## **Seized By Passion** Donna Grant

Forced to take drastic measures to keep his people from dying out, Achates risks his life to save a woman only to learn she's the one deemed strong enough to rule with him by Poseidon himself.

It isn't just her mind – but her body – Achates stirs when Livia wakes in his arms. She's unsure of her place in this new world she learns is the home she was stolen from. It's with Achates strong heart, gentle hands, and trust that she begins to understand what her true role is. But will it be in time to stop the destruction of their world?

**\*\*Note:** This is a re-issue of MESMERIZED retitled to fit the WICKED TREASURES series. If you have MESMERIZED this is the same book!\*\*

## **Donna Buckler says**

Feel the same as "Debbie"

---

## **Taria Reed says**

very short audiobook about 2hrs. lots of questions not enough answers or lame answers but overall it wasn't a bad way to pass the time.

---

## **Shawnie Nicole says**

I'm not a fan of historical romances but this one was good.

---

## **Cindy says**

Too short. But very well written as usual.

---

## **Laura the Highland Hussy says**

a good and interesting short erotic read

54 pages, if that

---

## **Helen says**

Beautiful story and such a fast read! Loved it!

---

## **Debbie says**

Usually love ALL of her stories but this was more erotica than story. Had great potential for an all out novel and another series but it just never happened. It has good characters and was well written, too short.

---

## **Melindeeloo says**

The basic idea was behind Mesmerized was interesting, a woman is being sacrificed to Poseidon and is bound and thrown off a cliff into the sea only to be rescued by a gorgeous man who is a descendant of Poseidon... and unknown to her, her betrothed. His people, since they live on land, aren't quite merfolk but with their connection to the sea they are close.

Mesmerized ended up being more on the ok side, although I did like both of the leads, there were just too many detailed love scenes for this short a story. Don't get me wrong I do like some steam with my story, but I am not an erotic reader, so I like it better when the love scenes actually move the story forward. The first few couplings did do that but the last few didn't and I started skimming them to find out what happened next...

---

## **Teshai says**

Not bad, but I still don't understand why they were kidnapping the children to sacrifice them to their own descendent. That wasn't made clear in this one. I know it is novella but come on, don't leave me hanging.
