How to Date a Vampire

Rose Pressey

How to Date a Vampire Rose Pressey

Dating a vampire doesn't have to suck.

Rylie Cruz is the owner of Get a Mate dating service. Her specialty is matching up paranormal folks. Thinking that a curse placed on her is finally broken, Rylie hopes that her love life is headed in the right direction.

Not so fast.

Rylie has finally convinced her hunky psychiatrist boyfriend, Jack Chandler, that she isn't crazy and is actually a werewolf. But after a little scuffle with temperamental vampires, Rylie must now convince Jack that he may be a part of the paranormal club.

Anne-Kathrine says

Cute story, which some drama of course. Interesting to see how the next book turns out :)

Josie says

Loved it! So fun! I like how Jack and Rylie's relationship grew. Now to wait for the 3rd book to see what's up with Jennifer.

Amber LaShell says

This was a good book that paranormal fans will love. Rose Pressey does a very good job in keeping the book light and snarky which makes this 2nd installment worth a read.

Krystyna says

A new type of vampire - perhaps!

Stunning. Being the matchmaker is hard work but when her own match gets bitten by a vampire things get out of hand. Why does everyone want him? Why is he different to our vampires? When he is kidnapped, she is in a race against time to rescue him. Will she get to him in time? A great read.

Jennifer says

I liked this book more than the first in Rose Pressey's "How to Date a ..." series; and I loved that book! Once again, Rose Pressey does it. She delivers a great read. I just love her easy-going, easy-to-read writing style. It's a sure hit. Way to go, Rose. :)

Sa says

That cover is sooooo adorable! Too bad the story isn't.

spoilers

It's been a while since I read the first book; I remember enjoying Rylie's sense of humour a lot and this book also has Rylie's fun quips and thoughts. But this book lacks in many things.

*The romance was beyond dull. Mostly Rylie hides stuff and Jack's unwell and Rylie is worrying over him...that's almost all it the end. where's the ROMANCE in the PNR?! You could switch Jack with Rylie's granny and it wouldn't make much of a difference.

*The plot is so irritating! EVERYTHING IS SO LONG WINDED! Most of the stuff was stretched like a rubber band because

Rylie is not only unbelievably ignorant (How is she gonna stay away from the paranormal world when she's running a match making agency for PARANORMAL creatures?!), but she also doesn't have a single QUICK means of getting information.

Rylie doesn't want to do anything without stalling. She doesn't know much, but when that guy wants to tell her stuff about vampirism she just walks off with Jack. She doesn't even hear him out even though they were in a public place.

Someone tells Rylie to go there and do that to achieve this, Rylie is clueless but does it anyway, and doesn't achieve ANYTHING. Now she has to go another thing to achieve the same goal. That voodoo lady didn't enlighten her with precious gems of wisdom. She just stated the obvious THEN WHY IS THIS EVEN IN THE STORY?! The man, the voodoo lady sent her to, gave her a book which she didn't even READ OR USE in any way so why include it?!

Let's go looking for Jack here then there and fill pages because why not? Anything big or small is supposed to add significance to the plot.

Quinton was cute and his banter with Rylie was more fun than anything else in this book.

Abigail says

Another win from Miss Pressey! Rylie is even more lovable! With Jack and Stephen being turned to full fledged vampires it's going to get really interesting. But poor Jennifer! She's the only normal one in the bunch! Or is she..? Cannot wait for three!

Anita Clay says

Rylie Cruz runs Get A Mate Dating service for humans and the paranormal. She has a knack for pairing the right people together. She has just started dating the very attractive, Jack Chandler who just happens to be a Psychiatrist. When things start to go wrong and Jack is attacked by vampires while savings her and her parent's lives, the trouble begin.

I love the quirky style of Rose Pressey's books. This book is fun and has plenty of adventure into the world of vampire and werewolves. You will enjoy reading it and will hunger for more. I highly recommend it.

Dana says

this was a cute and quirky paranormal romance, I really enjoyed reading it....

Nikki says

This is a Must but please read the 1st book How to Date a Werewolf

Dating a vampire doesn't have to suck.

Rylie Cruz is the owner of Get a Mate dating service. Her specialty is matching up paranormal folks. Thinking that a curse placed on her is finally broken, Rylie hopes that her love life is headed in the right direction.

Not so fast.

Rylie has finally convinced her hunky psychiatrist boyfriend, Jack Chandler, that she isn't crazy and is actually a werewolf. But after a little scuffle with temperamental vampires, Rylie must now convince Jack that he may be a part of the paranormal club.

Rose has done it again, another book I just love I couldn't put it down! Just when Rylie thinks she can breathe something happens if its not due to her uncle & Lily its Jack then throw in Stephen, Jennifer's Cop-boyfriend. And a whole team of Vamp's especially a hunk of a one Quinton comes in(Yum) I loved the ending I actually laughed for me when Lily asked her to be her maid of honor you notice Lily has no one but Rylie that's why she keeps bugging her. Loved how she gave a huge hint about the next book with Jennifer's red glowing eyes! AMAZING this is a must Read!!!!!! Can't wait for the next book How to date a Demon!

Jennifer says

Don't you hate it when you read a sequel to an amazing book and it totally lets you down? THIS IS NOT THAT BOOK!!! Another wonderful adventure/mystery/Romance for our darling Rylie. Snarky, vulnerable and lovable, Rylie is a heroine that should remind each of us a little of ourselves. Fabulous story line, fabulous characters and a tingly romance. Love this book! Love this author.

Brandy Barber says

Good.

I was very excited to read this book. I love Rylie and thunk it's great she has finally found a boyfriend. Maybe. The only thing holding me back from this awesome story is she was getting on my nerves with the smart mouth comebacks. At some point I was really rolling my eyes telling her to move on. Again the story

and Rylie I love. I do look forward to moving on to the next book.

Jillian Cori lippert says

The first book in this series was OK. I wouldn't have read this book if I didn't already have it. I should have just skipped it though. I found myself really disliking some of the characters, including the heroine. I found her to be rude and stupid. The premise that she would be running a dating service for paranormals but know virtually nothing about any of them was ridiculous. I did finish the book but it took forever because I disliked it so much I kept finding other things to do rather than read. The book should have taken a day or two at the most. Don't waste your time on this book.

Holly says

This book picks up right where the other left off with Rylie headed to her parent's house with Jack in tow. Vampires are hassling them because of her uncle's gambling debts. During the scuffle Jack gets bit. But he doesn't become full vampire, but something else that Rylie knows nothing about. She comes to realize she actually knows little about most of the other paranormals. Other vampires try to come after Jack, some to save him and some to hurt him, but who knows which ones are the good guys. A couple new characters introduced and some definite changes with the boyfriends, sure there will be more on that in the next one. A little unsure on the whole turning someone into a vampire though. So they would be turning everyone they ate from into a vampire? Huh.

Lorre says

How to Date a Vampire was a really nice follow-up to the first book of this series.

Now that Rylie doesn't have any werewolves following her, you would think that her and Jack are finally going to be able to enjoy their new relationship. But a few vamps seem to think otherwise... they seem to want something from Jack and Rylie will do everything to protect her boyfriend.
