I found this book on my book shelves when cleaning out. Had not read and thought it would probably be funny. It was. I could hear myself speaking the way Zsa Zsa spoke and found the book most enjoyable.

Janis says

Entertaining and enjoyable!

Karen says

She died at the age of 99, a few days ago. RIP

Enkhjargal says

I am SO not joking! My sister gave me this book a few years back and I was offended, thinking it was going to be some kind of trashy stupid crap.

Zsa Zsa is brilliant!! Hilarious! She taught me how to be a woman.

Lucy Muller says

I love this book and actually used with great success. I have a happy husband, but I don't want to get rid of him. Zsa Zsa is hysterical and smart.

Erin Cataldi says

I can hardly even begin to describe this 1970 masterpiece. Literally I can't, words evade me. This how to

manual on catching, keeping, and ditching men must have been quite the scandal when it was published, my eyes were boggling with the advice and witticisms put forth. So rather than try to prattle on and do this book an injustice, let me just let Zsa Zsa tell you with her own words:

"Don't marry for money, you can borrow it cheaper."

"It is said that the right age for a man to get married is when he is twice the woman's age minus 7 years."

"The best way to attract a man immediately is to have a magnificent bosom and a half-size brain and let both of them show... Remember - the only place men want depth in a woman is in her decolletage."

"I think it is a good thing for a husband and a wife to fight with each other...By fighting I don't think of just arguing with words. As a matter of fact, those are the most dangerous. Hitting each other, and throwing things around isn't so dangerous. A black bruise heals fast. A broken vase can be replaced. But some terribly heartless words can never be changed."

"Is it a good idea that your husband should know that his good friend is also your lover? I would say no."

"So I say if your husband takes care if you in every way and you know he loves you very much, don't pay any attention to his affair. Just overlook it as long as you make sure you know who the other woman is so you can keep an upper-hand on things."

"It is one of the wife's most important jobs to spend her husband's money for him."

"You should by all means try to make your ex-husbands friendly with each other... I think every woman should have at least three husbands."

"... you shouldn't make such a big thing out of faithfulness. As I keep telling you, jumping into bed with somebody is, for most men, nothing more than a gymnastic."

"Your husband's you husband while you are his wife, But your ex is your ex for the rest of your life."

There you have it, an almost 50 year old self help book by the infamous Zsa Zsa Gabor. Read at your own peril, the advice is, shall we say, a little outdated.

Hee hee hee. Found this wonderful book this morning at the Brandeis Book Sale in Skokie, Illinois. Wasn't sure what book category to list it under--Philosophy? Romance? Women's Fiction?--but I settled on Entertainment.

So far I have read about 25 pages and have not yet developed an urge to slap a police officer, as Ms. Gábor did a few years back.

For you young whippersnappers, Zsa Zsa was a movie star back in the day--stuff like "Queen of Outer Space." She was more famous for her five husbands, who included playboy Porfirio Rubirosa and hotelier Conrad Hilton. Here is a sampling of her advice:

"These people whose business it is to study sex also say that older women should marry young men. This explains successful marriages like . . . Audrey Hepburn and that young Italian psychiatrist. It must be all right to do if Audrey does it. She is such a charming girl, who has wonderful taste in clothes, and I happen to be very fond of her."

"Not only is it best for a woman in health to have children while she is young, but also by the time she's older and ready for her new young husband, her children will be just the right age to have friends for her to marry, and it will be easy and convenient for her to pick one out when they're over for birthday parties."

This book is printed on PINK PAPER. :-D

UPDATE:

Very, very entertaining. The editors have retained Ms. Gábor's delightfully fractured English, which makes the book extra fun to read. Dating is referred to as "courtshipping," for example. And the author tells a great deal about her own life. Not only was she a movie star, she married and divorced five times. Her first marriage took place when she was fifteen. She spoke five languages and was a fencing champion in her youth. Yes, she does come off as an airhead much of the time, but I'm pretty sure most of it was an act.

Most of the book is very funny--except her comments about spouses abusing each other. I don't think it's funny that one of her husbands tried to strangle her. I also don't find it amusing that her father beat her mother for getting a chic, short haircut. So keep in mind that, although the book was written in 1970, Ms. Gábor's mindset came from an earlier era.

Donna says

The woman is too much fun!!! :)

Manda says

I wasn't sure if Zsa Zsa was really as naive as she sounded in the beginning or if she was simply taking the piss, but as I read this book I realised one thing... Zsa Zsa is amazing!

She has such a sharp sense of humour, a deliciously devilish attitude towards life and what is considered "proper" behaviour, a sweet and optimistic outlook on love and the biggest heart ever.

This book is utterly divine and should be read cover to cover by anyone old enough to date, marry or divorce. Zsa Zsa will tell you how to do all three!

Aubrie says

Pretty much in the top 5 funniest books I have ever read.

Rosemary says

This book is a scream. It's outdated, problematic, and the advice is terrible, but boy was it fun to read.
