I don't know what to say about this book. I read it in one day and I so wanted to like it, but it just confused me. There were just too many situations in the storyline that were hard to follow. I will give this book a rating of 2.5-3

Skylar and Nate are the main characters but there are so many secondary characters that at times I couldn't keep them straight. Skylar and Nate are neighbors who obviously are in lust. Nate is basically a manwhore but we are supposed to get the sense that he really feels something for Skylar. He is also very possessive and gets jealous with all her relationships with her gay friends and other males around. I had a difficult time liking him as a character at all.

But, I wasn't that impressed with Skylar either. Her story was all over the place. I don't want to give away too many plot points, but I have to say she had more troubles in one book than any heroine should have in three books.

This story meandered and had so many different plot points that it totally confused me. There was lots of hot sex but again; I didn't understand how they got to the sex when they did. It was argue, have hot sex, argue. Also, there was a horrific rape scene that didn't seem to affect our heroine at all. In the next scene with Nate, she is having sex even though there were physical injuries, not to mention there are no obvious psychological problems.

In my opinion, the author has a story to tell, but this book needs tightening and a lot of editing. There is too much here for a cohesive story. On top of that, there is no HEO and an epilogue that totally goes into a different direction.

This was an arc of the book that was given to me by the author for an honest review. I wish I had more positive things to say about it.

Amazing erotic read!!! Warning! This book leaves you hanging! BUT the good news is THERE IS A SEQUEL!!! With that being said, I will get onto my review.

Skylar and Nate met and fire was ignited! These two could be happy moment and fighting like cats and dogs the next. One would think that you would get tired of their relationship going back and forth... And I must admit at times I wanted to reach through the screen and wring both of their necks. But this is also what kept me turning page after page to find out what happened. The love scenes were HOT and STEAMY! I don't want to reveal too much and spoil it for those that haven't read it yet. Skylar's life has been pure Hell!!! Her ex was abusive to her and that made her so untrusting of others. But all it takes is for one man to melt the thick wall of ice she has built around herself and, how shall I put it! THE HEAT IS ON!!!

This was a great read and can not wait for the next in the series!

KUDOS Angel Steel!

This book was HOT! I can't wait for the next book! Thank you for the spicy read!

I just finished reading this amazing story. So right off the bat you cannot help to fall in love with Nate and Skylar. He is the perfect gentlemen and a sweetheart and oh so sexy. From the get go both characters really tick me off and frustrate me. I can understand both have their reasons and etc. But you should be honest and open in a relationship, especially after what Skylar has gone through. May I add she has some pretty amazing friends! Alex, Craig, Dom, Chantal. All these chracters are AMAZING and you could see yourself being friends with. They are really good friends and I am soo happy Skylar and Nate had them in their corner. Nate also has some whiplash moodswings. One minute he is hot then cold. He certainly did his share of fuck ups, I can only hope he sticks to his promises in the end and something changes. If I was Skylar I would kick him in the nuts a few times, lol. But that's just me ;-)

And even though Skylar had her moments and ticked me off, she was a pretty kick ass chick in the book. She should of held her ground a tiny bit more and kicked Nate's ass a few times. But all in all it was pretty damn amazing. There was EXTREMELY HOT and KINKY sex. Loved the sex scenes! Some more than others and you will probably know which when you read it ;-)

There is love, romance, action, there is some points that also make you very very angry and you will yell and scream and curse and want to throw your Kindle, but that is what makes a great book, great! Isn't it? Well I think so. Pretty much it has it all. A must read for sure! Enjoy book lovers, this will not disappoint. I do not want to give too much away ;-)

UPDATE It is **completely** beyond my realm of comprehension how ANYONE gave this book 4 or 5 stars.

I must ask... What the fuck just happened?

Uhm, I am majorly confused as to the goings on in this book...

He is a self absorbed, nasty little bitch.

Seriously, for probably 80% of the book, he completely disrespected her, theres "Alpha males" which is what she thought he was, but in reality, he was just a fucking jerk.

Throughout the book, as a couple they have many issues, during which negative points he **CHEATS ON**

HER 3 MOTHER FUCKING TIMES

Yes Bitches, you heard me clearly, and you did infact read that right, he cheats on her 3 times, humiliates her in public on more than one occasion and generally fucks with her head.

The relationship is bordering on physically abusive with him repeatedly grabbing her arm hard enough to leave bruises and him backing her into a corner, at which point she is sobbing and shaking.

Cheating once, unacceptable - I dont want to read that shit, 2 times - You've got to be having a fucking laugh... 3 times - once within hours of her telling you shes heavily pregnant with your baby. **DESPICABLE. UNFORGIVABLE, Get the fuck out of here!**
HOW CAN YOU SAY YOU LOVE SOMEONE THEN FUCK AROUND ON THEM?!

If you are unaware, the alpha male protects the one he is with, he loves them fiercely and would never EVER cheat on the person he loves (at least in romance books)

After reading "Mias Choice" (a fabulous book may I add) I learned a lot about the victims of rape and the effect it has on a persons mental state... So this book, I felt portrayed it horrifically.

A) she was raped by 2 guys while pregnant, and I dont mean she just mentions it a little, we hear about it in graphic detail. **I DONT WANT TO READ THAT, IT MADE ME SICK TO MY STOMACH.**

B) You would expect her to have some emotional trauma from being awake and crying through the event. Not in this book! She's just fine and fucking dandy, practically skipping over a fucking rainbow!

Note: Don't write about something you know nothing about, people who have experienced it may be offended, especially with a story revolving around long term sexual abuse

I don't really know what to say about Skylar... I thought at the beginning she may have been an ass kicker, but no, unfortunately she was a doormat, always forgiving him for cheating, lying, running away and buying all his bullshit excuses

Nate **OBSESSED** like a crazy mother fucker saying she cheated on him, **ALL THE FUCKING TIME**, that was not alpha, that was a red flag where a lady should run in the opposite direction as fast as possible. My final complaint..... Everything was left completely unsolved, no HEA, no cliffhanger, just over - the epilogue was nothing to do with them.

Sorry, from me, this was low marked, I forced myself to read it all but it was really fucked up

I alternated between LOVING this story and ABSOLUTELY F***ING HATING IT.... there was just SO MUCH DRAMA going on that it ALMOST felt too much for me to take... BOTH Nate and Sky CONSTANTLY kept blowing hot and cold, which PISSED ME OFF to no end, because just as i started to like them, they would go and do something which would make me scream in frustration!!!

The starting was awesome... the middle REALLY dragged; lots of drama that in my opinion, wasn't really needed... and the end was great and totally shitty at the same time... (view spoiler)

And OMG... Dom... WTFH????!!!! I mean even though i DON'T REALLY WANT TO read the next book (because i KNOW the next book in this series is ALSO going to be long and full of drama), i will HAVE to read it because i want to see what happens to Dom and Chantal... that said though, IF there is also NO HEA for Dom and Chantal (as well as Nate and Sky) in the next book , y'all can be rest assured that i will GIVE UP on this author!!!

I was given an ARC from the author for an honest review. I read this in two sittings, I so wanted to fall in love with this book, but I had a hard time getting through it, there is just too much everything, too many side characters, too much tragic drama and abuse. It was really hard to follow in some spots, and some things were so out of left field I was flabberghasted. I will say if you just read for the erotic scenes, grab it up, there were plenty steamy parts, just the stuff between the steamy parts was lacking, with the exception of the first shower scene with Nate where it said "cock" so many times that that was all I was getting from it, cock, cock, cock. It could have been better with some different adjectives. This story has so much potential, with the work of an editor it would make it so much better. I wish I had a more positive review to give, I will say I respect the author for putting this out there and sharing her story, one day I hope I can do the same. People like you are inspiring, it takes some kahunas to share a book you've written.

I don't even know where to start..

Lets start with the *Who..*

Meet sexy Nate and gorgeous Skylar. Sky has just moved in next door to Nate. One look at the new neighbour has Nate racing over to meet the sexy woman.

Nate and Skylar both are instantly attracted to each other. After a brush off that leaves Nate craving for more and Skylar trying to cool her senses, they cross paths again. Only to find out their friends know each other.

Skylar is running from a past that has her on edge, an unable to trust men. When her friend convinces her that Nate is different she takes a chance and accepts his invitation on a date.

The Sexual tension between these two are freaking off the charts...

By half way through the movie I was about ready to explode.. I sitting there chanting..

OMG she did it! hahaha holy shit! Can I just say I haven't read a female that loves to suck cock as much as Skylar. Hahahah No joke she loves it!

She gripped him with one hand while working her hot little mouth over him. Rubbing her tongue on the underside, she drew him in even deeper and that almost made him come down her throat.

When they are within 1 meter of each other, they can't keep their hands off each other.

But Skylar's past keeps her from fully giving herself to Nate.

Nate can't keep up, one min Sky is all over him, the next she is running cold. Not one for playing games he tells her how it is.

"With pleasure Princess. I don't need this shit. If and when you even decide to tell the truth, you know where I am."

When Nate comes back after his cool off he see's Sky in the arms of another man and flies off the handle. But little does he know that, Craig, is Sky's Gay Best friend.

What happens next is what brings me to the ***What..***

WHAT IN THE ACTUAL FUCK...

This is no rainbows and flowers kinda read.. No this is seriously one messed up, fuck with your head read. I was totally digging Nate. He is a sexy Alpha, I totally wanna do him one minute....

And by Asshole I mean...

I mean how many times did he fuck up?

I forgave him after the 1st time. Fairs fair...

The Second time.. Yeah I was on his side.

The 3rd?

This brings me to the ***Why...***

WHY???? Why Angel? Why...

After everything we had been through... Hahahhaha I just didn't understand.

I'm a total head case at this point.

After his major Fuck ups we get back on track. I'm back to digging it again. Then, THEN we hit another road bump. When I say road bump, I mean Shit just got real.

Skylar's past catches up with her and has her holding on for dear life.

When I read the scene with Lucas, her Ex. I seriously was about to pass out. I was thinking surely not.. But no, Angel went there, and I was like..

I was broken. I couldn't believe it. But Sky is strong and I seriously thought this was going to be a turning point.

But of course I was wrong... You guessed it Nate fucks up AGAIN.

When.. Nate comes home and does another big No No, I'm just beyond words. Will he ever learn? Who fucking knows. But my question is... How in the world can I seriously be into this book?

By the look on my face the whole book I'm surprised my jaw isn't sore today.

Don't get me wrong there were some goodness i.e. holy hot sex in this book...

"I want to rip this robe off you, wrap you legs around my waist and slowly slide my cock into your tight pussy, baby. I want to hear you scream when I do that. It makes me harder just thinking about doing that right now."

I swear Sky is a nympho. Even when Nate was being a total fucktard she was still wet and waiting for him. They do it everywhere! I mean EVERYWHERE....

And I just loved Craig, Alex, Dom and Chantal. Loved them. They were there for her so many times, always there at the drop of the hat.

On a side note, and maybe this is just me, but I am slightly concerned with the amount of people that saw Sky naked. Seriously everyone has. LOL

Angel seriously has some balls here ladies. You want a sexy sweet read full of sigh out load moments? Well this book aint for you!

You want a book that has you pulling out your hair? Ready to throw your Kindle because you can NOT believe what he just did? Then this book is for you.

Sweet Temptation is a read that pushes all the boundaries, Angel pulls you out of your comfort zone and takes you on one crazy fucked up ride. You will probably wanna get off, but you can't. Like me, you will need to know how it ends.

However we do have to wait, as this one does not end in a HEA. The story continues on with the Chantal and Dom's story in Sweet Surrender.

Overall did I enjoy Sweet Temptation? I still don't know. It was a love hate relationship for me. Going by the reviews and ratings on GR, you are either gonna love it or hate it.

Angel definitely knows how to push your buttons. The one saving grace for me is the ending. I was so happy that it ended the way it did. Nate has some splaining to do!

And grovelling! And he better clean up his act if this Alpha loving lady takes him back.

And that's one big IF...

3.5 (*I hate you Nate*) - **4** (*I'm a little turned on*) **Stars**

This book was so annoying. First of all the male character, Nate such a f*ck up and Sky, the female keeps giving him more and more chances. This book was such a waste of my time. I was so disappointed in the direction of this book. Nate's character made me so angry and Sky was such an idiot and so whiney. Enough

already.

Jodie Squelch says

I was lucky enough to read the arc of this book and you sure won't be disappointed with this book :)
This story takes you on a rollercoaster ride from the start, covering many issues such as romance, abuse, friendship and of course sex!

Within a few pages you realise the characters of Skylar and Nate have deep rooted problems, which just makes you fall in love with them both, and hoping for them to have a happy fairy tale ending.

Throughout the whole book I wanted to scream with frustration at Skylar and Nate's lack of communication skills! Even though their lack of communication was due to their sexual chemistry resulting in many hot and steamy sex scenes, which leave you hot under the collar J

The simple reason I have given this book a 4 star rating is because I found the supporting characters of Skylar and Nate's friends really had to keep track of them all and how they were all connected.

This book without giving too much away will have you wanting to cry, scream and even throw your Kindle across the room as you travel the rock road journey of Nate and Skylar's relationship! IT IS A MUST READ!

EndlessReading says

This was a 3.5 - 4 stars!

This book is definitely a LOVE/HATE read!

In this book we meet a 30 something woman named Skylar, in the beginning we don't learn of the past she has come from, all we do know is that it was F*****d up. Her previous boyfriend really did a number on Skylar, so much she has lost all respect and trust in the male species.

Skylar decides to pack her bags and move closer to her best friend Chantal and her sister which is only half an hour drive away.

I like Chantal's character and she's the ideal best friend, she looks out for Skylar and doesn't take any shit from the males that decide it upon themselves to try and get involved in the bar one night. I can't wait to read about Chantal's story.

Dom is next and I freaking LOVE this guy! Seriously why couldn't it have been Dom trying to pursue Skylar, he would be a better fit of a man for her. He is adorable, caring and would pummel anyone who messes with

either Skylar or Chantal.

We see that something is brewing to happen between Chantal & Dom, this wouldn't be a bad thing, I almost want it to happen, I would be majorly pissed if she messed him about though, saying that we don't know much about this character.....

I do believe the next instalment though is written about Chantal & Dom's story.... this could get even more interesting.

I'm getting sidetracked here back to Skylar, on her first day she meets her HOT and I mean seriously HOT neighbour, Nate.

Yeh this guy is drool-worthy, HOT, easy on the eyes looking, but EXCUUUUSEEE me what right does that give him to treat Sky the way he does, what a class A JERK.

He needs a good hiding and doing over! Seriously DUDE! WHAT ARE YOU THINKING.

This I must be honest does have a lot of drama in, which isn't bad, if that's the sort of thing you like. But it was a tad overbearing on the drama side, after we learn that actually happened to Skylar by her ex and his cronies, yeah all the drama makes sense, but in the beginning its a little too much :)

The alpha male routine in this is ridiculous. I don't get why men think it's ok to treat a girl the way they do. And to be so possessive! Seriously grow some frigging balls man.

This tug of war in Skylar and Nate's relationship comes down to them both having trust issues due to their past relationships, but they shouldn't let this become between them!

The sexual tension that's brewing between Skylar & Nate, Dom & Chantal is astronomical, seriously Dom & Chantal just need to get their FREAK ON!

This book is action packed and yes truth be told there was quite a bit of "He Said" "She Said" in this book .

Totally action packed from the beginning, and the ending.....well.....WHAT THE FRICKING HELL HAPPENED THERE!?

Can't wait for the 2nd instalment to get the answers that we'll all be asking?

Anna Marie says

Well both! I loved and hated this book. The story is fabulous and consuming. Sky and Nate are great together, actually they are pretty HOT together. As you can expect like most people they too have some issues. Their story is full of emotion and intrigue. I am anxious for the next book in the series.

Shannon says

Why can I not do lower than a star..

DNF for me...

Who passed this book through, and how did ANYONE give this book 5 stars. Here is my thing, I am an avid reader. I read 3-4 books in a week. I love it.. It's my favorite hobby..

I always feel bad when I have to give a book low rating, because I couldn't get into it. This book was HORRIBLE.. It's a DNF..

"She's this" "he's that"

OMG I couldn't handle the amount of "She's and He's" on a single page.. The writer should have done it from first person, because it does not WORK this way.

Oh and because I only got 19 percent in before returning let me say this of the sex scene while watching the movie.. Giving a guy a blow job, is a turn on yes, but your "juices don't run down your leg" If that is happening you may want to check your bladder control because I don't think it's your being wet. Not to sound dirty but the sex didn't mesh, it was forced and weird..

This just wasn't any good. I read the drama was nice, but I couldn't have enjoyed the drama outside of Nate screwing his ex because Skylar wouldn't talk to him.. yeah he's a winner I don't mind cheating in my books, but it has to flow.. that was just someone ran with some ideas and threw them all together on some paper.. Sorry.

My review soon to be posted on: <http://bookcrushbookreviews.com//?s=s...>

3.5 stars

Skylar and Nate are hot, hot, hot!! It was a nice change of pace to have immediate POV changes to get in the minds of Skylar and Nate's thoughts regarding their actions. I was frustrated that they waited soooooo long to open their communication with one another. This book will keep you on the edge of your seat as the worse keeps getting handed to this couple. Skylar and Nate's connection is smooth then events blow up in their faces and this happens several times. It's true that no relationship comes easy and this book is a testament to that! There's a lot of angst and questions raised and leaves you guessing as there's more books to come in the series. This tug of war in Skylar and Nate's relationship comes down to trust issues that both have a hard time having in their relationships. Can they fight the pull they feel for one another? Try this one out...you won't be disappointed.
