Halloween night for real animals! Very funny.

This is a humorous book in the Minnie and Moo series by Denys Cazet. The story is fun and silly and the plot centers on the farm animals going into town on Halloween night. It's a great story to read aloud, and it's short enough to keep a child's attention.

In this non-scary story, Minnie and Moo's bed rolls off with them aboard. They pick up some other farm animals and go trick-or-treating. Various humorous things happen.

Neo recently discovered read-along audiobooks... and chose to return to this piece.

After Minnie wakes from a horrible dream that there is no more chocolate left in the world, some of the other farm animals calm her down by suggesting that she get some chocolate to allay her fears. It happens to be Hallowe'en, which means prime chocolate receiving time. However, there are some stumbling blocks. Neo liked that the animals were seen to be in costumes, but was not sure he wanted to dress up as a cow!

Minnie and Moo: The Night of the Living Bed (I Can Read Books: Level 3) by Denys Cazet is another fun filled romp in this hilarious series of beginning/transitional readers. A bad dream starts the action rolling, as the bed of the cow duo races through the barn, picking up fellow barnyard denizens & dropping them off at a bus stop. It happens to be Halloween night and hijinks ensue when the group goes out trick or treating to get chocolate.

The text has some word repetition and plenty of snappy dialogue. The illustrations are also slapstick and funny. Some of my favorite pictures are the giant creme-puff-eating Mouse, Hamlet singing and gargling, and the old lady poking the farmer with her cane.

For ages 3-7, beginning/transitional readers, read-aloud, Halloween and humorous book themes, & fans of Minnie, Moo, and Cazet.

I'll be honest - this is probably my favorite easy reader for Kindergarten and First Grade! I first encountered this amazing and delightful book in March 2009 when I was working for the Elmont UFSD. Minnie and Moo always jump to wild conclusions in Cazet's books, which is part of the appeal for me!

These Minnie and Moo books are always interesting to read to see what these two cows imagination will get them into next. They like to take things to the extreme and usually the barnyard animals with them. In this one Moo has a nightmare that a large child dressed up takes all the chocolate in the world! But then after their bed rolls away and finally stops they see children dressed up trick or treating. And she sees the child that takes the candy! So they all decide to go trick or treating themselves and get in an adventure within itself. My special needs teen age sons always enjoy Minnie and Moo's stories.

Cute story, great for getting little ones in the spirit of Halloween.

### **Charles says**

This book began with a bad dream and no one had chocolate, and it was a Halloween night and they were trying to come up with ways of trying to get chocolate. So they tried to become cows as costumes but they were cows and could not speak anything but saying Moo. So after that they did things that were tricks and then they would get treated with chocolate and after they took their bed back up the hill and fell asleep with good dreams and chocolate.

It was a picture book mixed with chapters. There were pictures in every page and the texts did explain what was occurring . It was very cartoonish and very colorful wit the mood of day or night. When things would be going well it would have bright colors to express the mood. When it was colorful, the characters were colors that actually wouldn't be their color in real life, so I would say that is how they fought their attention from readers. It teaches kids how to have an imagination and how to enjoy a book that is al imagery and some what realistic with what the animals would actually be like in real life. It teaches kids how to have fun and what halloween is and what candy is and how they like it.

Cute and funny, this is a great book for young children. The humour in it, though silly was fun for me as we'll as my children. The story is fast and simple but told wonderfully with a nice ending.
