Autobiography of God: Biopsy of A Cognitive Reality Abhijit Naskar

Many of us experience the divine presence of God in our lives, but what would happen if by some magical means we get to peek inside the mystical domain of this apparently supernatural consciousness!

What if God personally tells us how does he/she/it impact over our lives and our very existence?

What if this inexplicable divine entity tells us, why and how does he/she/it feel so real to many of us?

Why do some people cause destruction in his/her/its name?

Why are we humans so fascinated with beliefs?

Why does the battle between believers and atheists never end?

Let's get inside God's head and visualize the world and ourselves from his/her/its perspective. In this page-turning scientific odyssey we get to explore every single biological corner of God's consciousness.
