Sherlock Holmes: Cthulhu Mythos Adventures Ralph E. Vaughan

A collection of stories featuring Sherlock Holmes' cases which involve HP Lovecraft's Cthulhu Mythos creatures. Of particular interest is "The Adventure of the Ancient Gods," the first story (1981) to portray a Holmes/Lovecraft crossover. This seminal story has been out of print for many years and was available only to collectors at very high prices. The same can be said of "The Terror Out of Time" (2002), the first teaming of Sherlock Holmes and Professor Challenger, Sir Arthur Conan Doyle's scientific adventurer, against Cthulhu-like entities. The other stories in the collection have not been previously published and illuminate little known or unsuspected aspects of Holmes' life, career and character.

A FINE TALE OF THE MASTER OF DETECTIVES IT IS...

Hello, I really liked these stories. I only wish there were more. These were written very well and in keeping with the time. Good stuff. Thanks.

Richard Mellon says

Holmes, Cthulhu and a little Challenger too

Story collection all with Holmes and a dose of Lovecraft ... The stories are true to both genres so everybody is happy and Challenger working a case with Holmes against the things hiding in the dark ...
