Being held captive for winter never felt so good.

Lili is on her way to her cousin's wedding when she thinks she hit a man in the road. Leaving the safety of her car to check on him turns out to be a big mistake, and pretty soon Lili is being abducted and held against her will by a super-sexy wolf who her body longs to touch. But just because he's hot doesn't mean she's going to remain a captive.

Cade is not just an alpha, he's a very wealthy man, used to getting what he wants. So when he attempts to abduct his ex-friend's fiancé, in an attempt to teach him a lesson, he doesn't expect to wind up with the wrong woman. Just how did he wind up with the maid of honor? And why does the woman melt every inch of him? But when the woman escapes, real danger awaits. And Cade must convince her to see beyond his deception if he wants to keep her alive.

## From Reader Review Wynter's Captive for online ebook

### Iris says

Milly Taiden has done it again ladies. She has sucked me in from the very first page. Time and again her writing amazes me. Taiden's signature sense of humor shines through the heroine's every action. From talking to herself to accusing werewolves of wanting to make her their next cannibalistic meal, Lili had me in stitches, at times unwittingly laughing aloud to the point where I was starting to get strange looks. You know the ones. The look that is usually accompanied by the shaking of the head, the look that says, "yup... poor girl... she's really lost it this time."

Independent, willful, fearless and with a dark sense of humor, Lili is the type of character anyone would have difficulty finding fault in. Throw in one sexy werewolf suffering with a serious case of mistaken identity and watch the sparks fly.

*She frowned, clearly confused. Then she glared. "Hey, hotshot, you done ogling?"*

*Interest had his own brows rising. "Are you?"*

Cade is an Alpha used to being obeyed so having a pint sized wonder refuse to be intimidated by him is something unexpected and definitely a plus. Especially if that pint size wonder happens to be his mate.

*"Fascination grew inside of him. She had no sense of self-preservation or she's realize she was pushing her luck, He'd bellowed his words, and she's looked at him like he was a spoiled brat."*

Wynter's Captive is everything fans of Milly Taiden have come to expect and more. Taiden not only continues to deliver, but she exceeds our expectations with every book. My only complaint, if you can even call it that, is that I wish it were longer. If you like your heroines with a whole lot of spunk and your heroes with just the right amount of sexiness and sensitivity, you'll love Wynter's Captive.

Cade hold me Captive! Please!! Lili is on her way to her cousins wedding when she thinks she has hit a man. The man is fine and it turns out to be a ploy to capture her. Cade Wynter thinks she is her cousin, Jaylin, who is about to marry his former best friend, the man he thinks stole his former fiancé. When she emerges from the car she notices not one man, but two and now they are chasing her thru the woods. At some point she notices she is being chased by wolves instead of men until they shift back to human form. Who doesn't like being chased by hot naked men? She runs straight into Cade Wynter and is immediately attracted to him. She's finding it hard to believe it is Stockholm syndrome as she has only been captive for "the blink of an eye". What is she to do now? She is being held captive by the hottest man and no one has ever made her feel this way. Does she really love him and why is he holding her captive? Go read Milly's book and find out! This was an awesome story, I could feel myself running thru the winter woods right next to Lili and was captivated by the sense of being surrounded by the wolves.

Every time I read something from Milly Taiden I think there is no way she can top what she wrote the last time but each time thankfully I am proven wrong each and every time.

WYNTER'S CAPTIVE is so freakingly good. Ever since I read SHARP CHANGE I have been waiting for more wolves by Milly Taiden and thankfully Christmas came a few weeks later again and WYNTER'S CAPTIVE came out.

WYNTER'S CAPTIVE has everything that a Milly Taiden fan has come to expect. Strong heroines that do not take crap from anyone including the hero and heroes who know what they want the minute they see it. Cade just wanted to delay his former best friend's wedding by kidnapping his fiance but unknowingly kidnaps the maid of honor. One glance at Lili and he has no intention of any man coming near her again including his ex-friend.

But when Lili finds out what his intentions were will she ever be able forgive him?

Lili not only has to deal with the fact that she wasn't the real intended kidnappee but the fact that she has stumbled into a group of wolf shifters and that she became mated with one.

Fans of Milly Taiden's will not be disappointed with WYNTER'S CAPTIVE and will have new fans looking for more. What she packs so much emotion, action and heat in 100 pages that readers will keep hoping that more pages will magically appear to make it longer. I personally would love it if Milly Taiden were to write an even longer book.

Milly's books do need to come with a warning though. WARNING: READER MAY NEED COLD SHOWER AND TURN ON AIR CONDITIONING WHILE READING. Also this may be a panty optional read because the scenes are so scorchingly hot.

### **WHAT I LIKED**

Where do I begin? I adore shifter novels (who doesn't?!) and I've always had a soft spot for wolf shifters. Let's face it, I like a strong, dominant, alpha male and luckily for me, so does Milly :D You can always count on her heroes to take no prisoners when it comes to getting what they want. Well, ok so in Wynter's Captive, Cade does take a prisoner...Lili, who becomes his mate. I don't want to give away too much and this is a short book so I won't reveal much of the plot, but I'll tell you that it's super sexy and has an engaging plot. A lot of times erotic romance, especially novellas, severely lack in a storyline, but that's one thing I've always loved about Milly's books. There's more than just sex.

The other thing I love is that she doesn't write physically perfect heroes and heroines. All too often (and yes, I'm guilty of this too), heroines are gorgeous, slender, and flawless. One of my favorite parts was at the beginning when Lili is racing through the forest being chased and thinking how she's going to die because

she's out of shape. Seriously, how many of us would have that EXACT same thought running through our head? I know I would. The fact that her characters are so real and genuine makes it that much easier to fall into the story.

#### **WHAT I DIDN'T LIKE:**

It had to end :( I need to have a sit down with Milly because her books are too good to end LOL. Let's see if I can talk her into writing longer stories so I can enjoy more of her characters. Wouldn't hurt that a longer book would also mean even more sex that will have you panting and squirming ;)

#### **OVERALL VERDICT: 5/5 Blue Duckies!**

If you're looking for a fast, extremely hot book featuring sexy alpha shifters, a woman who is no pushover, and a great story, look no further! Grab your copy of Wynter's Captive and be ready to be immersed in a fantastic world and whirlwind plot. Oh and you may want to have a tall, cold drink on stand by...or a sexy alpha of your own ;)

#### **Holly says**

This book is packed from page one to the end, but not overly so that you feel the author is trying to cram too much stuff into a short book. She did a great job of making me feel like I had read a full book even though I was able to do it in the matter of a few hours. I really enjoyed the characters and the story line and kind of hope that the next time I am driving down a deserted country road, that I too can find myself trying to not hit a wolf man that is standing in the middle of it. I HIGHLY recommend this one!!

#### **Jennifer says**

I have one complaint.. Why so short!!! I want more of Cade, Lili, Brandon, Kevin.. all of them! I love Wolves!

Lili is a take charge girl and Cade is an alpha, what could be better than watching them spark off each other. The storyline is explosive, lots of hot sex, romance that is just out of this world, makes you want to sigh as you read it. Milly has a gift for bringing the story to life and her characters always seem to be more realistic than most.

#### **AL says**

What a really cute book. It was short and so light to read. I loved it. There was parts that just made me laugh and (Awwwed) :D. The bond between Lili and Cade was really sparky, joyful and hawt. Lili is a funny girl and Cade is just excellent. I like that he's not afraid or shy to admit his feelings which some males think it's

silly. He was perfect. The were-wolves was a great twist in the story. Braden, Kevin and the others. Really happy book.

She has done it again! Sucked me into the furry, alpha male, spank me world of the wolves! This one as the other did not disappoint! It was a great read that has you hurrying to turn the next page just to see who would be tied up next! I love this author she wraps you in the story from the first page. Only problem is I WANT MORE!

If you want a hot steamy alpha wolf read then this is something you must get!

Es suuuuper cortito y muy incoherente.

No tiene nada destacable pero me entretuvo. Y después de que casi me da resaca por el libro de Arsen... cualquier cosa es mejor que eso.

Recomendado si quieres pasar el rato y no te importa que la historia no tenga ni pies ni cabeza jajajaj

I loved Lili and Cade's story. I admit that they met under strange circumstances. Lili was just minding her own business and trying to get to her cousins wedding. What would you know that she almost hits some wolves and the next thing you see is two naked men. That would be every woman's dream come true. Only thing is they aren't for her.

I loved watching Lili not bow down to Cade and you could tell that he did to. Glad to know that there is a woman out there that will give Cade the one thing he needed most.

This story made me laugh. I will warn you that if you read this book make sure you are in a room by yourself or have your own sexy wolf with you. Either way you will need it. Take the chance and read this book. See if you can make it all the way through without having to take breaks to cool down.

### **Emily says**

Cade had the perfect plan for revenge, kidnap the bride of the man who betrayed him. Cade knows he has her, but his plan takes a sharp turn when he realizes she is his mate. Lilli is running behind trying to get to her cousins wedding when she is taken, not one to back down she tries all sorts of tactics to get away from the furry alpha in front of her. The main hurdle in her road is the unexplainable attraction she feels to Cade. When Cade realizes he kidnapped the wrong women, he has to figure out how to explain to his feisty mate

that his intentions were heartfelt.

Entertaining story, loved that Lilli has this horror movie perception that she speaks freely added humor to this exciting book. Cade was pure alpha and irresistible, will definitely read more from Milly Taiden

Yup will be looking for more more more . Thank you

This review can also be found on my blog, along with character profiles and a giveaway.

Muy caliente! Milly Taiden (aka April Angel) never disappoints with her scorching hot, sexy, erotic romance tales whether they are contemporary or paranormal. This lady's words probably have a better effect than fertility drugs. I think I felt my eggs drop while reading her newest release, Wynter's Captive.

Liliana Rojas' stubborn streak is about to bite her in the rear. Her cousin Jaylin just had to be different by insisting on having a winter wonderland wedding out in the middle of nowhere. And so Lili finds herself in her car rushing to make it there on time. If she hadn't been fiddling with her radio, she would have noticed the man standing in the middle of the road. When she goes to check on the stranger, she witnesses something she's only seen in horror movies.

Cade Wynter is in the mood for a little pay back. Five years ago, his ex-fiancee claimed to have been having an affair with his best friend. When he hears that his best friend is about to get married, he hatches a plan to kidnap the bride. One look at Lili, one touch, one kiss, and Cade knows he has found his mate. The attraction between them is fast and furious, but when he discovers that he has made a huge mistake, he stands to lose her before he really had her. As if that weren't enough of a problem, he also has to deal with his brother Cyrus. Cyrus will stop at nothing to hurt Cade in order to take over the pack, and that includes going through Lili.

I got my first taste of Milly Taiden's writing, dealing with wolf shifters, in her short story, Mate Event in the Halloween Heat III Anthology. I love that when her wolves shifters mate, they like to bite ;) This story was no different. I found the push and pull of their attraction and their dialogues highly amusing.

*She frowned, clearly confused. Then she glared. "Hey, hotshot, you done ogling?"*

*Interest had his own brows rising. "Are you?"*

Lili is full of spirit and sass, and I loved every minute of her mouthing off to Cade. She doesn't take well to being bossed around, and she isn't afraid to put him in his place.

*She had no sense of self-preservation or she'd realize she was pushing her luck. He'd bellowed the words, and she'd looked at him like he was being a spoilt brat.*

On the flip side, I loved Cade being struck dumb that she would dare talk back to him. He's used to getting his way, not only as the pack leader, but also as a male. When Lili doesn't cower to him, she just intrigues him more with each passing minute.

*“Stop!” His roar would’ve made the biggest man in his pack cower in submission.*

*She gasped. “Did you just yell at me?”*

If you love short, scorching hot wolf shifter loving with some bite, one tough heroine and a sexy alpha male, then you won't want to miss this.

*Why the heck hadn't she brought any of her naughty lingerie? Because she was supposed to be at a family wedding, not frolicking in the woods with the Big Bad Wolf in an X-rated version of Little Red Riding Hood.*

*Disclaimer: I received an ARC copy from the author. A review in exchange was not promised.*

## **A.R. Von says**

Milly sure knows how to write one hot and engrossing read! She had me hooked after reading Sharp Change and I find myself still hooked and looking for more after reading this story. This is a short, erotic paranormal read that grabs a hold of you and does not let go! Any paranormal romance reader that enjoys it nice and hot will enjoy the brief escape they'll get with Wynter's Captive.

Talk about timing! Lili is on her way to her cousins wedding (and in a huge rush), when she suddenly sees someone or something in the road. Thinking she hit the person/thing she pulls over and checks to see if they are alright. BAD IDEA Lili! The male whisks Lili away, abducting her and bringing her to some other males. Abduction... bad! Hot man in front of her right now... good! Very good indeed!

A 4.5 rating for me rounded to a five. My only reason for not giving it a perfect 5 is I was looking for a bit more of a build between Lili and Cade. They are a great couple, the attraction, desire and antics between the two make you want to know more about their future as a couple. I look forward to what Milly has in store for us next :)

Ever been to a wedding where everyone except the bride wears white? Since Jaylin was having a winter wedding she decided to wear red to stand out. Little did Lili, her cousin and maid of honor, know that wearing white to her cousin's wedding would trigger the best thing to ever happen to her. Cade Wynter has a plan to get back at his former best friend for stealing his fiancé. He is going to hold his bride to be captive until after the wedding. Unfortunately Cade's pack mistakes Lili for Jaylin (since Lili was in a white dress) and captures the wrong girl. Both Lili and Cade have surprises for each other, you'll have to read the book to see how it turns out! I loved it - it was a quick read and truly held me captive while reading it!
