### **About Time**

So Adie and Kellan finally do that. It feels like that was such a long time in the works. Adie also gets pressed into a Quest from the Librarian and meets a rival of Kellan's who seems to have some very bad intentions.

### **Cliffhanger!!!**

Just a warning, this book has a serious cliffhanger! This is a serial and they have to be read in order. The series is very good, I just wish we could get them all at once or quicker than once a month anyway!

### **Beautiful beginning...awful ending**

Adie just can't catch a break! She's finally on her way to her date with Kellen, but gets pulled into the library and assigned a quest to retrieve a book from one of her cousins. By the time she gets to Kellen she's emaciated and starving. Thank goodness Kellen is there for her. But just as things have gotten good between them, they're interrupted. And now Adie's in danger again! Poor succubus! And gah, what a cliffhanger!

### **Omg**

I hate cliffhangers, but I love this author. I wonder what gonna happens next. Although I do wonder if the author gets tired of cliff hangers.

### **The Assignment**

I really like this series but I was somewhat confused by this book. Maybe it has been too long since I read book 11. Still I can't wait for the next one.

## **Dorri says**

If you're looking for a romance and reverse harem story to read and you've got about 20 minutes, give Adie's serial a shot. She's either the luckies succubus around or the unluckiest, you decide.

In this installment, Adie finds herself out on a date, and roped into a quest set forth by the Librarian. How much trouble could she possibly get herself into? More than anyone expected.
