Kindle Unlimited, just read the 3 stone mage oriceran books out, and eh not really feeling it much, my favorite of these is Leira Chronicles ones and just read the Midwest Witch one most recently and rather liked that one. I do have an issue with the 'language', not because it's used but because it is used so much that there doesn't even seem to be any real reason any more; it made sense in the Liera ones but sheesh give it a rest {look at how many connected but not really connected books there

This was a good middle book in the series but it didn't pack the same punch as the first book. In The Dark Forest Azure continues on her quest to get her mother's soul stone and return it to her before it's too late. Of course there is alot of danger to get through. We learned more about Azure's sidekicks who we met in the first book: Monet, Gillian and Ever. They were as fun as ever. And let's not forget the witches and wizards of Virgo do not want a half human as their Queen. Will Azure win th

Shelves: fantasy

The dialogue was awful. Other than that annoying little bit, the dark forest was an entertaining sequel. Book 2 was a seamless continuation of book 1, and I'm actually having a hard time remembering EXACTLY where the break between the end of book 1 and the beginning of book 2 takes place. I'm also having a hard time remembering exactly how book 2 ended -- so there probably isn't an infuriating cliff hanger to this one. It's a solid, easy, predictable, escape.

It's not an easy feat, but The Dark Forest managed to be just as exciting House of Enchanted. Throughout the book, there's action, adventure, and suspense, and Noffke minimizes the downtime by presenting Azure with one challenge after another.

Plot:

When she and Richard are imprisoned by Phillip, Azure must find a way to escape and return her mother's soul stone before it's too late.

Characters:

Much like in House of Enchanted, Azure faces some incredibly challenging circumstances but manages to s

**I cannot believe I've found this AMAZING SERIES !!! It By Pure Accident , But I Like to think it was the Book Fates !!**

This series is just wonderful, I love all the characters and I especially love the fantastic writing by these three TERRIFIC AUTHORS !! I'm an avid reader , but let's be honest , I'm an admitted book reading addict. I really love to devour a good book, but a series is my Achilles heel. I haven't been this excited about a series since I started reading J. D. ROBB IN DEATH SERIES.

The Dark Forrest picks up right where we left off in House of Enchanted. I read the majority in one sitting because I was pulled right back in to the world of Oriceran. The whole 'let me finish this chapter, just one more, almost done, okay I finished the book' joke was a little too real as I finished the book in the middle of the night.

I love the group Azure has come to have at her side. The emotions of finding her own little family and learning about everything outside of Virgo. Sarah has a gr

This series is becoming a favorite. The characters are phenomenal and the world is amazing. All the characters have such great quirks. I love Monet his addiction to Cheetos and his one liners makes him stand out.

Azure is a strong caring leader who is quick on her feet and is great at problem solving but with growing up around Monet and Queen Mother Sari I would expect nothing less. The way she makes her own rules and doesn't follow past way is

I found this story and the characters to be quite enjoyable. Watching Azure overcome many adversities and I still don't know how she puts up with Monet, I would be dumping him in the deepest pit I could find and sealing the top. The woman has endless patience. Long live the Queen ?

### **Another Winner**

What's a nice badness doing in a universe like this? Trying to save everyone from themselves and each other, all while staying humble and sweet and engaging, and being a magnet for talented creatures who may or may not be so nice themselves. And a magnet for readers who love a good story and an awesome universe.

I love this series. There are so many characters and they are all amazing. The Queen Mother Sari is by far my favourite but Monet is also loveable and mischievous. There are witches and wizards, dwarfs, elf and orcs and of course evil humans. Azure has saved her father and been crowned Queen but can the witches and wizards really defeat Duke Phillip and his evil plans. I guess we need the next book to see what happens.

### **Ms. Just One More Book (Kris Miller) says**

Long ago, humans came through a portal to Oriceran, where they peacefully shared the land with Witches, Orcs and other magical creatures. When a greedy Emperor came upon the throne in the human territory of Terran, that peace was shattered. Years later, the war still rages on. Richard -- the Emperor of Terran -- has been imprisoned by his own brother Phillip, the Duke of Terran. His crime is treason, by marrying and secretly producing a child with the Queen of Virgo; land of the witches. Azure had been reluctantly prepared to take the throne as the new Queen of Virgo, until it was uncovered that she is only half witch; the other half being human. Then came another startling discovery; her mother had been infected with a virus and is dying. Now she finds herself in the same prison cells as her father, Richard, former Emperor of Terran. Azure must find a way to break free, steal the soul stone back from Phillip to save her mother's life and win the heart's of her people. These seasoned authors manage to walk the fine line between dangerous journey and whimsical fantasy effortlessly. A strong heroine leads the well rounded cast of fun and sassy characters, including the lovable, witty and oft mischievous Queen mother. Filled with magic, adventure and enchanted creatures, THE DARK FOREST: The Revelations of Oriceran will have you spellbound from captivating beginning to wondrous end.

## **Beverly Laude says**

Another great book by the amazing Sarah Noffke! Her writing just keeps getting better and better. No matter what she is writing, she has a way with words, a way with world building and a way with character development!

Azure's adventures continue as she goes in search of her father and her mother's soul stone. As she journeys through the Dark Forest, she encounters many other species: a light elf, a gnome, unicorns, a pixie, mermaids, Orcs, and harpies. Each of these species comes alive in Ms. Noffke's capable hands.

There is plenty of adventure, harrowing encounters, and loads of snark (which I have come to expect from Ms. Noffke!). I love the addition of the world of Terran, where the people try a little too hard to be like humans on Earth. The just slightly off things that they have constructed while trying to be just like Earth are wonderful! And, I just had to have a bag of Cheetos while I finished up this wonderful book! Can't wait for the next adventure involving Azure and her friends!

## **Rabid Reader says**

This second book in the Soul Stone Mage series is even more enjoyable than book one. There is lots of danger, battles, adventure, new friendships and the whole story is laced with effortless humour. I love Monet's attitude, he is funny, mischievous and hides his loyalty, talent and commitment behind rhetoric. All the characters in this story have great individual personalities, from Ever's calm, intelligent demeanour, to Sari's pushy, interfering nature, Gillian's grumpiness and the evil that is Duke Philip; you can not help but be captivated by them all. Azure evolution from a child to a leader is even more evident in this story, as she battles to save her mother and keep the rest of Oriceran safe from the wicked machination of the Duke. With a variety of great creatures, exciting battles and constant threat, this story pulls you in more with each book and leaves you wanting the next in the series

\*I received a copy of this book from the author for an honest review!\*

Wow, Ms. Noffke pops up books faster than I can read them. And that's a feat.

This is my second foray into the world of Oriceran and it proves to be an incredible one. I am just fascinated by this alternate universe, with its beings, it's landscape and it's magic.

In this second book readers are being presented with Princess Azure's evolution. I love seeing characters grow into their destined roles and assuming responsibility for their actions. Azure does a wonderful job of becoming her destiny.

The gang is as always amazing to observe. Their interactions are funny and flowing effortlessly. Let me just say Monet and Ever in Walmart. That was a roll on the floor moment. As well as rescuing Draco, the second time. Poor orc, his hide was all blisters. I love how the two male characters seem to bond. Monet's trickster nature and Ever's tranquil and happy demeanor complement each other to perfection. Not to mention Gillian's grumpiness and loathing of being of help. They make a real fun gang bent on saving their world.

Azure's grandmother is a handful. She is certifiable. I love her to bits. How she loves to be in the know but not take even a little bit of responsibility. That is bad ass granny right there.

The evil mastermind, Duke Phillip, is really well constructed as a truly despicable character, one which you loath on principle.

I liked Frederick, or Emperor Frederick now. He seemed a good fella aside his naivete and airhead manner. I hope he will take the reins a little bit from his evil uncle. I don't want him to be like his father and let that walking disaster rule, I want him to involve himself more.

I'll just have to wait and see what the future has in store.

But I love what I'm reading right now.

I also should point out that this is a totally YA appropriate read, there is no adult content whatsoever aside from some rare mild swearing.

If I could give this more than 5 stars, I truly would.

As usual, Sarah Noffke has awed me with her amazing writing skills, her amazing storyline and characters. It was truly an amazing, enchanting story. I've always loved books with magic in it, so this was even more perfect for me. The Soul Stone Mage series is a 5 star read, not only because of the characters, the humor, the story, etc., but also because it's perfect for teens and adults alike.

Sarah did a 10/10 job with the magic, the potions, all those things. I love how she had creatures in the book that you usually don't see in most magic books, such as Harpies and Orcs. I didn't see the twist of who Azures father was. This was a truly good read, really a fast paced page turner. The battles were epic, the adventure was enchanting, and the humor was amazing (I'm looking at you Monet).

There isn't much else for me to say except for I absolutely loved this book, and I really feel like every book Sarah writes her writing improves.

Be sure to check out my other reviews on Sarah's books (I have reviews on most of her other books) to see my thoughts on them.
