### **Marie-Josee Larouche says**

Having never before read any Marvel or DC comics (or any comics in general other than manag's) I was very excited to read this. It was very entertaining and amusing, and I found it very captivating to read.

I was a little skeptical at first, but I am glad I took my boyfriends recommendation to this. I am definitely reading the other Deadpool comics when I get them!

### **Paula says**

Well, this is Deadpool. 'Nuff said.

### **Redwan Orittro says**

Was expecting something much much better. But overall not bad...bringing classic characters back from the dead

### **pianogal says**

This may be my favorite graphic novel of all-time. Deadpool kills literary giants. Loved it! It's hilarious. Take that Tom Sawyer!

More please.

### **Dimitris says**

What a great idea going to waste... that's all I'ma say here.

---

### **Constance Sedgwick says**

It's deadpool. Killing literary characters because...[spoilers]. What's not to like. Especially seeing Don Quixote's eyeballs getting ripped from their sockets courtesy of our Merc with a mouth.

Hey, it may be a comic book, may have mostly pictures but reading is reading <3

### **Malligal says**

I had such high hopes for this comic book.

Deadpool? Amazing!

Classic Literature? I'm down!

Deadpool working his 4th wall breaking self through those classics? HELL, YES!

The reality is that it was just not done right. There's no lead up to anything! Granted, I haven't read much of anything that may have come first, so there could have been background info, but with it being a #1 in the series you would think there'd be a little bit of a backstory (and yes, I know the basics of Deadpools' story, but apparently not enough)

I would have loved to see more interaction and some of the amazing Deadpool wit thrown at some of the classic characters.

Oh well.

2.5/5
