Shibin k says

Santhosh Echikkanam proved that Short stories are still strong.
very relevant and thoughtful stories.

Saji Nediyanath says

A good contemporary collection of short stories. 'Biriyani' was hard-hitting, the other stories are also reflections of the present day Kerala.

Gautham says

A lot of characters went past me through this book who were toiling in the misery of lost identity. All through their toil I got to realise that a person is never complete without the umbilical attachment that he/she has towards the land, along with its culture, that has made him/her up. This was also the truth that struck me all through the book as every character plays not only their role but upholds the fact that you are not an individual as such, but the outcome of a much more elaborate process that defines a society you were a part of.
