Emy says

a nice book, if only we had "more people" like him nd less people "like...u know who :p " , nowadays, many of us feel like : we have nothing to do with the society problems, "unconcerned" as long as it's not "a personal problem", we believe that it's the government problem so THEY NEED TO DEAL WITH IT, we ask for our rights and do nothing to change ourselves nothesless the real change starts from deep within us ! and i really hope i'm not just "words" since arabs are known for that XD
he said "to build a civilisation, you need : man, time and soil,(we have them all, specially the time :p) but the 3 pieces gathered does not necessary mean" you are going to get a result", you need to find the "right equation" first, hopefully, we can find that one.
