Ride-along Maren Lee

Chloe Tisdale is a fun-loving woman with a crappy job, no current prospects for romance, and the apparent inability to listen to instructions from demanding men. After a run-in with a creepy stalker, she heads for Imminence, Montana to hide out and party with her wild, foul-mouthed cousin. Conveniently for Chloe, her cousin's husband just happens to be the Sheriff of Bounty County. Unfortunately for Chloe, however, one of the Sheriff's deputies is the easy-on-the-eyes-but-incredibly-bossy Justin Hunt, who broke Chloe's heart into a thousand pieces just one year earlier. And unfortunately for everyone in Bounty County, Chloe's stalker follows her to Imminence. Despite dealing with commitment issues, when Justin learns of the danger that Chloe is in, he immediately steps in to protect her. Will sparks fly again? Will Justin learn to love? Can Chloe ever forgive him?

This book has a high heat index, contains adult themes, and is suitable only for 18+.

Ride-along is the first in the Bounty County series; each book in the series is stand-alone with an HEA ending, but characters and story lines for future books may be introduced, so the series is meant to be read in order.

My first read by Maren Lee and the story had plenty of great scenes. Chloe and Justin had a falling out a year ago and when Chloe comes into town to see her sister, Justin immediately gets possessive. Chloe also came to Bounty County to escape the stress of situation at home that ends up following her and provides plenty of suspense in between her teasing Justin and pushing her own boundaries. The character development of Justin hit home for me with a once broken heart and whether he could ever truly get beyond it. Chloe learning whether or not he was serious about her is a concern dealt with well while building the heat and suspense throughout the story.

Good start to this series!

I really enjoyed reading this book. I love the characters and how they interacted with each other. I did feel that she should've let him grovel for a bit before she gave him a chance because he really hurt her the previous summer.

I'm excited to read the next book with Lane and Jared.

Book 1 in the Bounty County Series.

Author's debut novel.

Full length book.

Can be read as a standalone, but other characters for the rest of the series are introduced and involved so it's best read together and in order.

Written from dual POV.

Omg...I loved this!!! Definitely a MUST READ BOOK!!

Justin and Chloe's story has a little bit of everything in it: heartbreak, anger, second chances, romance, high heat level, laughter, love, suspense, drama, fear, and loads of emotions!!! I absolutely loved the chemistry between the main characters, and also between them and the other characters too! They are all so down to earth and are people I could see myself hanging out with and having a blast! Felt like you were right there in the story, living every second of it and loving it! I laughed, I cried, I bit my nails, I had to fan my face numerous times to cool down, and it was really hard to stop reading it!

An amazing debut novel for this author! I LOVE me some Justin!! But I will say this—thank goodness Book 2 of the series, Changing Lanes, just released this month because I'm about to dive into Jake and Lane's book right now and I can't wait!! :)

I just couldn't make this one work for me, not for lack of trying, I went back to this for days. Not enjoyable at all, with editing issues and the format was distracting. I liked the premise of a stalker but the story was very choppy and all over the place. And the added threesome... why? it felt like it was just shoved in there for no reason, and then you have the hero who suggested it (with his buddy, who he had earlier insisted he would not allow him to touch the heroine but then arranges the threesome... sooooo...) then getting pissed at the buddy for calling the heroine darling, but doesn't mind the buddy sticking his dick in her... okkkay then. The reactions were all wrong and over the top throughout with all the characters.

Baby, babe, sweetheart, baby doll, honey, darlin', Please, for the love of Zeus just choose one endearment for your heroine and stick to it. There was often multiple names in the same paragraph. Another distraction.

3.5 Stars!

Justin and Chloe had a bit of a relationship in the past, but when things got serious Justin ran away. Chloe was hurt, so she left town, and has held a bit of a grudge ever since. Getting into the Tinder game so that she

could get over Justin. Unfortunately things didn't go so well with that, because all she found were creepers and sleeve balls.

Chloe is back in town to see her family and of course the first person she runs into is Justin. Their physical attraction is through the roof, but Chloe can't stand him and Justin can't stand her. The sexual tension is through the roof, and their banter is actually pretty funny at times.

For being Maren Lee's first book this is really well written. I did notice a few typos, but it didn't take away from the story for me. I felt like the story flowed pretty well and it kept me interested. There is a bit of mystery, and I wanted to find out what was actually going on. I think she did a good job planting the little clues, and even throwing in a bit of a red herring.

There are plenty of naughty scenes and they are all pretty hot. I took away a star because of one of them, and it was because I just didn't feel like it flowed. It might work for others though, it just missed the mark for me. Especially if a participant gets his own book... It's just kind of a turn off for me, but that's just ONE opinion!

Speaking on that I really liked the side characters. Brenden and Sierra were an established couple that we didn't get a ton of together, but I did like their dynamic. Jake and Lane... Holy fire. They need their own book like yesterday. I loved the epilogue and needed more. Gosh those two. I liked Connor for 4 seconds, but he ruined himself for me.... Turd burger!

All in all a good read! It has romance, naughty bits, and comedy. There's also a bit of suspense and mystery. It's not super overwhelming, but it's there. I'd recommend to anyone who loves a HEA set in the country, with a cop alpha male and a sassy heroine.

DNF at 15%- I'm really surprised this book is rated so highly. The writing seemed very amateurish to me. I tried lightly skimming after the 15% mark and can confirm, the writing doesn't get better.

Breanna Eichhorn says

This book is a good read. It took me a while to get into the story but once I did I found it very hard to put down. I look forward to reading more books by Maren Lee.

Mary Meredith says

This was a great first read for me by this author. There was suspense and it is known. You know it's going to happen and you know it's going to be bad.

Chloe is unsure what to do with her life. She had so much going on and coming to visit family just leads to a whirlwind two weeks.

Justin is chicken plain and simple. When the push comes to shove he has a choice to make. He is the complete alpha cop but Chloe slowly melts his hardened shell away to reveal the softer side of this overprotective brute.

I'm interested in the second story because I hated Jake. He burned me the wrong way and I know that makes a great writer. When I get passionate in my feelings about the characters it makes the story more enjoyable. These main characters are in their thirties and I liked that. It was relatable even the occasional drunken night. Most of the others are in their twenties to thirties which goes well with the story. The way the LEO's are was funny and accurate.

Cannot wait for the second in line. If you like hot steamy cop stories then I recommend this tale to you. It is a quick instalove but I didn't mind it in the least.

I really liked this book and was the perfect way to spend a few nights. Maren did an awesome job keeping wanting to know what was going to happen next and setting up for the next book in the series. Hot sex, made me laugh at some points, all and all and enjoyable read, can't wait for Changing Lanes!

4.5 Stars!!!! to "Ride-along" by author Maren Lee!

First I'm going to assume that this is the first book by this author as I haven't seen any other books listed on Goodreads. That being said, I loved it! The writing was well done. Maren's characters were sexy and witty with realistic and sometimes outrageous dialogue. I laughed often at some of the things that came out of there mouths. Filters? Nope! The pace of the story was fairly steady with just a bit of a drag in the beginning pages. There was suspense going on throughout the entire book in the way of a psychopathic stalker. Our couple, Justin and Chloe, had a lot of alone time drawing them emotionally closer despite the fact they insisted on keeping things casual. In fact, they were rarely apart. I would have liked a break from their togetherness now and then, hoping for more stalker action which basically stayed in the background until the last 20% or so of the book. Hey, not complaining, just stating. But when that plot headed to its turning point? I couldn't sit still! Wow! As I read I became frantic and panicked as badly as Justin. And that was bad! I loved seeing Justin's reaction to the danger Chloe was in. He was a mess. And if I doubted his love for Chloe, his reactions totally proved me wrong. Truthfully this was my favorite part of the book and that says a lot because I loved "Ride-along!" Have I read this trope before? Yes, many times. However this book was hands down the best I've read in a while. I know we all have that author where their style appeals to each of us. And we don't all have the same opinions. But Maren Lee had me enthralled. That being said, you may be wondering why I only awarded 4.5 out of 5 stars? There were quite a few editing errors. :(There were enough that my reading paused several time to re-read sentences interrupting the flow. So that's my only complaint.

Chloe Tisdale was a likable character. She was intelligent, sexy, impulsive and had no problems saying things that would have most of us blushing. However, she was a bit immature at times. Chloe did a poor job with taking her own safety seriously and as a result she made some poor choices. Chloe and Justin had history. One year prior he broke her heart. Crushed it! I wish Chloe would have made Justin work a little harder for her attention. I love a groveling Hero.

Justin was written well. OMG, he was a hot cop with a perfect physique and such a dirty talker. What a panty melter! From the first pages I knew he was book boyfriend material. Okay. Now I have to admit to one tiny thing about him that had me occasionally frowning. I like dominance in my heroes but Justin was downright bossy sometimes.

Justin and Chloe took insta-lust to sexy, sensual level. They could not keep their hands off each other. It may have started as lust but there was a base for more and I loved watching their lust turn into love. Especially with Justin.

There were secondary characters that I loved. As a matter of fact, I believe Jake and Lane's story is in the works. Yea!

Maren, if you ever read this review, I'd like to ask you if there is a possibility for a prequel? I would love to read Sierra and Brandon's story. I loved those two. Sierra is outrageous!

I definitely have this author on my watch list!

Will most definitely will be reading more, need some Jake & Lane! Changing Lanes!!!

Natasha says

WOW this first book from this author is fabulous. I loved that each character and how quick witted they each can be. Loved how Chloe can stand up for herself and not let Justin use his power to go all alpha on her. Justin is such a strong alpha male that has this huge heart. What made this book stand out for me is- yes this is erotic and sexy as hell, but the suspense and plot had me constantly guessing and turning the page till the very end. Maren Lee hit it out of the park for her first book in this series. I cannot wait for book two to come out.
