## **To Love A Vampire** Jody Offen

Kayla stormed across the room to get a shirt, ranting as she went, “Big bad Vampire Guardian my ass! Afraid of a girl a fraction of his size – ha! Spineless blood sucking coward is more like it. Skulking around, afraid to show himself.” She was furious now, spouting off at the mouth whatever popped into her very pissed off mind, and oh yeah she was pissed. “Sneaky sharp toothed bastard – that’s what he is. How do you even charge a vampire with B&E? Judge Judy would hand you your ass buddy – no, she’d hand you your fangs – one at a time – with a big smile!” She threw in a few more choice curses as she snatched her shirt up in an angry over-exaggerated motion, whirled back around to put it on with more select words of anger flying from her lips and collided with a wall that hadn’t been there a moment before. “Yeeeeooow!” Zak was standing inches from her – in the flesh, staring down at her through narrow hooded eyes. Oh shit! Not a wall... Zak! I ran into Zak. She craned her neck up at him. Holy hell! He looks pissed. Eyes wide she squeaked.

The creases at the corners of his eyes narrowed as he pulled the shirt from her hands, dropping it to the floor. He took a very intimidating step forward forcing her to take a step back. “Chicken shit?”

Oh wow that came out way too calm. Like control to the extreme. Darkly glowing, very penetrating eyes, boring into hers; all the hair on her body stood on end. Danger, danger, danger! Her legs felt like they were stuck in quicksand.

He took another step closer. “Spineless?” ... another step.

Kayla backed up for every step he advanced her heart pounding painfully against her chest. She swore she saw flames flickering behind the dark vibrant colors in his oh-my-god-I’m-so-in-trouble-now eyes. She swallowed. “Ah...” had she ever felt so afraid – so... alive?

“Coward?” Zak had backed her into the wall – she wasn’t going any further. “Scared?” He braced his forearms against the wall on either side of her head, leaning his bulk inward, hemming her in blocking her escape as she tried to duck around him. “Ah ah ah,” he warned softly.

Kayla quickly glanced to both sides and all she saw was gorgeous tan biceps bulging out from under the hem of a t-shirt with the slightest of movement – in her face. Okay don’t panic, you have options. Scream like the Devil is after your soul – and oh gawd that may be true. Option two: Tears – lots and lots of tears. No... I’m no good at tears and he’d probably figure out real quick that they were fake – yeah like when they failed to fall. Okay... Option three: You’re wearing your big girl panties so option three should be to cowgirl up – be brave, forget he has fangs and magical vampire powers... and kills people. Confront him. Brows narrowed as she pressed her lips one, two, or three? Her chest heaved – pulse pounded.

Zak watched her with his predator eyes, waiting to see which option his little spitfire was going to choose.

#### **Disappointed**

After reading the first book, i crossed my fingers I wouldn't read ((gawd)) again! In book two....unfortunately this author has all the female leads speaking like nimrods ...I cringed every time I read it....then add in the fact she still has Jamie (the. Heroine )from book one a little robotic stepford vamp in this one & I just couldn't stand it, I made it half way through & bailed on the book.....the series has tons of potential but Not unless she changes a few things...the heroine has to have some back bone, not throw tantrums & call it good...the patronizing chuckles of the men just made me irate after while...I began to feel sorry for the twits. Make your heroines grow & dump the high school slang...it makes them sound simple & lacking substance.....sorry if this comes across as mean, but I truly was saddened by the fact I couldn't even finish book 2 :(

### **I absolutely loved this**

While the first book was very good and I enjoyed reading it this one is so much better. Zach runs into Kayla when they both show up to kill a drug dealer who killed her father in an attempt to get rid of witnesses before his trial. Zach is the Vampire Guardian Assassin who we met in the first book. What makes this better is the fantastic dialogue between the characters and the fact that she isn't afraid to say what she means. She's perfect for him. There is a scene when she meets Dare for the first time and it's absolutely brilliant. Some of the lines in this book are absolutely wonderful.....like 1-800 - a vampire fucked with me...but what sold me on her was her absolute joy when he leaves her his credit card with no limits and she doesn't have a fit. I can't understand why writers have women upset when the billionaire gives them free stuff.....hand me a credit card without a limit and I am so shopping.

I know that there is another book but it's my hope we get more stories about this group of sexy vampires and their women.

Authors - please do everyone a favor when introducing a foreign language into the dialogue and do NOT rely on Bing Translator. Take the time and find a native speaker because I guarantee you will get it wrong. That is exactly what has happened in Book #2 and the author's faulty use of German. It's embarrassingly bad and frankly ruined the book for this 'German as a second language' speaker. It was so obvious what the author did that when I highlighted the word in my Kindle, app sure enough Bing translated it to mean 'love' but without the context it was so so wrong. In German, nouns and names are always capitalized. The endearment of 'Love' is 'Liebes' or 'Liebschen'. 'You belong to me' is 'Du gehörst mir'. Forget Bing. Authors, just take some time to call the nearest university and look into translation services. Heck, ask one of the many GoodReads Forums that exist to help authors! These language mistakes as well as all of the other editorial mistakes littered throughout the story made this a 'Night and Day' experience between Book #1 and #2.

I still love the humor and sarcasm as demonstrated again by Dare winning the women over at the expense of their men/vampires. That's too too funny! There was a huge opportunity lost, though, by not letting Kayla find out that Felicity was Zak's vampire 'fun-buddy' for centuries....sorry, in any world fiction, paranormal or not, there would be serious drama around that bit of knowledge with deep emotions to be explored.

I loved Book #1, but Book #2 was a jumble of ideas filled with editorial and language mistakes totally unprofessional and disappointing.

**SIMPLY ENTRANCING ,ENGAGING AND ENJOYABLE EXPERIENCE FOR EVERYONE!**

JODY OFFEN continues to bring her A game with this wonderfully written series. The beauty of capturing such emotion in the characters that'll draw your attention to their struggles,present and past lives,sensuality and snarky funny dialogues,dangerous scary situations where evilness gets deserving punishment as the two main characters wade through it to get a chance for togetherness forever. ABSOLUTELY RECOMMEND IT, TOTALLY RIVETING STORYLINE AND IMMENSELY ENJOYABLE CHARACTERS. SO I'M OFF TO READ THE NEXT ONE IN THIS SERIES,I CAN'T WAIT TO READ MORE ABOUT THIS SERIES CHARACTERS!!

This installment was a huge improvement over the first book in The Guardians series. It entails a story of vampires who are guardians cleansing the human race of evil. They serve justice to pedophiles, drug dealers, and murderers. There are still many typo's and grammatical errors through out the series but in the author's defense they are offered free on her website and she edits them herself so i can't complain. In each book the guardian that is the main character find's a love interest. In this book Tray meets a human girl who has a healing touch. It's a better story than the first but the couple Aeric and Jamie make cameo appearances in this book as well. The beginning was still a bit awkward and the ending was over the top but it was still a good story. I liked Tray a lot more than Aeric.It's a nice touch that all the vamps in this book can read minds and they can mark a person so they can find them no matter where they are. I would have liked to see the maker have more of a connection with Jamie but makers just serve the purpose of changing the vampires and that is it. Can't wait to read the next book in the series and see how this series ends.

OMG! This book like the first in this series is soooo well written! Jody you rock girl! I love vamps and i love funny and i love alpha males and women who can hold their own and this book as well as the first has all of these things in abundance. The kinky shit just adds icing to an already delicious cake.
