**Renovation** Michael W. Litchfield

When it comes to home renovation, there's no substitute for experience.

**Renovation 4th Edition** contains the collective wisdom of hundreds of contractors, architects and tradespeople who shared their first-hand experience with Mike Litchfield as he interviewed and photographed them on job sites across North America.

As a founding editor of *Fine Homebuilding* magazine, the author of 12 acclaimed books, and a home renovator himself, Litchfield was able to record lifetimes of practical, field-tested solutions and trade secrets from the cream of the crop--the pros that other pros admire.

Both first-time renovators and professionals who want to supplement their knowledge of specific trades will find **Renovation 4th Edition** invaluable. **R4** reflects the new realities of planning carefully, spending wisely, maximizing space and building durably. Its 614 pages contain extensively revised chapters on planning; doors, windows and skylights; electrical wiring; and energy conservation. Its illustrations are crisp and informative. And its 1000+ photos were selected from more than 40,000 that the author has taken over the years.

This classic work covers renovation from start to finish surfaces. Best of all, **R4** is written in a down-to-earth conversational style that is clear and easy to understand. Litchfield has a sharp wit and a dry sense of humor that makes this book not only useful, but great fun to read.

### **Kathee says**

A detailed how-to book. Not an idea book.

### **Vinod Kurup says**

Great book, if I were a little more knowledgeable, but most of this is above my head and beyond my abilities. It's also focused (as the title makes clear) on renovation, with much less attention on repair and maintenance, which is what I'm looking for.
