## Created Darkly Gena D. Lutz

Necromancer Kris Chase's purpose is simple. Blindly raise the dead for the primary elite, self necro-governed group, the Center. The problem is, she couldn't care less about what the Center expects from her. Instead, she is more content with snuffing out the life-force from every vile creature she can get her hands on; the same monsters her brethren indiscriminately create... for the right price.

Until the life of someone dear to her is threatened.

With the stakes raised insurmountably, she finds herself bound by desperation to create the very darkness she always fought against being consumed by, going against everything she has ever believed in.

I was given a free copy in exchange for an honest review. Created Darkly is a fantastic read. Kristina (Kris) is a Necromancer, But she isn't your usual Vampire instead of using her gift to create Life (meaning more Vampires) she hunts Vampires down and takes back the magic that reanimated their bodies. The only family she has is her sister Torra who she will do anything for. Rush has feelings for Kris and he is the Head of the Center of Necromancers. He will do anything to speak to Kris hence his many calls trying to get her to work for the center. So when Rush gives Kris some bad news about her Sister Torra she refuses his help or any help at all! But she does let Jude (her ghostly Bff ) help her. In order to save her Sister she is forced to use her gift the way it was intended though she abhors having to do it. The results of that and other actions are epic. A great story with a wonderful twist on how Vampires are Created.

This is an awesome paranormal read that will keep you turning the pages. It includes, ghost, vampires, ghouls, and creators.

In the beginning Kris wants nothing to do with Rush but when her sister is kidnapped he steps up to help her. As the book progresses Rush helps Kris see that maybe all vampires are not evil. It is great to see their relationship grow. Kris is a strong kick a\$\$ women who can fend for herself but finds new friends and love along the way of saving her sister, and some secrets too.

Full of action and some twists that you don't see coming. The characters are well developed and each play some role in the end result. If you want a book with many great paranormal creatures and a little bit of hot romance thrown in then pick this one up.

I received a gift copy in exchange for an honest review.

I was lucky to receive an advanced readers copy of Created Darkly. I have read both Ember's Curse and Roxanne Desired and am eagerly awaiting the next installment in the Prime Wolf series. Now having said that - I have to say if you liked these two you will LOVE LOVE LOVE Created Darkly. Gena D. Lutz hits it out of the park with this one. She is blowing new life and new ideas into what we have always accepted as the norm in regards to our vamps and necromancers, our ghosts and ghouls.

Created Darkly will keep you glued to the page to the very last period. I highly recommend that you go out to Amazon and grab this book as soon as it is available. I am predicting that soon this author will be on every paranormal romance readers must read authors list.

Vampires. There is so much lore out there and so many takes on how they are created, how they act and what they can do. I love most of them, hate a few (Twilight) and kinda shrug at the rest. Gena fell into the love list.

In a world where people pay to be Reanimated by a Creator vampires are commonplace. I was drawn in from the beginning and had fun talking to the characters and them talking back...ok not really. This book has all the good stuff vampires, ghost, ghouls and hellhounds. Did I saw ghost? I love Jude, the resident ghost. He makes me want to be a ghost and I actually fell more in love with him than with Rush, the main male character.

I usually hate first person books but this was one I can read again. Instead of staying with just Kris POV Gena also let us follow Rush POV and this made me feel like I wasn't missing anything.

This is a great opening to a series I believe will be a big hit.

I was given a gift copy of this book in exchange for an honest review. Kristina (Kris) is a necromancer but not your typical one. She chooses to use her gift in a different manner. While others of her kind use their gift to create life (vampires) she chooses to hunt them down and take back the magic that reanimated their bodies. Kris has no family aside from her sister Torra who she will do anything for. Rush is the head of the Center of Necromancers and very much has feelings for Kris. He will do anything just to speak to her thus his many calls trying to get her to work for the center. Rush brings Kris a bit of bad news regarding her sister and she absolutely refuses any help of any kind. Well his anyway she has no problem letting Jude (her ghostly BFF) help at all. In a twisted turn of events Kris is forced to use her gift in the way it was intended though she abhors having to do it. The results of that action and other actions she is forced to take to save her sister are epic to say the least. This is a wonderful story with a great twist on necromancy as well as on how vamps are created. I love the wit and spunk these characters show and cannot wait to see what happens next.

This book will knock your socks off if you like Necromancers, Ghosts, Phantoms, Vampires and all those

other worldly creatures. We have Kristina Chase who is a very strong necromancer. She has been pressured by the council to join them namely by Rush who has had the hots for Kris for a long time. She refuses and keeps on refusing. Then things go wrong. Her sister Torrane has been taken and now she must do some very drastic things and keep company with some of the ones she detests.

Can Rush save her from herself?

How will Rafe play into all this?

And what about Jude?

Can they save Kristina's Sister?

I really enjoyed this book because of all the beings that have a part in the book. Its filled with Action and some really hot sizzling passion.

Reviewer for SN BookReviews

In an interesting twist on necromancy, the Center raises the dead to come back as vampires, for a price, of course. Kristina Chase is a necromancer, a very powerful necromancer in the Creator category. Kris wants nothing to do with her necromancy. This has a lot to do with the fact Kris hears and sees ghosts seeking vengeance for their deaths at the hands of the creatures raised by the Center. So far, Kris has managed to find peace for these ghosts and help them move on, by killing the vampires that caused their deaths. The vampires Kris kills are your typical "evil" vampires. The Council of Necromancers has been after Kris for years to join them, specifically Rush Davis, leader of the Council. Despising them for raising vampires, creatures who, in her experience, do nothing but prey on humans, Kris refuses every time. Kris really knows little about her powers or how necromancing works. When Rush Davis calls again, Kris knows she might as well answer, because if she doesn't he will just come over, and she can't deal with her undeniable attraction to him, the enemy. This time though, he has different news for Kris that will throw her into a tailspin and start a chain of events that will see Kris forced to develop her necromancer powers and battling almost every evil creature you could think of, with a little help along the way. With a six foot resident ghost to bounce things off, a sister keeping secrets and Kris' new creation, the intriguing cast of characters keeps this book interesting right to the very action-packed ending. The paranormal world being created by the author is a refreshingly different The sudden plot twists and abrupt changes in narratives will have your brain racing trying to keep up. Although not creating the smoothest reading experience, it is compelling. All in all, a good, solid start to what promises to be a very exciting new series.

Kris (Kristina) Chase is a necromancer/creator who can bring back the dead but they come back as vampires and not zombies! She has other powers too which she is finding out on her own. The Necromancer Center would like her to join them but she insists on being independent. Rush Davis, is also a necromancer/creator

and is the head of the Necromancer Center and has been after Kris to join. He's been secretly attracted to Kris for a while too unbeknownst to her. She finally gets to know Rush and she finds she's attracted to him too but~~~~~

There are so many supernaturals in this story - necromancers, vampires, phantoms, ghosts, ghouls and hellhounds. Wait until you read about Kris' roommate. Also, will Kris and Rush ever get together? There's plenty of action, suspense, romance and even humor. This book surpassed all my expectations-just fantastic!!! It pulls you in from the beginning to the end and I hated for it to end. You just have to buy this one-you won't be sorry!!!

Very exciting first book in a new series. Ms. Lutz has a whole new concept of how vampires come to be. Kris Chase is a "Creator" of vampires from a long-line of women with incredible powers - but, the only thing she wants is to save her sister who has been kidnapped. Ghouls, ghosts, and vampires all play an important parts in this quick read. I highly recommend this book - and cannot wait until the next book comes out.

I received an early copy of this book in exchange for my honest opinion. I have read all of this authors books and I really feel that with each one the stories get better and better! This book was everything I expected it to be and more. Completely new twist on many of the "normal" things we think of when we read books with Necromancers, vampires, Phantoms etc. The characters were enjoyable to read and most of the time you just didnt know what was going to happen next. I would recommend to anyone that loves a good paranormal/romance book with characters that aren't what you have come to expect as the norm. Good romance aspect but the book isn't consumed with it like many tend to be right now. Very much looking forward to what comes next!

#### **Great book!!!**

I won a complimentary copy of this book, and I'm extremely glad I did. I loved Gena's first two books, Ember's Curse and Roxanne Desired, but Created Darkly surpasses both of them. The chemistry and interactions between the characters were great. This book is filled with love, suspense, drama, comedy, some pretty steamy scenes, and so much more.

Kris Chase and Rush Davis are two creators/necromancers that come together for the same cause. Kris hates everything that she thinks Rush stands for, but is still very attracted to him. When some unfortunate circumstances are put into play Kris along with her best friend Jude, who is a ghost set out to fix the problems. Along the way, they team up with Rush and a very full of himself vampire, Rafe. Somewhere in between all the issues, Rush gets past Kris's walls and becomes a very important person in her life. In the end, they accomplish some of their goals and fix some of the problems.

Gena D. Lutz lets you see in Created Darkly that you can't always judge someone by who or what they are and sometimes people surprise you. I definitely can not wait to see what happens next for this quirky group.

Definitely a must read.

I received a copy of this book for an honest review. I am new to this author's work, but I must say, I will follow her religiously now! I loved her writing style and her interesting take on necromancy. The main character, Kristina Chase, is an extremely powerful necromancer with some very rare gifts. She doesn't want to get involved with the council, but Rush Davis keeps trying. Little does she know, he really doesn't try for the council, he wants her all to himself. Their chemistry is amazing and I love how the author paints their relationship. The story was amazing and the way it is written keeps your mind fully enveloped in their world and turning pages constantly to find out what happens. My only complaint was the ending. I felt it got a little rushed and ended somewhat abruptly, but that is it. And honestly, it didn't bother me much because of how much action there was. Now the only thing I find myself asking is when can I read the next book? This was a great read and I can't wait to read more from Gena D Lutz.

Being able to create vampires is not something Kris wants to do, regardless of her ability to do so. Instead, she hunts the vile creatures down and destroys them. Kris believes that all blood suckers are murderers and should be terminated, that is until her sister is taken and held hostage by Wolf, a phantom, who requires that she create one.

I have come to love Gena Lutz's books. Created Darkly is magnificent! There is so much detail packed into the book that you can almost see everything that is taking place. I can't imagine anyone not enjoying this story as it unfolds. I have found myself eager to read more and am hoping that the next book will be released soon. I would certainly recommend this book to all vampire and supernatural lovers. The power of creating vampires as told in this story is unique and isn't so far out there that you wouldn't find yourself wishing you could do the same.

### **Rachel Olson says**

I don't know why it took me so long to read this book, but WOW. Gena has really outdone herself with Created Darkly. She's improved immensely on her writing technique, and really drew me in to the storyline. I'm so excited for the continuance of this story, and I just can't get enough of Rush, Rafe, and Devil. Jude is alright, but he reminds me of a little brother. Well done, Gena!

I desperately want to play Cowboys and Indians now.  
Read Created Darkly. You'll understand.

Created Darkly is beautiful written and I enjoyed this story tremendously!

Main character Kris Chase is smart,beautiful and has plenty of attitude and to top it all off she's a Necromancer/creator.

Then there is the hot and irresistible Rush Davis who I was totally swooning over threw the whole book. Rush is also a Necromancer/creator who is the head leader of the "Necromancer Center" where author powerful creators rule.

I was surprised to find that when a Necromancer's raise the dead it's not Zombies they raise but Vampires! This story has everything I love in a book,Romance,Action and best of all Vampires,Ghoests,Ghoule,Hellhounds and more wonderful supernatural creatures. I really hope that there will be a second book,Gena D. Lutz did a fantastic job! I'm giving Created Darkly a 5 out of 5 stars because it was nothing short then Awesome.
