Melody's Crush

Alora Dillon

Melody's Crush Alora Dillon

18 year old Melody Jenkins has spent the last 3 years of high school crushing on one guy, Jake Kensington, who sees her as no more than a sister from another mister and best friend. Not wanting to risk their friendship, Melody has kept her crush a secret and her emotions in check whenever she's around him... which is daily since they live on the same property.

It's her senior year and she has made it through the past three years of high school with little social psychological trauma. That's excellent considering she goes to a school in Los Angeles where the majority of the bored students graduating will have executive paying jobs the moment they walk across stage. If all goes well, she will graduate as the Valedictorian with multiple offers from colleges on the East Coast, far away from California.

But when the health teacher announces a "special" project that requires students to be paired and live under the same roof for one week, Melody's world gets completely turned upside down. She is forced to spend time with someone totally opposite of her and frankly, she can't stand... or so she thought. One night of catching a glimpse of the softer side of Kyle Warner, the school's most popular and arrogant quarterback, has her heart pounding and her stomach doing flip-flops.

But when Melody shows an ounce of affection toward Kyle, Jake discovers feelings of his own as he tries to protect his best friend from the guy he knows Kyle can be.

As the project comes to an end, Melody goes to homecoming... will it be a night to remember, forget or both?

From Reader Review Melody's Crush for online ebook

Kate McMurry says

This is a G-rated, young-adult romance, which itself is refreshing. However, if you do not like romantic triangles, this book employs an overwhelming use of that young-adult, Twilight-inspired, plotting device. I personally jumped to the end of the book before finishing it because I wanted to know which boy she ultimately chose. I don't like to waste time emotionally investing in the loser. I do not think it is a spoiler to say that the author does not completely assure us which boy is the winner until about the last five pages of the book! I personally consider that dragging out the triangle's suspense much too long. But I don't really like romantic triangles.

Lacy Osman says

Amazing!

Wow, I loved this book! The writing is great and the characters are amazing. I loved Melody and Jake's friendship and the special bond they shared. As for Kyle, wow I loved him and the chemistry between him and Mel was awesome. I highly recommend this book and can't get the next book from Kyle's point of view fast enough!

Rikkoberry says

This book was too cute and I found myself grinning like a Cheshire Cat at many points throughout the book. From the beginning I felt a connection between Kyle and melody that just wasn't there with her and Jake. One of the better teen romance novels I have read in a while! Love!

Perks Of Being A Fangirl says

Give it a chance.

Isn't it every girls' dream to have 2 hot guys fall for her? Well, it is mine.

It all starts with a project. Melody gets paired up with the 'jock' instead of her bestfriend and discovers many things which she did not anticipate. Over the duration of the project she begins to learn new things and starts embracing the changes.

Despite this being Alora's first book it was really well written. The characters were likable and as soon as you start you are pulled into Melody's story which made me read 3/4 of this book in one sitting. It had a good plot progression however when it nears the end it left me strangely unsatisfied which surprised me since i'm a sucker for those types of endings.

Unknowingly Maxi found a special place in my heart as I longed for his appearance in this novel. So, Alora. How about writing Maxi's story next?

Sarah Johnson says

Couldn't stop reading. Want to hear more about how jake find his love and more about maxi!

Lorie says

Enjoyable and sweet reading

I waited until the final book was out until I started reading because I knew it was going to be that good. Not your typical high school activity. Am I glad the author didn't fall into the typical plot of covering bullying as many of the YA books. Loved the female character and the hot guys. It was unexpected who she ended up with. Am I glad since I was rooting for her to end up with him. The only drawback was the ending. Too short of the HE A moment. I give this a 4.5 rating. Didn't like photo of the final book. It was somewhat a turn off for me. The first front of the book photo captured the age of the characters, but the second photo made the guy looked really young like 16 yr. old. They don't even look alike. Just my pet peeve I guess. Definitely recommend this book. I will be buying other books by this author. Couldn't even tell this her first book.

Tricia says

Can't wait to read the next book

I loved this book! It was perfect for anyone to read. Hopefully it will last even when they go off to college.

Amie says

I think I got the wrong book here. Am I the only one confused by how much it skips from one boy to the next?

I gave it a solid 2.75 annoying electronic babies.

but it does hold a lot of potential.

you can see a full review at my blog.

Char ? Denae says

I loved this book! It put me through a lot of emotions but, mostly, it made me laugh. Teenagers dealing with fake but realistic, newborn babies, crushes, real love, family drama, grief, guilt, expectations ... etc.

I adored Melody! She's smart-mouthed but extremely lovable. Jake is the perfect big brother/best friend. I loved how he swung back and forth between being selfish about Melody, and doing what would make her happy. And Kyle ... what a doll!! A totally jerk in the beginning but then ... total Prince Charming! Gorgeous, sweet, flawed, heart-broken, you just want to give him a big hug. Well, maybe that's not all, but ... since he's only a senior in high school, a big hug, it is. *wink*

Terrific young adult book perfect for just about any age to enjoy.

Jessica says

4.5 STARS!! A friend added this book to her "to read" shelf and after reading the description, I new it was something I would like. I'm so glad I was right! This book had me hooked within the first couple of chapters and I couldn't put it down! I really enjoyed the characters and story-line. The characters are well written and I found myself unable to predict what was going to happen next! This love triangle had me on a roller coaster ride. Seriously. Multiple times I laughed out loud. I mean if a line like "I just got schooled on how to fart by Kyle Warner and had no one I could tell it to" doesn't make you want to pick up this book, something is seriously wrong with you! The only down side I had was that I felt like the end was a bit rushed, like the story wasn't quite over... or at least Im hoping that it means that I haven't seen the end of Melody and Kyle

Jenna says

3 stars for Kyle not for Melody. Love that cover

Normally I don't like these story's, I hated the main character I wanted to bitch slap her so many times, but for some reason I still liked this book. Don't ask me why I have no clue. Ohh and this book is as unrealistic as the come.

I want to read the sequel, I want more Kyle

Kris says

Great first book by Alora Dillon. Melody's Crush takes you through the awakening of Melody, who

transforms from shy brainiac nerd to the desirable, adorable focus of two young men's love. Melody has had that "first love crush" on her best friend, brother from another mother, Jake for 3+ years, but buries it in order to preserve a friendship that is the dearest thing to her in all the world. A school project puts her in the sights of the spoiled rich boy, school star jock, cocky QB Kyle. Melody finds through the course of the project that people have many sides, and in fact hide their true selves in order to fit the mold that others believe they should put forth. Melody finds herself drawn to Kyle, a nemesis turned sweet, sexy and endearing guy. As she fights her feelings between her lifelong crush for Jake and her new found attraction to Kyle, she finds a new self, with new dreams, and new realizations. Great light, fast, and charming read from Alora Dillon.

Emily says

OHMYGOSH! So cute! I was a little wRy about how I'd like this but I shouldn't of been because it was adorable and captivating! Ugh! I have to get up early in the morning but I just had to finish this book, I had to.....and possibly sneak a peak at the second one...which I'm reading next...

Aaah! Melody was a great heroine in this book. I could relate to her a lot. Jake was great too. I've never really like both sides of the whole two love interests thing but this one actually had me conflicted. But I'm glad with how it went so much! KYLE! SWOON. That is all.

Great Kindle freebie for me!

Sara says

WARNING!!! This review may contain spoilers!

Awww God, I loved this book! It was cute, funny, amazing, hot and set my blood on fire. Seriously! Is it just me having hormonal issues or did it make your hormones do a happy dance too? God, Kyle and Melody together were just.... wow! Fireworks, sparkles and goosebumps! I loved, loved, loved Kyle! I know I was supposed to be teaming for Jake, the best friend. And I meant to, really. I actually did want him and Melody together for real, at first. But then....after that weird morning when he saw her change clothes (and I assure you, I loved that scene! It was hilarious and kind of satisfying seeing him so awestruck and amazed and Melody didn't even realize what she'd done!), he started to annoy me a little more each passing day. Until that Friday when the Parental project started. From the moment of the wife&husband picking at school, I didn't like Jake much.

Then I got back to liking him a little, and he was really nice and sweet with Mel, most of the time. But I was already crushing hard on Kyle, so.... although I felt sorry for Jake in the end, and I was hurting with Mel for breaking his heart, I was also hoping for a happy ending with Kyle.

There are a bunch of favorite scenes I'd read and re-read again... such as... that first Friday night when Kyle arrived at her house and particularly their wrestling match and Melody's mom meeting the "husband". Or every time Mel almost passed out by drooling too much over Kyle's hotness (and when she actually passed out!). Their almost kiss when Kyle locked her out of her house. Their first real kiss at his house (Wow!). The kiss at the dance, although it was ruined by a b!tch. And finally, finally, the last scene in the end that was hot, sweet, cute and amazing! And how cute and sexy was Kyle (half naked some times) cradling a baby (fake, but still...)!

I didn't expect to like this book so much. I mean, I thought the story would be nice and interesting before starting to read it. But when I started.... I just couldn't stop reading. And I loved it so much!

I want more! I think it was too short. I'll miss Mel and Kyle!

Tia says

I FINALLY, FINALLY got this one and read it. Oh man, it was so good and I loved the change ups from the three different novels. It was so much smoother when it was all put together. I really wished it would of ended differently but it set my heart aflutter regardless!
