The Reapers are coming...

The Keepers are ready to fight ... to defend their home and the souls, no matter what the cost.

Olivia Estmond is tired of waiting to be attacked. It is time for the Keepers to strike first against the Reaper Empress. Preparing to fight is not a new concept for Liv, but living with a target on your back is not something she has ever dealt with. The Reapers were ordered to take out the entire Estmond family, and unless the Keepers did something about it, they wouldn't stop until their mission was complete.

Not long ago, Aiden was a high-ranking soldier in the Reaper Army, but now he has fallen from grace in the eyes of the Empress. More than that, he wants his best friend back. He grew up with Jack and the two were once like brothers. Now, more than ever, he needed his brother. However, what he didn't expect from becoming a double agent, was the attraction to a sexy red headed Keeper that came with the job.

### **Maureen Horswell says**

The storyline just gets better and better. I really loved the thought of someone protecting souls, but as in real life, things are never clear cut. Romance at its best.

#### **Well worth reading.**

This is one of those series you just can't put down it is action packed. I loved the first three and ready for the next book in the series.

### **Malissa says**

#### **Exciting and hot**

Liv and Aiden was a lead into from the last novel, but the heat between them was what was not hinted at. It felt shorter than the previous novel, but still an action packed adventure. I get the feeling more reapers will be joining team luc and jack.

#### **Paranormal fantasy**

This book delves deeper into the relationships of the main characters. It also has suspense and a deepening of the characters. The only bad thing is that it ends too soon.

#### **Brilliant**

Just love these stories, sad, funny, scary and brilliant, love them all..... can't wait for the next one to come out....Pam

Olivia Estmond has made a decision - she has had enough of waiting for the Keepers to attack her family, so she now wants to go on the offensive and attack them instead. This is especially important after the Keepers are told by their Empress to kill her entire family. Aiden was a high-ranking soldier in the Keeper army, but has now changed sides to be with Jack his best friend. He has also developed an attraction to Olivia that just cannot be denied.

Wow - so many twists and turns in this dramatic story. It went from a fairly quiet period where Aiden was just a double agent to all out war. Then as a backdrop was the developing relationship between Aiden and Liv which was definitely a will they/won't they situation. It was well written and very enjoyable. Now I just NEED to know how everything develops and what happens next.

What another amazing story this was. I absolutely love this series so much!

The characters are amazing. I loved reading about Liv and Aiden. Both characters are powerful and headstrong. Liv was sassy and vivacious and I loved every minute of her part of the story. Aiden was sexy and strong, but had a soft heart that Liv brought forth. These are the perfect character couples.

The story-line was phenomenal! So many twists and turns that I didn't see coming. I felt as if I could connect with the story. There were some feelers that left me emotional at times in a good way. I felt what these characters were feeling. I highly recommend this read.

If you made it this far into the series you already know how action packed and exciting it is. This installment focuses on Liv. I don't want to give anything away so we will just say things are getting really serious at this point and there is no lack of action. I can't wait for the next book!

This was a quick read. It wasn't bad, but wasn't great either. It was just more of the same. Liv and Aiden owned up to their feelings. The Empress is still doing what she does best, we didn't really learn anything new in this book. Again that doesn't make it bad, Liv and Aiden needed their story.

How far would you go to protect the ones you love?

Wait to be attacked... again? Or go on the offensive? Liv is tired of always being on the defensive side of this never ending battle with the Reapers. She's made up her mind.

Aiden has been on the other side of this battle for a very long time. Not long ago his best friend, and son to the Reaper Empress, fell in love with a keeper and switched sides. Now Aiden finds himself on new territory not only in battle, but in his feelings about Keepers... one in particular.

I loved the first three books in this series, and this one was no exception. From the beginning I was team Aiden and I was very excited to see more of him in this book as he fits into the Estmond journey. I can't wait for the next book to see where the story takes us!

This is a quick, action packed, read and I highly recommend it!

### **Good book**

I like this series it is interesting. I have already pre-ordered the next book. I can't wait to see how this series will end.

## **Mischa says**

It was quite an easy, uncomplicated and quick read, which is the only reason I'm giving it three stars instead of two. Other than that, the story seemed half-baked at best and the way the two main characters got together was just lackluster and it did not make me overly interested in their relationship. Moreover, nothing was still solved and nothing new has surfaced, either. Not really sure what was this book supposed to accomplish in the series as a whole. The role of a filler? Just meh. The writing also lacked... a lot.

(2.5 Stars)

"Keeper Under Fire" is my least favorite read in the Graveyard Guardians Series. Quite honestly, there were no surprises and everything about this plot was expected and not well scripted. There was no element of surprise and at times the plot was boring. This is Olivia Estmonds story and her interactions with Reaper, Aiden. They hate each other but feel the sexual tension building between them. I understand that the author is writing a story per character but there should be something different and exciting in order to distinguish one book between the others. Additionally, the ending was rather anticlimactic and left me wanting which is not a good thing. If the next book doesn't show me some differences I doubt that I will continue on with this read. Besides, why aren't we learning more about Lucy being the chosen one? Oh well, we will see what the

next book holds.

#### **Keeper Under Fire (Graveyard Guardians Book 3)**

Really enjoyed this read. A Keepers & Reapers, Supernatural continuing battles. With a large some what mental, in the fun sense family. With love affairs emanating from unlikely sources. Good fun, I'd definitely recommend it.

#### **Nuce.....**

Liv, is Lucy's sister who owns a bakery. She hates Dealers but has finally accepted Jack as Lucy's soul mate. They continue to fight dealers and keep souls safe. Aiden has come into the picture. He is Jack's best friend. He saved Jack from getting shot and saved Hannah from going to prison. But she still doesn't trust him.

Aiden leaves the readers and joins the keepers. He has no place to go, so the family has him stay with Luv until the situation clears. Well.....I guess she might like one reaper, because that is exactly what it looks like. Surprised plenty. Action. Death. It's all here.
