I've previously read and really enjoyed Margaret McHeyzer's Drowning and have since been interested in diving into more of the author's work. Although I have a couple of books on my Kindle that are in the same genre – young adult, on the edge of new adult, contemporary romance – I decided to read My Life for Yours first. It's a very different genre, yet I was interested in seeing how McHeyzer approached it.

Although it is not always the case, I often find author's have one genre where they really shine. With Margaret McHeyzer, based upon the two books I have read, I'm thinking such may be the case here. Drowning hit me hard, whereas My Life for Yours was difficult to get through.

I love a good mob story, I'm always happy to dive into erotic reads, yet this one failed to bring about any of the emotions it should have. I never connected with the characters and the story was overly predictable. The only thing that really saved it for me was the epilogue. The epilogue was the only aspect I found unexpected – it caught me completely off-guard, being very different to how these kinds of stories usually play out, and I appreciated this.

I'll certainly be reading more Margaret McHeyzer, but I'll be sticking to her books that are more in line with Drowning and less in line with My Life for Yours.

I'm your "Redemption" and you're my "Resolution"

He's lived a life of high society and privilege and she's lived a life surrounded with underground activity..She's desired by men and envied by woman!!

He wants to stamp out organized crime and she's the ruthless and tough Mob Boss and in her world all lines are blurred!!

Her father was the head of the family until he passed away three years ago, the take over for Frankie was easy, the ones who didn't adapt were taken out..

After taking care of business she's out on her second date at her restaurant she owns, she's finding the date boring as fuck and doesn't mince her words in telling her date for the night that, this will in fact be the last one.

"Justin, this'll be our last date, frankly you're boring me and I'm not feeling anything with you. I'm really struggling to stay awake with you, Justin."

As she's leaving the restaurant she's knocked flat on her ass, "fuck me" me mumbles, she looks up into smoky grey eyes, short jet black hair, just a little longer than a buzz cut, perfect square jaw line, beautiful sculptured nose and kissable lips..

"Miss DeLuca, what a pleasant surprise, I should introduce myself"

"I know exactly who you are, Mr Miller."

How can one man look so perfect and be so gorgeous and yet be a pain in my fucking ass!!

Jeremy Miller's a Senator, who can't be bought off and has made it his mission to stamp out organized crime, so in other words, he wants to put Frankie behind bars.

He steps closer and brings his other hand up to rest on my ass, he leans in very close to me and I feel him take my ear lobe in his mouth.

Lets just stop there for a moment and just let me say that, that didn't actually go to plan and what actually did happen and Frankie's reaction will make you laugh!!

"Tonight you belong to me Darling", my breath hitches while my clit clenches, "I belong to no man, Senator."

"Tonight you'll do what I want. Tonight your mine and everything I want, you're going to do what I want."

Tonight I'll allow Jeremy to own me but tomorrow it's back to business as usual..

With passion and love, With love and want, With heat and determination, With heart and soul, Frankie would swap her life for his.

He challenges her, He pushes her, He excites her, He infuriates her, but most importantly He sees her!!

"Without you I have no courage." "Without you I have no soul." "Without you I have no life"

Here's the thing if I could give this book more than 5 stars it would be getting slapped with it!!

Once I started this I seriously couldn't put it down, my eyes would be drooping and I'd be telling myself come on just one more chapter then you can sleep, one more chapter turned into me finishing the book in one seating..

I Lived It, I breathed it, I couldn't put it down!! Highly recommend!!

If you love a strong kick ass heroine, look no further this book is for you!!

I could sit here and rave on and on about this book but the best thing to do is go grab a copy of this yourself as it's set at a very low price, I also don't want to give too much away!!

But do yourself a favor and grab a copy it's seriously that good!!

I am stunned and not in a good way. From the blurb I got that this is about a taboo relationship, steamy scenes, and criminal activity. There was a ton of all of that, but in a clinical detached view. I did not feel the connection between Franky and Jeremy. And then once things are going well BAM the epilogue just slaps you upside the head. Seriously how was that related to what they went through during the whole book? There is no HEA here, and seriously the first time I felt anything was in the epilogue and I was sad and pissed!

Crazy about Bookz says

I'm a fan of the Hit Series of Ms.Margaret McHeyzer, when I found out that she is launching a new book with a different genre I became so excited and when I read the excerpt of the book I'm done! I love the story line it is about a mob boss and a senator. Two different poles attract each other and when they collided they explode!!!

I love reading a story about Mobs there's something in it that attracts me (^o^). I'm so eager to start reading My Life For Yours cause it tackles the "love story" of the two different individuals that most likely will opposed each other. Meet the Mob boss, Frankie DeLuca, she is one sexy and hot alpha female, a BITCH literally (because of her job) and I love her. She has the power and the balls (ahem). And meet the Senator! Jeremy *fucking* Miller (lol) very passionate man, he has a very skillful tongue (*fanning myself*) and the BOSS in the bedroom.

I'm so excited for this review I forgot to thank Ms.Margaret for the copy, Thank You so Much I'm really happy and surprised, I saw my name on the dedication, I'm sincerely touched *(^o^)*

The story is well written and clear, as expected. Every sex scene is very HOT! as in HOT! HOT! HOT! I love the twist and turn of the story and even 15 is there! It was a very nice story, erotic but still have the suspense, and I didn't expected the ending! I'm not prepared for it! But it makes the story more realistic, very beautiful.

Kudos again to you! I'm looking forward FOR MORE.

OMG, I didn't saw this coming! Kick ass heroine, hot as sin hero, amazing sex! It is fast paced, and I love it that way, no wasting time on fighting it, and totally unexpected end! HUGE THANKS on author ,because it's stand alone, and no damn cliffhanger!

5 Sassy-licious stars!

A Mafia boss and a Senator! Of two different worlds!

"He's lived a life of high society and privilege; he chose to follow in his father's footsteps and become a Senator. She's lived a life surrounded with underworld activity; she had no choice but to follow in her father's footsteps and take on the role of Mob Boss."

"Being together doesn't make sense. But being apart isn't an option."

Frankie is not your typical female character, she is sassy, sexy and a real bitch and I love her! And Senator Jeremy Miller may not be the boss of her but he certainly is the boss in the bedroom.

His her redemption..... she's her resolution.... together they fit perfectly....

This book is sexy, hot, sassy-funny and explosive. And the epilogue? I am still processing.... ;)

I'm rating this book 2 stars. Beware it doesn't have a happy ending.

*****5 Senator Hot Stars*****

My Life for Yours is a story that's a little different to others. This is a darker contemporary romance. In this tale I have Frankie DeLuca, the daughter of John DeLuca, head of the Family. With John's death, Frankie steps up and takes on the role of Mob Boss. She's quick witted, she's tough, she takes what she wants and she's not scared to tell you exactly what she thinks.

Frankie collides with Senator Jeremy Miller, and everything changes.

Well for Jeremy it does.

Frankie and Jeremy's story is filled with so many twist and turns through out.

How can a Mob Boss Alpha female, be with Senator Jeremy Miller?

Jeremy can't stay away from Frankie.

And Frankie doesn't do romance.

Can they make it work?

I hope you enjoy my Frankie and my Jeremy.

I love these two so much.

Til next time.....

When I read the synopsis, I was intrigued. I thought it was going to be about a taboo relationship. She was a bad ass which I liked but he was weak and wasn't fighting any crime. It was insta-love. No tension like I hoped there would be. It was a story about who was after her. It was a good reveal because I didn't see it coming but the ending was rushed and it came out of nowhere.

Lady Vigilante (Feifei) says

I didn't finish this book. No fault of the author, this is another case of me being a dumb reader. The author kindly warned me that this story would be "different" from her other work and I guess I didn't realize *how* different. Definitely NOT a bad book, but just wasn't for *me*.

### **This book sounds WICKEDLY AWESOME!!!**

So excited to read this!!!

#### **4 Totally Different, Hot, Bad-ass, Action packed Stars!!**

Okay so when I read this synopsis I was so excited, it sounds so good. I loved Margaret McHeyzer books (HiT series) and I was intrigued to see how this book would turn out. I have to say if you are wanting to read about a whiny, weak, sweet female main character yeah this book isn't for you because Margaret just doesn't roll that way ;) If you are looking for a bad-ass, independent, sometimes bitchy character who doesn't whine all the time and stands up for herself then my friends this is the book for you!

Frankie DeLuca isn't your average women, whilst she may look all beautiful and delicate there is a lot more to her than meets the eye. At the beginning you see her character as cold, bitchy and in control. Its what you have to be when you are a Mob Boss. In a world of crime, power and money you have to toughen up and there is no time for normal things, normal can get you killed because when you look at it being a Mob Boss isn't a normal job. After her father died she had to take over and now this is her life.

**"..I'm not good, I'll never be good. I give orders that would give you nightmares. I can destroy anyone with a simple look. Do you understand that?.."**

Jeremy Miller is a Senator. After his father dies he decided to follow his footsteps and now he wants to rid the area of crimes taking place. He wants to stamp out organised crime and can't be bought off. Little does he know his life will be flipped and lines between good and bad will become blurred. It all happens when Frankie knocks right into Jeremy. They have a connection, chemistry and much more.

What will happen when Jeremy finds out that the connections between DeLuca's and Miller's runs deep.

**How can one man look so perfect and be so gorgeous yet be a pain in my fucking arse. Jeremy Miller's a Senator.**

Can a mob Boss and Senator be in a relationship? Will the past connections bring them together or rip them

apart? With dangers all around how long will it all last?

At first I felt like oohh I don't really know about this, I love an alpha male so when I read this and its like Frankie is running the show I felt out of my comfort zone. I had to question the fact that why is it okay when its the guy but when its a women being like uhm Alpha female? ( weird right?) it made me feel slightly uncomfortable. Well at first I felt like Jeremy was being a bit of a pussy then later on he kind of takes back the control its more balanced. I liked that it was different , I liked watching their relationship change throughout. How Frankie gives up her control. She has always had to take control because that who she is, that's how she was raised and being a Mob Boss you have full rein to give it up feels like a weakness. Giving it up for Jeremy is different..

### **"I need you and I want you. My life for yours, Frankie."**

This book is a stand-alone and is in Frankie's POV. I would have liked some parts to be in Jeremy's POV I wanted to know more about him and how he felt throughout this book.

Okay now the epilogue oh my.. I did not expect that at all!! Like why? My heart hurt! But yeah I got over it ~~it's a lie I am dying here!~~

### **Michelle says**

I first want to say that I hate not liking a book. I am not difficult to please, not at all. But there were just too many things with this story did not allow me to like it. I appreciate the hard work that any author puts into their work and the risk that they take when they hit that publish button - putting their heart and soul out there for the masses to either embrace or crush. That takes guts and balls.

There are a ton of great reviews out there on this one, but sadly for me this one just missed the mark.

So let me get to the gist of the story, which by the way I loved (it just never came together for me). A mob boss and a senator. Different circles, different worlds of wrong and right. Colliding in passion and desire. The blurb on this book sold me, it reeled me in and it definitely did what it was intended to do. A story of two complete opposites, drawn together despite the odds.

#### **What I did enjoy:**

Dirty sex and dirty talk. No doubt Jeremy was filthy in bed and it was glorious.

The idea of this story was great, execution of it, for me fell flat.

These two things alone are really what left me hitting the 2 stars instead of the one.

### Where did this go wrong?

The start of this story was choppy at times.

Instant love. Now, this is something that I usually don't gripe over. But this was whiplash instant love. These two crash into each other and suddenly they are ready to sacrifice their lives for one another days later. No build up, no past connection revealed through inner thoughts.

Frankie is a 32 year old strong female, a mob boss... until her age was revealed I had been expecting to find that she was in her twenties. Her inner dialogue was immature at times; her phrasings and her general tone was just off.

Although the sex was hot and filled with filthy commands, there was a lot of it. With just over 200 pages, sex filling up quite a bit of it left the story as a secondary part. Jeremy also didn't struggle very hard with his morality. I expected a romance where the clash of good & evil would be clear, not a mess of gray.

For the first time I was considering just shelving this as a DNF, but I thought maybe the second half would reel me in somehow. By the time I got to the last chapter I found that my issues were still present, they might have shifted more to my lack of connecting with any of the characters rather than the initial peeves I had - but they were there none the less.

The epilogue.... (view spoiler)

I am one of the lucky ones who have read this book by Margaret and I was given a ARC for a honest review.

Where to start, This is the story of Frankie a female mob boss and the man she calls The Senator.

I was drawn into this book from the very first sentence. I seriously did not want to put it down. I had to make sure I had everything done so I could sit down and read it with no one bugging me. The Author told me it was a little bit different and it was and it wasn't if that makes sense at all. I fell completely in love with both characters. I laughed and I cried but worth every tear that I shed. I don't like to give out spoilers in a review especially a book that has not been released yet but I will say that this book and this author will be worth the money that you spend. I know she has put a lot of her heart and soul into this book and as a new Author I hope and pray that this book makes Margaret quickly rise to the top because yes people it is that good. If you miss out on purchasing My Life For Yours you are missing out on one of the best books that I have truly read in a long time. Add this to your list and buy it when it comes out.

**6 STARS \*\*\*\*\***

### **One of the best books I have read. Period.**

*The ARC for this book was provided to me by Margaret McHeyzer for honest review.*

People don't seem to like a book because it provokes emotions that they don't like. However as an author having the ability to stir up those emotions, good or bad, in the first place is a credit to them. This book turned on every possible emotion and when reading Margaret's books you need to be willing to understand and accept all those wonderful emotions.... If you open this book with this thought in mind: "SHOCK ME" then you'll truly enjoy the read.

I have read and loved Margaret's other goodreads in the "HiT" Series however Margaret's newest stand alone that is due for release on November 18th "My Life for Yours" takes her work to the next level.

Frankie Deluca has risen to the top of her Mob boss family. She is a diamond in the rough, takes no prisoners, and runs a well oiled operation with her father's close friend "G"

Jeremy Miller is a Senator because he wants follow in the foot-steps of his own father. Jeremy is private school, well educated and clearly has never gone without.

When Frankie runs into Jeremy at one of her legitimate establishments there are sparks, sure Frankie is resistant....

**"You do know who I am don't you? Just in case you think I'm Cinderella or Snow fucking White."**

but really.... she knows she wants it....

from the very beginning Frankie and Jeremy are HOT, and then HOT all quickly turns VOLCANIC..... The connection and encounters between Frankie and Jeremy are truly some of the most erotic and well written scenes I have read....

In true Margaret McHeyzer style there are twists and turns around every corner and by the end of it I felt every possible emotion, so much so I sat on the couch and stared at my kindle for about 20 minutes just processing what I had read. As soon as I processed I slid the progression bar back to the start and read it over again.

I can't tell you anymore without giving spoilers away, but what I can tell you is that you need to spend the time and money to read this wonderful, wonderful story.

Well Done Margaret, every credit to you on an amazing read.
