She doesn't deserve that. She deserves more. She deserves so much better than me.

The goodness that pours out of her lights my world up like she's a goddamn angel. She

shouldn't want anything to do with a demon like me because I'll taint her.

Xavier is one tortured a hero but put that with one sweet innocent heroine makes fireworks and it worked, I loved this I enjoyed Michelle's falcon rock star series but this was hands down her best work to date I just NEED book two now...

Recommended read to all who love tortured hero's, sizzling chemistry and LOTS of sexual tension then jump right in

4.5 Phenomenal Stars

Anna knows one thing, she wants a fresh start. A life that is not controlled by her father on a leash that is far too short for a woman of twenty-one. Leaving Portland behind and on a flight bound for Detroit to live with her aunt and cousin, Anna is ready to finally start living her life.

Xavier is the kind of man that catches a woman's eye. So locking eyes with the hot brunette on the flight, it wasn't a surprise that he caught her devouring him with that look. But what was a surprise was that she had no idea who he was. Phenomenal X, that is how most know him. Rising pro-wrestling star, womanizer and all around bad-boy.

Four hours, that is how long it took for her to get under his skin. A sweetness that he knows is far too pure for a guy like him. A better man would stay away, but X just can't stay away. Even if being her friend is all he can be, at least for now. Tensions remain high as Anna refuses to give into her desires for a man that she knows can't give her what she wants. And that tension grows when she ends up working for him and they are going to be connected at the hip from now on.

But just as Anna starts to knock down some of the walls that Xavier has built the situation changes and he's ready to fight to keep Anna safe, even if he poses far more of a danger to her.

I am a Michelle Valentine fan. I was taken in by her Black Falcon Series and still can't hear a Journey song without thinking about Noel or eat an Oreo without Riff popping into my mind... Xavier fits in perfectly with the collection of book boyfriends, perfectly damaged... just how I like'em.

I was excited when I learned she was going to venture into the world of pro-wrestling for her next hero. This is an area that I am very familiar with, having married a man who dedicated about twenty years to it and for a brief period of time we were involved in a training school and promotion putting on live shows. Pro Wrestling was exposed in some way years ago and has further been exposed by the way it's portrayed present day; but there are still a few things, little secrets that remain between just the boys. This was the main reason why I could not give this a full five stars. The excitement that I felt going into this, being something that was a part of my life for such a long time - ended up being a bit of the cause for my downfall. When X tries to explain what he does and how he explains it; just felt a bit off - having had that conversation with countless guys over the years there is one word that is rarely used in the description. Fake. Scripted, yes. But as much as the matches are pre-determined and choreographed beforehand, fake is just a term that was out of place. It's not a huge deal, but it was just something that struck me right from the start and sort of caused me to wish that I wasn't so familiar with the business so I could just get lost in a fantastic story.

Xavier is hot, protective, sweet and fucked up beyond belief. I was ready to propose holy-book-matrimony when the first glimpse of his past came into view. There is nothing I love better than a hero that is broken. The chemistry between these two was off the charts from the start, each time they found themselves in the same room the electricity was arcing between them. Anna was a well written, strong yet insecure heroine - but not insecure in her feelings but just due to the lack of life experience she had. She was a very strong woman, it just took her a bit to realize that.

She was a tad pushy though - she poked the fuck out of the bear when it came to X's past. I was screaming, slow down you've only known him for a few weeks - he doesn't need to spill it all so soon!

Beyond my own personal issue with this, I enjoyed the hell out of this story and will be groveling for the second book to be released soon. The ending is a bit of a cliff (smallish); but it's not the end of the world type of ending - just one that makes you crave the next book. Another stellar release from MV.

Anna is on the way to her Aunt's house to get away from her over controlling father. During the flight, she meets Xavier, aka Phenomenal X, and he is a force to be reckoned with. Although she declines his advances, Ana can't quit thinking about him and the "what-ifs".

First, I have to mention the cover...

after seeing that, I *had* to read this book! I was a bit disappointed in all the similarities to the Real series by Katy Evans. But...I also enjoyed it and hey, the more, the merrier!

Anna was interesting. I liked seeing her get out and try to make it on her own. Thank goodness for her cousin, Quinn, she certainly helped make things a lot easier.

Xavier could be Remy's twin minus being bipolar. He more than makes up for it with his bad boy behavior except for when he is with Anna. I do enjoy reading about the girl that snags the boy's heart.

It takes a while for things to get steamy though. Xavier doesn't want Anna to be hurt by him so he keeps her at arm's length. They even make rules for being friends which are pretty hilarious. Thankfully, it doesn't last for too long!

Unfortunately, there's some drama involving another woman, Xavier's coworkers (He's like a WWE or UFC fighter), Anna's coworkers (before she goes to "work" for Xavier) and even from Anna's Dad.

What an ending!! Things come to a head and It. Just. Ends!! And at 89%...I *really* hate that!! But...I cannot wait to find out more information on the next book!

Anna Cortez is a 21 yr. old woman that has always lived a sheltered, controlled life. Her overbearing father runs every aspect of her life, including choosing the man she is to marry. Leaving everything she's ever known, she sneaks away one evening, and catches a flight from Portland to Detroit where she will stay with

her aunt and her cousin who is also her best friend. She is excited to start her new life, where she can be free to make her own decisions.

Shortly after boarding the plane, she looks up from her seat and locks eyes with a huge, muscular, drop dead gorgeous man. He makes her feel a bit flushed, and she feels extremely...

As she mentally undresses him with her eyes she is hoping what she is thinking isn't written all over her face...

She then has a bit of an issue that causes her to find herself in need of a new seat. This lovely mystery man offers her the seat next to him up in first class. People keep asking for his autograph, but Anna has no clue who he is.

Turns out this beautiful mouth watering man's name is Xavier Cold. He is a 28 yr. old famous professional wrestler born and raised in Detroit. He is just the type of bad boy her mother has always warned her about. He is a known playboy, and one of the hottest men in wrestling. To the public and his fans he is known as Phenomenal X. Even though Anna's never heard of him it turns out he has been on the cover of numerous magazines, and is about to start a new season where he will try to go after the championship.

Anna is intrigued with Xavier, and finds him easy to talk to. She is drawn to him, and continues to think about him even after they separate after their flight. Circumstances cause them to cross paths again, and they decide to be friends and hang out together. Xavier is on vacation in his hometown of Detroit for a week before he will go on tour for wrestling.

Xavier is so attracted to Anna, but tries his best to respect her and stay just friends. His two greatest addictions are working out and sex, but he immediately realizes Anna is better than meaningless sex. He right away feels close to her, and wants to protect her.

The two of them become very close, and eventually things become intimate between them. Xavier is a prisoner to his past, and has a lot of issues, and Anna is just wanting a fresh start. They are there for each other, and end up falling hard for one other, and can't stand to be apart.

This book was...

I really enjoyed this story, and LOVED Xavier! I adore a massive, hot guy who is a big teddy bear with the woman he loves. He is so sweet & loving to Anna, and it is easy to fall for him. I can't wait for the next book for their story to continue!

-If I thought he was attractive from a distance that is nothing compared to the sight of him up close. The intensity causes my stomach to flip and my knees grow a little weak.

-He seems like way too much man for me. I don't think I can handle someone so...intense.

-I've never seen someone with such intoxicating eyes. It nearly steals my breath every time I look into them.

-I could tell the second our eyes met that you were a sweet one."

-If I were the kind of girl who did naughty things with random hotties, I would be all over his offer to find out just how phenomenal he is-in a heartbeat. But as things stand, I'm still a good girl.

-That magnetic stare of his, leveled on me, nearly steals my breath. Fire shoots through me from where our hands remain connected and suddenly I crave more of his skin on mine.

-"Have you ever felt a connection with someone without even knowing them? When I look at you, I see goodness. I've not had a lot of good shit happen to me in my life, so when I see something pure, I'm drawn to it."

-"We all have things that haunt us-things we'd like to forget. The key is to not allow them to get in the way of our happiness."

-The good that pours out of her lights my world up like she's a goddamn angel.

-"Sometimes time is irrelevant in understanding the beauty of another person's soul."

-This relationship between us makes me question every moral I've ever been taught, and I can't help but think that one of these days I'm going to chuck them all out the window and just enjoy the "Phenomenal" ride.

-You're protective and strong, and above all else, you have an amazing heart."

-I can't even explain what I'm feeling. All I know is that I want him.

-"Tell me, baby. I want to know you're mine, and that you know you belong to me."

- "I'm yours."

I don't even know where to begin with this. This was one of the most ridiculous books I ever read. It felt so immature and everything was over the top, and the whole insta-forever-i am gonna kill myself if i loose you-love was happening in like 10 days they known each other.

The writing style... dear God... well I can scratch Black Falcon Series by this author from my to-read shelf that's for sure...

The characters... sweet Jesus ... idiots, such idiots that I am speechless.

Plamena says

3.75 Stars!

Well...what can I say...It was an okay read! There is nothing wrong with the story (besides the annoying heroine and the cliffy) but it just lacked the 'WOW moment'.

"You're everything to me. I'd trade my very soul to protect you, because you're worth it."

So...Anna is running away from an overprotective and controlling father who is also very religious. She ~~wants~~ NEEDS a change so she decides to go live with her aunt and cousin in Detroit. But what she doesn't know is that her life will totally change from the moment she steps in the plane. On the flight towards her 'new beginning' she meets Xavier (Phenomenal X)- the newest superstar of professional wrestling. He is strong/ He is sexy/ He is a bad boy/ He wants her.

Xavier is intrigued by this good girl. He wants her even if that means they will be only friends. He doesn't push her because he believes he is not good for her. But that doesn't stop him from protecting her. And when she needs a new job...he is there to offer her the position of his PA. But this 'living together' is going to put their 'friendship' on a serious test.

"You're special to me, Anna, and I want to keep you forever"

Okay...so I will start with what I didn't like and this was the heroine. This 'I am a good girl and we can only be friends' act was just too much as she was doing it for 70% of the book! o_O

The other problem I had is related to this statement:

"Don't think for one second that I'm not a monster, because I am. I can't change who or what I am. I hate to disappoint you, but I'm not a hero. I'm the fucking villain in this story."

If I have to be honest, this particular quote made me one-clicked this book. Well...Xavier is hardly a villain. If I have to categorize him he is a damaged alpha hero. His character is quite a cliché. That doesn't mean I didn't like him because I really did! But I feel somehow mislead because the way Xavier was acting and the things he was saying were absolute opposites. He mentions few times he is a monster but then there is nothing bad about him! (view spoiler)

Anyway...like I said...I actually liked it. I will definitely read the next book in the series because I wasn't expecting a cliffy...and it was a mean one. The story is sweet and entertaining. Just don't expect something extraordinary ;)

I received an ARC from the author's assistant in exchange for an honest review. Thank you!!

Holy sexpot, this was a hot read!! I'm already salivating over Xavier Cold, a.k.a "X"/Phenomenal X.

Being a fan of Michelle for a while, I already knew that this was going to be good and I was RIGHT!

Anna Cortez had her life made for her. With an overbearing and controlling father running her life, Anna finds herself running away to live with her aunt and cousin to Chicago. However, while on the flight from Portland, she catches the eye of notorious Wrestler Casanova, Xavier "X" Cold, the sparks are off the chart.

Only...Anna knows he's bad news and resists his charms but he's not having it.

He wants Anna in his life and his bed and is willing to go through all measures to keep her. Even, if it means just a strong friendship between them and him serving as her protector.

But, as fate would have it, as the two grow closer so do feelings. As much as Xavier wants Anna, he does not want an actual relationship with her. And with his demons resurfacing, an old flame in the way, his wrestling title on the line and a very heated rivalry in the midst, how will things pan out?

My thoughts: *Phenomenal X* was one of those reads where I literally read in one sitting. It was just so mind boggling and captivating that I just had to know what would happen next.

The only downfall to this story was: there was the typical, "I'm no good for her," "my past is too ugly for someone as pure as her". Ugh. I hate that in plotlines. It's so cliché and annoying really. Stop trying to be the noble martyr and let Anna make her own decisions. After all, it's something that the male protagonist tends to reiterate from time to time so it should be taken in great stride here as well.

That said, a GREAT beginning to a new series!! Gah, that cliffhanger had me going, "NO!!!". lol. And man, was it just me or was there so much sexual tension in this read?! I wanted to hump Xavier's leg like there was no tomorrow! *wink wink*

Anna Banana says

2.5 disappointing stars

I cannot believe how much I disliked this book. I knew from the synopsis that this book was going to be a bit cliche but I loved Michelle A. Valentine's previous books so I gave it a shot. Um...no. Just no. This book is a cross between *Real* by Katy Evans and every other New Adult book out there. Not original at all.

Anna is this super innocent 21 year old who is essentially running away from home and living with her Aunt and cousin across the country. She meets Xavier on the plane, has no idea who he is but notices how incredibly sexy he is. Of course he notices her right away and takes a quick interest in her.

Anyway of course now she's completely infatuated with him and can't stop thinking about him. He in return keeps talking about how he's "evil" and "not good enough for her" which by the way is so fucking annoying. I'm tired of the guys in books always coming up with stupid ass reasons as to why they can't be with the heroine. Always insisting they're not good enough. And then of course, he has to go and fuck up in a HUGE way that left me literally screaming with rage at no one in particular for about 30 minutes. This was my particular feeling toward Xavier:

At this point I fucking hate Xavier and I think Anna is so fucking naive, I can barely stand them. But then of course Anna continues on her stupid ways and lets just say it gets worse from there.

This book literally takes place all in the span of about two weeks and yet by the end of the first week their declaring love and fucking like rabbits? Oh and apparently she "read" somewhere that you can't get pregnant unless it's a certain week or some other stupid shit so they don't use protection...

The list can go on and on but I'm going to stop there because I don't want to spoil anything else for anyone. I'm upset that I didn't enjoy this book but I guess it just wasn't for me. Yes, there is a second book and it will be a continuation of these characters. Will I be reading it?
