Descendants 2 fans will adore this all-new Spell Book.

When Mal first got to Auradon, she used her spell book to try and destroy the place, and then she used it to fit in there. And then it fell into the wrong hands. . . Or should we say tentacles?

This spell book has been completely updated with fresh spells, plus brand new comments, photos, and inside information from villain kids Mal, Evie, Jay, Carlos. . . and Uma. This is the next chapter in their story.

LOVED IT <3 I think I just love all the dialogue in this one. I put sticky notes over my favorite parts, I can't help but enjoy it so much. Its a great addition to the books and movies.

Susan says

I like being able to read the thoughts of the villain kids with regard to what goes on. It is fun. This one had interesting thoughts from Uma as well.

Amanda Mic Perkins says

These are neat little adaptations of the movies (I read the first one too). They show you the spells as well as the characters' commentary on events, something you don't really get in the films or (typically) from the standard novelization.

Trinity Truair says

I got this for my birthday and I love it !

Lena says

Loved it so much!! It was so interesting, even in Uma's POV. I wished it had more pictures of them all though.
