## Un príncipe muy atractivo Nora Roberts

¿Por qué una mujer tan reservada como Hannah Rothchild le resultaba tan intrigante a un mujeriego como el príncipe Bennett? ¿Sería porque intuía que tenía una misión secreta... o quizás fuera sencillamente que estaba fascinado por ella?

Será difícil encontrar a otro autor como Nora Roberts, con un estilo tan variado y una imaginación tan fértil.

## From Reader Review Un principie muy atractiva for online ebook

### Shumaila Hussain says

I gave it one star I don't know why Nora Roberts fails to impress me every time. I like romance novels not too much Disney may be.

---

### Dilushani Jayalath says

I actually had forgotten how good Nora Roberts is. This book was a god reminder as to how good Roberts writes and how her words are able to make the reader actually imagine the same situation in their minds. As a story it wasn't that compelling but I really liked the writing. It was a little bit different from the normal Nora Roberts structure so I liked it. It had more romance rather than the suspense feeling but I liked the fact that Roberts didn't bring any Irish stuff into this. As much as I love Irish stuff I wished that she stayed away bit from that cuz repetition of the same becomes a bit annoying. Especially when you are a world renowned author and millions read your books. So I liked this book very much. I guess because this is an old book of hers this is different. I can say another good book by Nora Roberts.

### Alexandra says

Cartea de fa?? nu m-a putut convinge c? merit? mai mult, de?i am avut parte (în sfâr?it) de povestea lui Bennett ? i am avut mari a?tept?ri. Pân? la urm? a fost doar o carte simpl?

O lectur? captivant?, mult mai palpitant? ca anteroarele, c?reia i-a lipsit totu?i ceva. Avea nevoie de mai multe pagini (muuuult mai multe), de anumite idei dezvoltate mai profund, nu doar amintite fugar (pasiunea lui Bennett pentru cai putea fi dezvoltat? mai mult) ?i poate, zic si eu, poate s? ne zic? ?i nou? la finalul trilogiei motivul persoanjului negativ de a actiona împotriva protagoni?tilor. S-au învârtit timp de 3 volume s?-l afle ?i... BUUUUM, nici la final nu am aflat. Mi s-ar p?rea pu?in aiurea ca motivul precizat fugar s? fie cel real.

Timp de dou? volume ?i prea multe s?pt?mâni am a?teptat cu sufletul la gur? povestea de dragoste a lui Bennett Bisset, mezinul familiei ?i cel mai nelini?tit dintre fra?i. Al doilea ca succesiune la tron, Bennett ?i respect? obliga?iile, dar nu simte presiunea continu? care apas? pe umerii fratelui s?u, Alexander.

Un suflet deschis, amuzant, darnic, iubitor de frumos, dar mai ales de femei superbe, Bennett ?i g?se?te sufletul pereche î? anosta lady Hannah, o tân?r? ?tears?, cuminte ?i cu foarte mult bun sim?. Toate aceste calit?i î? trezesc Don Juan-ului nostru interesul ?i dorin?a aprig? de a o avea.

Lady Hannah a fost un personaj atât de minunat de complicat încât m-a convins pe deplin c? este perechea

perfect? pentru preferatul meu. O tânără ușor de trecut cu vederea, dar cu o minte ager? și o ierenie superbă ascunsă adânc. De săi totul a fost previzibil, nu înseamnă că nu m-am bucurat mai puțin de dublul rol jucat de ea. A fost superbă.

### **Amanda Sheila says**

My first Nora Roberts's book I've ever read.

Bennett, a prince of Cordina, is known as a playboy. But his heart stumbled when he saw Hannah. Hannah, quiet and decent, is hooked by Bennett's charm. But Hannah stayed at Cordina's palace for protecting them, because she's an undercover agent. What will happen next.

I kind of like it. I find this book's very simple and pleasant. Because Nora Roberts's style of writing is very nice to read.

To me, Hannah's too safe. I mean, she's too protective upon herself. I wish she got hurt a bit, you know, to make Bennett feel guilty. After the love making that they already did, and when he forces her, I want him to feel guilty enough to apologize more. You know what I mean.

So far, I love Nora Roberts style. Looking forward to read her other books.

### **Amy S says**

This is the first Nora Roberts book I have read, and that only by chance since it was one of only a few available at a weekend getaway cabin rental. Her spin on modern royalty was interesting, and I found myself getting pulled in to the Hannah/Deboque plot as the book went on. With that being said, there were huge holes in the plot, and the way Nora hops from one character's point of view to another's in the middle of dialogue was sometimes confusing. Without giving away the ending, I will say that the epilogue was a little unbelievable given the character's interactions up to that point. Props to romance fans, and there are some I enjoy, but this wasn't one of them.

### **Sharon Eikenberry-Deary says**

It was so good I could not put it down. I really thought Hannah was planted there by Deb. When I found out who had done this I was so amazed. She was trying to be so plain but of course who else than Bennett broke thru the layers and found the true Hannah. She could not refuse his charm and love.

---

### **Kelly Cassar says**

Gets you hooked till the end !

---

### **Chitra \*CJ\* says**

"The Playboy Prince" is the story of Hannah and Bennett.

Prince Bennett, younger brother to Prince Alexander and second in line to throne has always lived a charming and carefree life, being nicknamed "The Playboy Prince".

Picking up two years after the last book, things change when Lady Hannah is hired as a companion to Princess Eve and her kids, and Alexander experiences a spark of attraction to the dowdy and plain looking women.

But under the mousy exterior, hides a sharp women, who has come to Cordina with ulterior motives which may or may not have everything to do with Deboque's release.

Can this love whose foundation was laid with deception, come to fruition.

As usual, Nora takes us on this intriguing ride with wonderful plot and story telling. There is passion, angst, love, honor and responsibility- and then there's family and true affection between the leads, as well as the secondary characters.

Thoroughly enjoyed it.

### **Ariel says**

This might be the first one star rating I've ever given a Nora Roberts novel, because normally I adore her. At first, I really enjoyed it. The characters, world, and plot were all fleshed out and interesting.

As I got to know the characters more, however, things got a little creepy. Namely, Bennet comes off as a major creeper. Yes, I suppose Hannah is putting on an act, and that her prim-and-proper thing is merely a facade. I got as far as the scene where he cornered her in the ballroom before I got too sick to continue. At one point, she says "actually, you're making me uncomfortable" and he responds with "good. I want to make you uncomfortable." Boundaries? Hello? The second time they meet, he walks right through their personal bubble and kisses her "because he wants to figure something out." Nooooope. I had red flags going off all over the place. I understand that she responded internally with "hubba hubba, I want to bang this fella" but she didn't say it outwardly, and despite his playboy reputation, Bennet should have picked up on the "nope, she's not interested" and at least slowed down his approach. Or not been a total creeper dick.

Couldn't finish it. I got it as part of a twofer though, so I am going to read Camilla's story. Thusfar, it's going better.

---

### **Theresa says**

After reading the first two, I should have expected action and intrigue but I wasn't expecting this much.

When Hannah is first introduced, I can see that she won't be mean by the end, but I wasn't certain what

exactly was going on.

Bennett was everything I was hoping for in the first two books. He was a playboy but he had a heart of gold.

I'm glad Reeve could have a bigger part in this book. He was my favorite after all.

Again I say, I had no idea Nora Robert's books were like this, but if they are, I really must read more of them.

The scenes where Hannah was risking her life were so exciting! I couldn't wait to see how the bad guy got taken down in the end. It was better than I imagined!

---

### **Molly says**

The Playboy Prince fell hard and fast for the seemingly quiet and shy Lady Hannah. When Bennett discovers her true identity, he has a moment of anger but love remains.

---

### **Kay says**

Nora Roberts Cordina series. Once again, wonderful character development along with a touch of mystery. Good balance of romance and mystery. Looking forward to rest of series.

---

### **Melissa says**

Read as part of Cordina's Royal Family: Bennett & Camilla.

This is my favorite book out of this family's set of books. The characters felt more realistic than the others and therefore more enjoyable.

---

### **Victoria says**

SPOILERS: This is the best of the series so far, in my opinion, and I like that NR incorporated the O'Hurleys into the story. I would've given it 5 stars, but the first love scene between the main characters was pretty disturbing, and the happy ending was kind of bizarre, with Hannah giving up her career without a fight and it just being expected of her.
