### **Janet says**

I received a complimentary review copy of the book and I am voluntarily leaving a honest review.  
Nanny's Aussie Billionaire – Happiness can come out of tragedy. Time is needed but it will grow if you let it.  
A good love story.  
Nanny's Aussie Boss – Nice, a white knight to help with a child that Bryce did not know about. Cara is so sweet and caring. I liked the story, it's good.  
Nanny's Halloween Down Under – Good story and I liked the way Bianca found a connection with the kids. She also found one with the Station and land.

#### **Good**

All three of these books were good. I thought the first one best. The characters were great & there was a lot of emotion involved.

#### **Love it!**

Loved being able to get to see three different stories about three different couples it was amazing. I would have liked a few more chapters in each book but it's ok.

I really enjoyed each of the stories in this box set! They were cute and just enough angst in the romance.

3.5 stars...

All three stories are good and though standalones, should be read in order if you are going to read them all. Each book sort of rolls into the next. They are all good books, but could be even better if they were more developed. Though I liked the stories, I didn't really feel a connection to the characters. Each book is a quick read. There are a few typos that could use further editing as well. For instance, there is a part in Bryce where the author is referring to Bryce, but calls him Finn. Overall, these books are better than ok, but I'm not in love with them.

## **Barbara Stewart says**

Was kind of disappointed in these books also. The first one is a nanny who works for a rich billionaire whose wife was killed in a car accident and his in-laws that live in the state is trying to take his baby daughter away so he comes up with the plan to marry the nanny thinking that as long as she has a life with a mother and father they'll leave her alone. Even though the nanny is only working as a nanny to get enough money to become a lawyer and has been accepted into Harvard. All the books in this kind of follows along the same lines because of course it's about nannies in Australia.

### **Nanny Down Under: A Single Dad & Nanny Box Set**

I enjoyed reading each of the books in the Nanny Down Under series, each book was well written and each book has the same plot of single fathers needing a nanny then falling in love with her.

### **Enjoyable**

Each story brought about a woman going to Australia and finding a man of her dreams. The first story Amber took the job as a nanny to build up her savings again to finish at Harvard Law School. She gave her savings to her sick aunt. But Finn's wife passed & he needed a fiancée. But ended up falling in love. Her friend Cara came & ended up as Gabe's nanny, then Bianca became Zane's.
