I liked the storyline and the twists and turns, but felt sorry for Shady (Zeke) for choosing such a loathsome partner.

For two years I readed 663 books. Some of them get my 5 stary because they were brilliant, emotionall, they have great charakters or storyline. But not once did I cry so hard like with sinners,s revenge by kim Jones. Not once I couldn't shake this filling from my heart and my brain. Maybe the storyline or charakters wasn't the Best i ever readed , Maybe it wasn't the best book ever but i couldn't put it down and i couldn't stop crying and sobbing so for emotions Kim 5 stars. Tank you... I have no idea how I will go with my Day now. . I have a lot to do and i can't stop thinking about Dirk and Saylor....

Cézanne Hayden-Dilbert says

Sinner's Revenge is my first Kim Jones book. Yes, I know this is the second book in the series, but from what I've heard about book one, *Sinner's Creed* , I wasn't in the mindset to deal with all the crazy intensity. Now, if someone had told me that I would truly love the weird duo that is Zeke and Diem, I would have laughed. Even by MC standards their relationship is not your typical love story. Their dynamic is contentious, odd, and it's probably borderline insane, but there was something utterly endearing about the love/hate chemistry that they had going on.

"I was playing with fire. But getting burned never felt so good."

Like the synopsis says, for 8 years Zeke aka Shady has dedicated his life to the Sinner's MC, but losing his best friend crushed him. He was set on getting revenge for the brother that he lost. I felt Shady's pain, there was no doubt about how he felt. His emotions and feelings came across easily. I loved his loyalty and passion to both his MC and his friends. He didn't want or need any sort of distractions from him carefully crafted plan. Meeting Diem was definitely not the distraction he needed, yet she constantly placed herself in his path.

Now my initial first impression of Diem was that she was a sweet, albeit a tad naive young woman. **I WAS WRONG!!** Diem was a fireball in a tiny little package. She was bold, brazen, and she could easily dish it out as well as she could take it. The mouth on that women. She made laugh and cringe. She could truly be intimidating but I liked her.

I can't explain it but there was something about both of these characters that just intrigued me. Honestly I'm surprised the two of them didn't smother one another. Their banter was always an intense back and forth. They easily pushed each other's buttons because their personalities were so much alike. Yet, it was obvious that there was a true chemistry between them.

"There is no place in this world I rather be than in his arms, on his nerves, and at his house. He makes me feel like there is something magical inside me. He bring's out my worst, then contradicts with my best."

Sinner's Revenge was one of the better MC books that I've read. (Have I mentioned I'm super picky about my MC books? No? Well I am.) There was plenty of action, lots of sexy times, sexual tension, and an actual believable motorcycle club. There was a moment in the book that took me by complete surprise. Hell I even messaged the author about it. I really enjoyed the story and the Kim's writing. Now, was the ending a tad bit sporadic and fast paced for me? **Yeah.. a little.** Did it take away from my overall enjoyment of the book? **Nope not really.** Would I read the next book in the series? **You bet your ass I would!** Especially if the next book is on Rookie and Carrie. I'd be all for that.

Sophia says

There are many kinds of anticipation when it comes to sequels. As I approached this book, I felt deep excitement that comes from knowing I'm getting into a book that I will love, gleeful excitement because just from the title alone I know I'll get a feeling of satisfaction from unfinished business, but also anticipatory dread. Dread because the first book gutted me and I now know what depth of emotion and engagement the author can bring to a story. And yeah, not even to double digits on the page count and I was sobbing my eyes out and unable to put this book down for love or life.

This is not a standalone, but a sequel that picks up where the first book left off though the protagonists are new.

At this point, I will put out a series spoiler alert. I can't get into the summary without coughing up the goods on the ending of book one so bear that in mind if you choose to proceed.

The book opens with Shady raw and filled with anger and hate after burying friend and brother. He will avenge Dirk and leave no loose ends. Fortunately, the club leadership agrees and allow him on semi-sabbatical to go and do what he has to do. Shady is joined by Rookie and Tank to help in his plan to bring down the MC that went after Dirk.

Shady's revenge work takes him to New Hampshire where he establishes an identity as Zeke an IT guy who works from home so that he can be right in the middle of enemy territory. But it also brings him into the orbit of one intriguing, hard, enigmatic woman, Diem. Diem is cold behind the scorching burn she unleashes when she wants. What she wants; she goes after and usually gets. The same could be said of him. He sees through her thick emotional walls and knows her like he knows himself. But Shady has a mission and Sinner's Creed is his first priority. That doesn't leave much room for Diem even though she is carving a place inside him whether he wants her to or not.

Diem spotted the cold, dead-eyed man some time before at the bar. He just doesn't give a rip and has no fear. He's coiled tight, but keeps it all under tight wraps. The man interests her as few ever have. She knows stone-cold killers and thugs, but this one is something special. She wants him. But Zeke isn't easy and she soon learns that his mind is as cunning as her own. She wants and hates him at the same time when he sees right through the facade that no one has ever seen beyond. This scares her. She is drawn in. He is mysterious and goes off to do mysterious things. She will have him and all his secrets, but will he have hers as well?

And does he have it in him to want her?

This had the intensity of the first book though the characters are so very different in personality and how they come to love. At first, I was mystified about Diem, but whew boy did that twist and reveal about her explain a lot. Shady and Diem are drawn well. They are both dark, gritty, intense characters. Their romance is more a battle of the wills and nothing soft about it. They are one sizzling hot couple and the author's writing brings the reader right into their lives and bedroom.

The overarching storyline of two motor cycle clubs on the brink of war over territory and goods while being controlled by the mob who will come down hard if distribution and profits are messed up leaves things in a shaky place. Sinner's MC Nationals need to replace Dirk with a strong 'Nomad' enforcer and they've tapped Shady for this work. Local clubs are slacking because their fear of Dirk is gone so Shady has his work cut out for him because he is no Dirk- he must do it his own way. There was some shocking reveals and shake ups with this part of the story, too.

And just when I thought the dust was settling, nope, this one wound things up again and delivered a whopper of a climax. I was turning pages hard and holding my breath as things went down.

The good news is that this one didn't gut me in the end, but I still cried a bit. I surely hope the author plans more from this series. Amazing stuff here.

All in all, this was no sophomore slump and held it's own after the magnificence of the first book. Those who want to be pulled in and engage with a hard, gritty biker romance should definitely give this series a go.

My thanks to Penguin Group for the opportunity to read this book in exchange for an honest review.

Rosa Sharon (iScream Books Blog) says

As hot and sweet as an Atomic Fireball...

I finished Sinner's Creed crying and I started Sinner's Revenge the same way. As the author put me inside Shady's head and shared his grief with me, I felt it all over again and grieved with him. I felt the pain of his loss and was ready to ride with him and virtually kick some ass as he avenged the death of his brother and best friend. As he struggled with his memories, I did too. I could see the events playing in my mind, as if I had really been a part of that last sleepover. I could smell the fragrance of citrus...

Shady is determined to make the Death Mob MC pay for taking his brother. That burning need for revenge is what is keeping him going, giving him purpose, helping him to deal with his loss. He is taking his time, being very careful to leave no trace of evidence that can lead back to Sinner's Creed. They've already lost the greatest nomad in Sinner's Creed history at the hand of Death Mob, and he had no plans to make them suffer any further losses. He will protect them with his last breath, because they have always come first in his life, and they always will.

Shady spends a lot of time researching the location and activities of his enemy before making his move. And then when he finally does, it's undercover. He's now Zeke. And that's who he is when he first meets Diem. He has no time for a distraction like her, but she won't go away. She keeps turning up...at the bar... ***and in his fantasies.*** She's infuriating and sexy as hell. She fearless and funny. She's argumentative and pushy. And though he's not seeking her out, she keeps turning up, driving him crazy. She always draws him in with,

"Make you a deal?" , and then he's tempted to play. She is irresistible and dangerous. And, she has as many secrets as he does.

Sinner's Revenge is told primarily from Shady's POV, but there are a few instances where Diem briefly shares her thoughts. But not nearly enough for me to have gotten a reading on what she thought and felt for **Zeke**. The only thing I knew for sure was that she wanted him. Not that she gave up that information easily. She was feisty and furious most of the time. Teasing and provoking Zeke to get a reaction out of him. They spent a lot of time fighting, and it was HOT. That was their foreplay. When they told each other, *"I hate you."* it felt like the opposite. They pushed each other's buttons and the sexual tension between them was out of this world. It was exciting to witness their banter and competitions as I waited, and waited for them to **finally** put us all out of our misery and give in to the explosive chemistry between them. And it was worth the wait (wink-wink).

While Zeke worked to maintain his cover with Diem and the locals, he was still working on his plans for revenge. When he would periodically get called in to International, he would use his fake web design career as the excuse. And Diem was understanding, since she also traveled for her pharmaceutical sales job. And did I mention how they provoked each other's jealous streaks during those trips? Their relationship was just as explosive when they were apart and by the time they were back in the same room together I was virtually searching for cover from any stray bullets they might let loose in their anger. But I was willing to take the risk, so I could be close enough to witness the angry sex that might follow. I have no shame.

As I discovered in Sinner's Creed, the author has a mean streak. I wasn't going in with any rose colored glasses. I was expecting her to surprise me again, but I didn't know how. I was holding on to my heart, **just in case**. I hadn't recovered from the previous fall-out, so I was proceeding with caution. But I couldn't help it. I fell again. Not only for Shady, but for Diem too. They were so entertaining, when they were fighting, **and when they were making up**. I just wanted to sit and watch with a bowl of popcorn. And then... **it happened**. Yup, she surprised me again. I had guessed about part of it, but was totally floored by the other revelation. Now I needed some chocolate to go with my popcorn cuz it was gonna be a long night. Sleep is overrated anyway, right? I could not put my kindle down, it was just too good to stop. I admit, I've read hundreds of MC Romance and none of them were like this. I've never experienced members of International rather than an individual club. I've been to church in a clubhouse, but never on a patio. It was a whole new perspective to a biker lifestyle that was very intriguing. I connected with the main characters and the support characters. I laughed and I cried. I worried and I waited. I got angry and anxious. I guessed and groaned. I smiled and sighed. And even though I don't smoke, I wanted a cigarette when it was over. But I really hope it was only a 'See ya later', and there will be more Sinner's Creed to come.

Inside, I'm screaming in agony. But no one can hear me. My eyes are filled with sorrow and loss. But no one can see it. My chest aches with a thousand flames from the fiery sea of hell. But no one can feel it. No one but me. Shady. The man who was born with nothing, lost everything he'd gained, and has something he doesn't deserve. Life.

I went through the emotional wringer back when I read Sinner's Creed. It equal parts gutted me and left me yearning for more. I remember bawling like a baby at the end and thinking how tragically beautiful the ending was. And I also remember practically salivating to get my hands on Shady's book. The death of his best friend and brother left Shady reeling. The only thing that burns in his veins is his need for revenge. He won't rest until those responsible for the death pay for it in blood...rivers of it.

***My anger is fueled by all that's been lost. Fury blazes in my eyes. Rage consumes me.
Revenge is my only thought. Killing is my ultimate goal. Death is the only justice.***

Shady is as calculating as he is lethal, and his plan for revenge is thoroughly planned out. It's what he sleeps, eats, and breathes. Nothing can distract him from his ultimate goal until a woman that's as crazy as she is beautiful demands his attention in a way that he can't ignore.

Diem, for lack of a better term, is batshit. *shrugs* No really. There's something seriously wrong with this chick and it was equal parts entertaining and infuriating. There were times where she'd do something that left me reeling and scratching my head. I mean, the woman shows up randomly where he's at, steals his truck, and basically moves into his house without so much as an invitation. But there's always something to her. Something that's just below the surface that constantly has you questioning if everything is as it seems...

He's under my skin. He's in my head. He gives me everything I never knew I wanted and then some. If I thought I was falling before, I'm sure of it now.

This was so much more beyond an MC romance. It's the story of brotherhood and a bond that reaches beyond death. Shady's unwavering loyalty to his MC and his love for his brother was evident in every page. I loved his connection to his fallen brother even if it was heartbreaking knowing what he's going through. His inner turmoil was palpable.

I also loved that while there's clearly sexual chemistry between Shady and Diem right away, it was almost a reluctant relationship. Both of them know they're chaotic together and yet they can't keep away from each other.

***We're scarring each other.
Hurting each other.
Torturing each other.
And it's never felt so fucking good.***

Admittedly, my one struggle throughout the book was Diem. I had a really tough time connecting with her character. She was just all over the place with her mood swings. She's a tough bitch, but at times it was almost too much so. I felt like I needed a valium every time I'd read another one of her tantrums. In parts it was entertaining, and in other parts it was just draining. There was one part in the first half that I thought could go somewhere, especially after the big revelation, but didn't. (view spoiler).

Kim Jones delivers one heck of a gritty tale with Sinner's Revenge. Her writing seems to get better and better with each new book and I'm definitely a huge fan. No one delivers an MC book quite like her and this book is further proof of that.

There's so much that happens here that I found myself practically incapable to put down my kindle until I finished. There are twists at every turn, some so completely mind blowing that it left my head reeling. And while I struggled with the first half with Diem, I devoured the second half with fervor. I highly recommend that you read Sinner's Creed first in order to truly appreciate everything that happens with the story. But mostly, I recommend it so you truly appreciate the epilogue. Damn if the author didn't get the waterworks from me yet again. I adored the epilogue here. It should have been slightly cheesy but it wasn't at all. It was beautiful and touching and gave me that final sense of completion that I didn't even know I was missing after the first book. Perfection.

Gritty, violent, dark, and brutal on the one hand, and full of emotion, brotherhood, and love on the other. This book was the perfect balance of all of those and more! I loved all of the secondary characters, I loved the intensity and I absolutely loved the ending.

Kim Jones. The lady knows how to write a compelling, in your face, completely captivating romance that's unique, dark, and leaves you craving more. Sinner's Revenge was a wild ride as Shady spirals down a very dark path of revenge against a rival MC and finds a little light and happiness in an unexpected and crazy woman who may just have a bit of darkness in her as well.

So 5 things about Sinner's Revenge...

>>>These two were fucked up. And a tad crazy. A bit growly and bitchy. Rude and in your face. And they're totally perfect for each other. They drive each other insane and fight and piss each other off and damn if they don't love every second of it. Easy going and tame...these two are not. lol They're passionate to the extreme. But I loved Shady and Diem. In all their nutty, crazy, messed up moments they won me over and had me smiling over them. They were seriously hot together, too.

>>> There are a lot of secrets being kept between them. Big ones. But this was a time when secrets were understandable and made sense. They kept what they were hidden and rightfully so. It didn't piss me off or have me shaking my head or ever saying "just tell them!" This is how the big secret trope should be done. There were also some surprise revelations that hit them both at the same time that I just loved. (and had me going oo! I did not see that coming!)

>>> There's a LOT of blood and gore. Since Shady's main goal in life is killing everyone in the rival MC club which had caused the death of his best friend there's a lot of death. Granted they weren't awesome

people being wiped out but, yeah, that'll be too much for some. He's a killer. Flat out. There's a lot of dark in Shady. But there's a lot of dark in Diem as well that's surprising so they work.

>>> The book is mostly told from Shady's POV which I liked. It really felt more like his journey of dealing with loss and the need for revenge and moving on. There are chapters every once in a while from Diem's POV but they're sparse.

>>> I loved the ending epilogue. It tied in to the previous book and had me going teary eyed. There's a complete HEA and everyone lives--in case anyone was concerned.

All in all, Kim Jones has me on board for more. These aren't the romances for everyone--they're dark and gritty and the characters somewhat...shady--but if that's your thing they're fantastic reads that'll keep you up way into the night.

~~~notes~~~

7/21-- These two were fucked up. And a tad crazy. A bit growly and bitchy. And totally perfect for each other.

4/11-- Squeals!

Sinner's Revenge by Kim Jones

Shady & Diem

**LOVED IT WITH EVERY FIBER OF MY BEING**

5 Freakin' Shady Stars

So, this is the second installment of The Sinner's Creed series and oh so damn good! This one is similar, yet way different than the first book. So many plot twists and much emotion that it kept me on the edge of my seat almost the entire time.

Shady is dead set on avenging Dirk and he'll stop at nothing to do it. His one track mind can't see anything but dead Death Mob members. That is until he meets Diem. His mind tends to waver a bit, but not enough to detour him from his original plan. He's mean, he's lean, and he's tough as nails. I fell in love with him in Sinner's Creed and my love for him only grew as I saw the turmoil he lived day in and day out.

Diem was a little harder for me to love. First there's the name... DIEM... what does it mean? Is it short for something else? Did Kim make this name up? Does she really know someone named Diem? These are questions I'll be asking Kim the next time I see her! Now, Diem came across as a little brash right from the get go, but once that major plot twist came through I understood more about her and came to love her with all the vigor and zest my body could handle.

The supporting character cast isn't too large. Rookie and Carrie make the story more interesting just with

their presence. Rookie makes Shady's life seem funny sometimes and Carrie seems to keep Rookie grounded, which in turn keeps Shady grounded.

Well.. I'm here to tell you that Kim has yet another excellent read here. The storyline is once again so compelling that I struggled to put it down. The characters are extremely powerful and keep you hanging on every word. The dialogue flows and the pacing is somewhat fast yet keeps you enthralled at all times. Kim creates plenty of tension and throws a huge plot twist at you that when you finally reach the climax you'll feel at the very least, spent! I loved it!

Oh, wow! I am so glad I picked this up.

Steamy, suspenseful, romantic, witty, intense... damn, this one has it all!

MC romance is my thing and boy this one was good!

I can easily say that this will be my top MC romance this year.

I deliberately did not read the first book in the series - Sinner's Creed, because I read that it didn't end in HEA... and that's just not my thing, so I read this as a standalone, even though it says that this is a continuation of the story. The writing is flawless so I easily connected all the dots.

I was hooked right from the start. This is one of those books that grabs you and won't let go.

Shady and Diem are two kick ass characters. Loved them both!

I am not sure what was better... their love/hate relationship or their dialogue. At times really funny, and at times quite angsty. Match made in heaven...or hell. I am not sure, but you won't be disappointed.

If you are a fan of MC romance, trust me, you don't want to miss out on this one...

Kim Jones knocked it out of the ball park with this up close and personal story of Shady aka Dirk. I was devastated after finishing Sinners Creed but this one made up for the sad feelings I had from that book.

When I grow up, I want to be just like Diem! She is totally a Bad Ass Chick! One who knows what she wants, doesn't take crap from anyone and comes across to all that she is the #1 in charge.

But is this what these two want anymore? This story is one of accepting which cards have been dealt to you and accepting the outcome...

**MUST READ!!!!**

Kim Jones should quit everything and just write !!

What a fantastic story it is. Dirk's side man Shady is a 1%er like him. He's boiling because he wants revenge for Dirk's blood. Death Mob is his target and he, along with Rookie and Tank, sets about meticulously eliminating them, few at a time.

He meets Diem in a bar , per chance , and the "Bitch With An Attitude" literally road rolls him and breaks his house to move in with him. She's the craziest bitch he ever met. Stealing and trashing his truck, gatecrashing his life and trying to poison him with her shitty cooking!!  
and she's tough as nails, cold as steel, ruthless as a Don .  
there's a hidden connection between her and Shady , which brings them all the more closer.  
the story is raw and gritty but hilarious banter and some sassiest comebacks make it a real fun read.  
Shady and Rookie and Tank and Clark shall stay with you forever , right along with Dirk and Saylor.  
Grab this when it releases ..... or else Diem might blow your Pucking knees off !!!!!!!

Each book features a different couple but the storyline in book one is important to read before reading this new release. *Sinner's Revenge* was crazy, unique, gritty, raw, violent, emotional and a bunch of other things I can't describe. I couldn't put it down and the storyline kept taking me on twists and turns that surprised me. You don't know what's going on until the end. I love Kim Jone's writing style and her ability to surprise me. Be careful reading reviews before you pick it up because you don't want to read any spoilers. I recommend this book for readers looking for something different. It's a great love story with grit. I can't wait for the next book. This series is like nothing I've read before.

Don't you just love it when a book loses all predictability and the outcome isn't what you'd imagined?

Kim Jones slammed the floodgates shut and in a new direction in this epic five star sequel. Is this the end for Sinner's Creed? Only the amazing author can answer that question.

### **Shady:**

**These men will die tonight in the same cowardly way they killed my brother. If they survive long enough to ask why, I'll point to the tattoo on my forearm. GFSD. . .God Forgives Sinners Don't**

### **Diem:**

**I'm giving him a warning. I'm telling him this is who I am. That bad guys don't scare me. And that I don't care if he's no good for me, because the reality is, I'm really not that good for him either.**

Off and on throughout the story I was in tears. Remembering Dirk & Saylor was very hard and emotional, the same is true with Shady & Diem. I feel like a lost puppy begging for a bone. So to the one and only Kim Jones....please please can I have another?

## **Naughty Mom Story Time says**

Damn! Another hit for the Sinner's Creed series. This was such an intimate story as I followed Shady on his journey to seek revenge for his fallen brother. What he didn't expect was a sassy mouth, sarcastic, sexy but infuriating woman that would eventually own his heart.

The best part of this story was watching them fall in love while they fought. It was the best love/hate relationship I have ever come across. Their bickering and the fact that Shady had to constantly fight the urge to choke her out because she just got on his nerves... it was the most comical aspect of their relationship.

Diem was a strong woman. Controlled and put together. She set her sights on Shady the moment she met

him. She just knew that he was the man that was going to change her life. Shady wasn't so easily convinced, but he had fun figuring it out. Their time together was never boring and got hot and steamy on many occasions.

The writing was impeccable. Kim Jones had the uncanny ability of conveying so many emotions with her words. I love the way she wrote both stories in this series. Though they're MC based. It's more about the characters than anything else and I loved it. For years Shady has lived his life for Sinner's Creed but now that he's found this infuriating woman he can't live without they're not his first priority anymore and he struggled with that change in position. Without them his life would have been so different, but without Diem, his life would be nothing.

An amazing story!!

Kim Jones delivers a gritty, sexy, fast-paced follow-up to Sinner's Creed, one of my favorite biker romances. This book packs a LOT of surprises and features a totally kick-ass heroine in Diem. The back-and-forth banter between Shady and Diem feels very real and is almost heartbreaking at times due to Shady's thirst for revenge and his dangerous, nomadic lifestyle. Kim Jones weaves an extremely satisfying story with Sinner's Revenge. Highly recommend this one for all lovers of biker romance!!
