Lexi and Jude have a past.

When Jude comes back to town eight years after leaving to fulfill his lifelong dream of being a famous musician and comes face to face with Lexi, forces collide, old hurts are brought to the surface, and life as these two have been living it will never be the same.

There are two sides to every story, and what happens when the things you believed to be concrete suddenly crumble like ash and fade away?

What happens when two people afraid to face the past, become involved in the present? Can they hope for a future?

Alluring Turmoil is my debut novel, so of course I love it.

I completely fell in love with these characters and I pray all of my readers do too.

Jude and Lexi kept me up many nights, but I am quite pleased with the way their story played out.

Be aware: Alluring Turmoil is a second chance love story and is nothing like a love story when strangers meet.

3ish stars for the story, 2 stars for that cover!

I really liked this book. Lexi and Jude had great chemistry; the love scenes where hot and steamy. Lexi is very likable and has great friends and Jude is one hot rock star with tattoos. When Jude and Lexi see each other for the first time in eight years their reunion is combustible. They both have strong feeling for the other but don't know if the past will get in the way of them having a future. Lexi decides not to discuss the past which was a mistake but they both have to trust that their love will be enough this time.

Alexia "Lexi" Sloane is part owner of the bakery, Java and Sweeties. She is fairly successful and at a good place in her life but when Jude walks back into her life she knows that he was the piece that was missing. She doesn't know if she has the strength to give him a second chance to break her heart again when she barely made it through their last break-up.

Jude Delecroix is the lead singer of the famous rock band, Bayou Stix. Although he is a rock star and can have any woman he wants he can't seem to stop wanting Lexi. He has been with too many groupies to count but he can't seem to kill the love he feels for Lexi. So, he makes the decision that he will stop at nothing to get her back.

Lexi and Jude both don't know what the future has in store for them but can't help but be in love with one

another. Lexi has always know Jude was the one for her from a young age and Jude knows that Lexi is the one for him and that she owns him. Lexi knows that she should hate him but she can't help but love and want to be with him. Both of them are under the misconception that the other left the other eight years age. So, when the truth comes out will they still be together?

Okay ladies. If you loved Kellan Kyle you are going to love Jude Delecroix. OMG I took on this book as a beta reader and it was one of the best decisions I've made. I was hesitant because I was not familiar with the author's work, but let me tell you that Skye Turner is AMAZING!!!! I was captured within the first 2 chapters of this book and sometimes it takes at least 4 or 5 for me to get into a book.

The book is about Jude and Lexi, and how a misunderstanding can cause so much pain especially when it could have been so easily avoided. Jude has so much passion and so much love for Lexi. It really pulls at your heart when you see the depth of his love for her. Here is an excerpt of a letter he wrote to her before he left on one of his tours:

“Lexi,

I woke up this morning with you in my arms and thought to myself, I want to do this for the rest of my life. You in my arms is perfection. It's cosmic. It's simply the way we are supposed to be. I couldn't wake you. You were sleeping so soundly.

I know that you and I are moving fast. It's exhilarating. When I'm with you Lex, it's like we were never apart.

A lot has happened between then and now, but the now is what I want us to concentrate on. Now it's you and me. You are what's important. We are the only thing that matters to me anymore.

What happened back then is irrelevant. I want you. I want you always.

You are what I see when I look into the future. 5 years from now, 10 years from now, hell 50 years from now, you are there.

As a teenager and young man, I loved you. You were my everything. But I didn't really understand what that meant. Now, as a man, I love you even more.

You are the reason I smile, Lex. You are the first thing I want to see when I wake up and the last thing I want to see before falling asleep. I want to see you smile every day and I want to know that I'm the reason you're smiling.

These next few weeks are going to be hard for me. I've gotten so used to you, to sleeping with you, to talking with you, to kissing you, to just being with you, that's it kind of hard for me to imagine me functioning without you.

Know that I may not be next to you, but that you are with me. Always. In my head and in my heart. You're a part of me again. The most important part of me. Lex, you own me. You own my heart.

I left the keys for my house and my car with you. I want you to use them and I want you to give serious consideration to moving in with me when I get back.

We're adults. I know what I want and what I want is you. It's always been you.

I see no need to beat around the bush.

I want you. In my life, in my arms, in my bed. Every night.

Think about it...  
You own my heart. You own everything I am.  
I love you Lex.

Jude

Seriously??????? I started crying when I read that. Now you see why I think he compares to Kellan. Man Lexi is one lucky woman!!!

Lexi is successful in her career and has a great business going for her. However, she is very insecure and has so much doubt in Jude. This insecurity and doubt destroyed them for 8 years. Lexi is not as wishy washy as Kiera but she definitely could use some faith and belief in their love.

As far as the other characters in the book, I completely loved her best friends Erik and Bradi. Erik is a sweetheart and takes such good care of Lexi. He's like the big brother every girl wishes they had. (I'm the oldest so of course I wanted a big brother, and plus we are all girls ?) Oh and of course I can't forget about Bradi!! She's the best friend that is fiercely protective of Lexi and has no problem speaking her mind. I love her....lol

You will not be disappointed with this book. I look forward to more books by Skye Turner. Mark my words.....and prepare yourself for an AWESOME book and love story.

I was given the ARC for an honest review. To be honest this is my first rock star romance. I didn't think I would like them, but Skye Turner has convinced me otherwise! Alluring Turmoil had me hooked from the moment Jude Delecroix walked into Java and Sweets! I loved, loved, loved Jude in this book! His POV was written wonderfully and showed him to be a complex character underneath his holy HOT shell. Lexi was a bit more of a mystery, but I think that added to the plot later in the story. The scenes between Jude and Lexi were steamy and passionate. Their story was intense, fast paced, full of angst, discovery and love. I didn't feel this story was unrealistic. It was a very believable romance that didn't have me rolling my eyes. The dialogue between the characters in this book was fresh and current and had me giggling more than once. Erik, is to die for... who wouldn't want him as a best friend. And Bradi was a real character too.

Alluring Turmoil was a rocking love story, and I can't wait to read what happens with Blue and Jessie in the next book!!!

How I feel after reading this ... do not get angry but I will be a BITCH, here I go:

1) This book is so dull. I have to say (and I hate doing this) That I was not keen on this, to start I hated LEXI, She's the type of character I wanted to slap on more than one occasion.

2) I hate, I fucking hate books where the hero fuck with anything that moves and heroin fuck with only one person, THIS IS SEXIST.

3) The plot is so Mexican telenovela, really, you find your man fucking a bitch and you run, REALLY, I'm so angry, girl you need to stick a Venezuelan flavor to your life, I turn on the light to look good is what is happening and if my man, poor but his dick will not exist. slap that bitch so hard that she would see the stars. REALLY, you lost 8 years of your life with your man for not turning on the light in the hotel room and see if it really was him.

4) THE SEX. oh Fuck the sex. I fell asleep, so boring. this is a fucking ROCKSTAR about which we are speaking, for the love of god, read a book, go to a Sexclub or watch porn.

5) the flashbacks, why the hell the author add them if they are meaningless and add nothing to the story.

I was very close to giving this book 1 stars, since Goodreads Does not Have half star ratings, but I felt the book That Leaned a tiny bit more to 2 just because the book is not bad ... just unoriginal, unsavory, dull, bland, unseasoned, vapid, savorless, flatwatery, flavorless, unpleasurable, without spice, uninteresting, lacking flavor.

I COULD NOT PUT THIS BOOK DOWN! I was up half the night reading it!!

The only reason I couldn't finish in one day is because the lines started to blur together. LOL BUT I was reading it the next day as soon as I woke up and didn't put it down until it was finished.

That being said! WOW!! Are you sure this is Skye's first book??

Skye writes like she has been writing forever! I honestly did not know what to expect from this book, yes it's a rocker book, but I don't think it's your typical rocker story! Not all rockers are the same, and she proved that in this book! AND I loved it!!!

ok.. ok.. SO.. It starts out with Lexi and her best friend Bradi talking about going to a concert, and Bradi is literally begging for Lexi to go with her, but Lexi doesn't want to go, she DOES NOT like rock stars. Finally Bradi begs and talks her into going, so at this point I think she is going to go to said concert and fall in love with the lead singer, he is going to be a "womanizer" cause most of them are, he's going to be addicted to drugs cause most of them are. But then she is going to change his "bad boy" ways. Typical rock story, I do love them tho:) BUT wait.. wait.... wait.. NOT this story~!!

I know right~!! You will just have to read this book to know what is so different about it, but JUDE? omg he is a SEXY ROCK GOD

AND he is not your typical rocker either!! Yes Jude and Lexi are two soul mates looking for a happily ever after, but will they get it? She is happy with a coffee shop/ bakery that she runs with one of her other best friends Eric. And well Jude he is a rock star and rock stars are not known to stay in one place for very long.

Ok now that my review has totally confused you I will give you a little bit more info about the book, after her best friend Bradi begs for her to go to this concert she continues to tell Lexi how hot the Bayou Stix lead singer is, and how he is just sex on a stick!!

WELL in walks Jude into Java and Sweeties, and when Lexi turns around it is obvious this is not just a rock star to her, and it is obvious that there is def history here! What happens after that! You will have to find out when you read this delicious book.

This is from both Lexi's point of view, and from Jude's point of view and I loved that. I got to see into the rock stars mind and his heart. AND this MAN is AMAZING!!! Take a chance on this book, and give it a shot, I promise you will love it

Passion, love, heartbreak, first love, friendship, sadness, SEX and finally second chances ((and you all know we need some of those))

I have fallen in love with Skye Turner, I can't wait to read more from her, she is going to go places and I am so happy that I was one of the ones that got to read her book and give her a five star review!! SHE gets the HOTTIE award for having this man in her head all the time!!!

OK I am done .. for now! :) GO---> give this book a shot! Thank you Skye for this amazing book and for giving Jude a spot in my heart:) I can't wait to read your next book in this series~!! I know its going to be amazing .. :)

Ok I'm officially a crazy Skye fan! I loved this book and Holy shit woman you can pen some hot sex scenes. I was glued to my kindle from the very start of this book. Lets be real, who doesn't like a hot Rocker named Jude and his woman Lexi? My only bummer about the book is that I need to wait till next spring for book two. However, this story of Jude and Lexi wraps up nicely and I'm hoping that they make repeated appearances in the future books. To all my book friends out there, don't miss reading this one seriously HOT!

Great debut novel from Skye Turner. I received an ARC for an honest review. Great storyline with super character development and steamy, steamy scenes. I read it in under a day! I may have lost some hours of sleep over it :)

I have one word to describe this book H-O-T! My suggestions to anyone before they sit down to read this book:

1. Have extra panties on hand.
2. Pick a comfy chair , because you will not want to get up.
3. Have a cold glass of water.

This book should come with a warning label that you are required to have an extra pair of panties on hand while you read. Oh did I say that already well here is another word you should know Jude Delecroix. Okay that was two words but let me just say it is a name you will want to remember. The chemistry between Lexi

and Jude, well let's just say it was getting hot in my reading chair. You know the song by Nelly, it's getting hot in here, yeah that ran through my mind numerous times as I read this book. I never give spoilers but Skye Turner had me shaking my fist at a couple of points in the story but then she made me happy happy more than once. I would recommend this book to anyone who loves DIRTY ROCKERS! I was given an ARC in return for an honest review and I am going to be standing first in line when the second book to this series is released. And for those who need to know this is part of a series but reads as a stand alone it is not a cliffy.

*ARC given by author for honest review...*

I really enjoyed this story from Skye Turner. First of all you have to know that I live in Central Louisiana born and raised. This book has a special place in my heart because it's like Skye filmed a movie in my home state and projected it right in my mind. Loved it. I did get so frustrated at times with why Jude and Lexi wouldn't discuss why they separated 8 yrs prior but it all came to a head in great dramatic book fashion. Lots of hot scenes, crazy funny characters. Just enough information on the other band members left me wanting to definitely read the next book.

*We reach for each other at the  
same time. Grabbing his neck, I pull his head down,  
knocking his cap and sunglasses to the floor, as he grabs  
my waist and lifts me up. Our lips find each other and it's  
as if a bomb goes off. His tongue sweeps past my lips,  
and our tongues war with each other as our teeth clash.  
There is no gentleness here. It's as if we want to consume  
each other*

*"I was always alone; alive but not living.  
Until the day broke clear and my heart was Red.  
Red... Red... My heart was Red."  
The crowd goes insane and he looks over at me

I'm done for... Jude just sang my song to me in  
front of 30,000 people in our hometown.  
I'm so gone.*

**\*\* I received a free e copy of this book in exchange for an honest review \*\***

I tried really hard to like this book but I just couldn't connect with it. I gave Alluring Turmoil 2 stars mainly because the back story "rocked". Pun intended.

Jude and Lexi were in love as teenagers. Not just any love. That weak in the knees, once in a lifetime kind of love. Jude catches his big break and gets signed to a record deal. Something happens and they split. They both spend the next eight years being half the person they were when they were together. Circumstances bring Jude back to the bayou where he and Lexi try to rekindle the flame. Sounds awesome right? Well it was, but for me that was the only awesome thing about this book. Everything else sort of fell flat for me.

The characters were likeable enough but I just couldn't relate to them. Bradi was a pretty cool friend but other than that she seemed too flaky. She is a beautiful girl who is in a relationship but flaunts herself at other men. She just comes across as trashy. Lexi herself is supposed to be a beautiful, strong, confident business owner but more than once she ends up collapsing on the floor and having to be "scooped" up by her best friend Erik and carried from one spot to another. I'm sure this is meant to make Erik seem chivalrous but for me he seemed more like Lexi's lapdog.

I had a few other complaints with this story as well. The sex scenes seemed really overdone. You can do hot without going overboard. These sex scenes crossed the line from hot to ridiculous to boring for me. You do not have to use every dirty word you know to make a sex scene interesting and women don't "finish" (for lack of a better term) on command. Also, I found the frequent use of the word 'baby' to be irritating.

I thought that the storyline had a lot of potential but it just wasn't enough. It didn't seem to go anywhere. I felt like this book would have been better, in my opinion, as a plain old romance and at this time I wouldn't recommend it.
