Emily Iliani says

After months of slaving and going through the spiritual turmoil, finally closed the book for one last time and tasted the sweet victory!

I enjoyed the arabic verses included in the narration as well as the (questionable) hadith.

Love that once you read it, you can tell the reasons for all the variations of history told and passed down mouth from mouth.

Razzberry says

When I was growing up, there weren't all that many books on Islam in English, so when this book was translated, I didn't care that the layout and language could have been refined. (Mine is the first edition.) I was just thrilled that I finally had access to the stories I had wanted to read as a child.

These stories, from Adam to `Isa (peace be upon them all), are compiled from Imam Ibn Kathir's 'Al-Bidayah wan-Nihayah'. They are supported by references from the Qur'an and Sunnah.

I used this book for my daughter and simply love the details. I would give it 4 stars for content alone. Language is a different issue :)
