## Pale Horseman C.E. Martin

Richard Murphy is a hard-boiled, octogenarian Hollywood detective who thinks he's seen it all--until he and his ghost partner witness a horrific murder committed by a galloping centaur. Now the elderly P.I. worries he'll be next on the killer's list. But unbeknownst to Murphy, one of his on-line friends is more than just a master chess player. He's a member of Detachment 1039, America's secret super soldier program tasked with combatting the supernatural. Murphy and his partner in crime-solving are soon visited by the Detachment, who enlist the semi-retired P.I. in tracking down a serial-killing centaur who's come to L.A. to reap the souls of the innocent and the wicked.

## From Reader Review Pale Horseman for online ebook

### Jim Kratzok says

Another welcome addition to this series. I don't think I liked this one as much as the previous books but it was still a good read. I think the origin of the evil Chadron could have used more explanation and I'm not clear on why Murray the Ghost could see Kenslir at the end of the story but not shortly thereafter. Maybe I was reading too fast and missed something.....

---

### Kelly says

Another fast paced, action packed adventure with Detachment 1039. Kenslir has his hands full this time as a mythic monster rampages through LA. \*takes a long look at my last sentence and laughs\* Good times, man. Good times.

B-grade actors, a centaur who's more than he seems, and hints about Josie's fantastic awesomeness abound. Also, a lot of people die. Some of them are even good guys. Which could be sad until you recall that DEATH DOES NOT STOP DETACHMENT 1039! (I feel like I should write out that number so you can really FEEL how I'm bellowing it as I type.) (Except, I always say TEN THIRTY NINE when I say it in my head and what if no one else says it that way? What if they're all "One thousand thirty nine, thankyouverymuch"? I would be forced to become a social hermit because I'M NOT LIKE EVERYONE ELSE!)

(Gonna be honest, I lost my train of thought somewhere around the time I was shouting things at my computer.)

Right. So. Death. Mayhem. A pretty badass bad guy. As always, Kenslir and crew do what needs to be done to take care of business. Even if it puts their nearest and dearest on the line.

Like I said, good times.
