#### **Wow!!**

Purity Dotson really did a great job with this story. It looks like Dogada and Erica are always in the trenches when it comes to children. I hope they are able to get Lil King back with no problem and Dogada makes it. I gave this book five stars.

This book was a sure page turner. I loved the bond that Dogada and Erica shared as well as their relationship. It started off rocky, but ended up beautiful. Can't wait for the second part to this great read!

#### **Great Read**

Great book... I'm glad that Erica left Malachi.. He couldn't love her, he was beyond disrespectful. He brought his mistress and his suppose to be baby in the home him and his wife shared. And come to find out the baby wasn't his. I had a feeling thst Erica and Dogada was going to.end up together. I hate what happen to him with his son and wife. That ending though.. I hope him and the baby get away and be ok.

### **Taz Will says**

I was into this one even with the beginning being a hot mess. I thought for sure Erica was going to turn into a hot mess and take me off this one. I was tired of Dogado and his "Rude Boy" talk before he was even two chapters in the story. The two together seemed like a good start but the mess he went through was already enough to have me read the next one. The ending has me wanting the next one asap.

#### **Definitely Amazing**

Malachi knows he was trifling and lowdown for what he did to Erica in the beginning. Erica reaction was like any other sane woman when her husband do something so disrespectful. Erica went through hell and back with a man who wasn't worth two cents. However she ended up finding her strength to open her heart up again to someone who had more in common with her. Dogada was broken when tragedy struck close to home. The guilt of his own actions was eating away at him to the point he blamed himself for the loss he suffered. A chance meeting taught him to be a better man and also allowed him to have a second chance. Amber let a love for a man cloud her judgement and led her to do the unthinkable. I can't wait to read part two of these story because the way it ended had me in shock.

### **Kitani says**

Lawd I can't wait for part 2. Malachi was as bitch made as they came. He didn't appreciate the one he had at home only to get played by the one he constantly chose. I felt bad for Erica because she experienced so much dealing with the wrong one. She put her happiness on hold only to be slapped in the face once everything was revealed. Dogada had his share to choose from Amber's years of pain finally caught up with him. I hate it had to come to that but it caused him to take a step back and realize all his wrongs. Tori and Jade were both a mess but I needed Jade to ease up just a bit. Keenan better grow a backbone and man up when it comes to his trifling wife. I figured Malachi did something underhanded to get Erica's attention once he realized she wanted more for herself. Titi really had me like wtf cause chick was acting kind of pressed. She needs to let go of e animosity because although Dogada played a role in Amber's decision it was ultimately her choice to take that route. Erica nor Dogada were prepared for what would come about but I'm glad they were making each other happy. I just hope everything is good and no harm is brought to King because one doesn't know how to deal with their pain or can't stop playing the blame game.

### **Loved it!**

This was a very good read. The drama, lying, cheating and secrets kept me flipping the pages. Craziness at its best. Malachi was a lowdown dirty dog. I despised him. How could he do Erica like that. I'm getting mad all over again just trying to write this review. I'm so glad that she now has Dogada in her life.

### **Good read**

The females in this story like snatching babies! That's not cute at all! I know Dogada is gonna paint the city red when he makes it out of the hospital. At least his brother is a cop so he had a little leverage. Can't wait the next book drops. I hope Keenan gets a back bone and leave his wife for real this time!

### **Yes in love with a ride boy!!!**

I stumbled across this book but boy the author did not disappoint I love the relationship and bonds of the characters definitely a page turner you guys don't want to miss this action pack drama and boy oh boy that cliffhanger well since part 2 is already out let me get it and finish this series....

### **Good**

This book had me a little in my feelings by what Malachi did to Erica. Its something that happens a lot. He figured he could keep doing her wrong and not have anything to happen. Remember there is a thing called karma that will come back to get you. Erica finally finds someone who looks at her the way she needs. Jade has things she needs to work on. Her son is her heart but she a little over protective. She finally opens up and allows him to be a child. Now she wants Keenan who has to fix his life first before they can be together. Dogada has a past and someone wants him to feel pain. Will he survive what they bring his way? Will Erica be able to withstand everything especially losing another baby? Ready for part 2 to see what will happen.

baby she was wrong for that..but wait in on the next installment

**All Good!!**

When I chose this story I was under the impression that I was getting an over the top biker story. Well let me tell you this was so much more! The writer manages to capture you and get you so into the story you can't imagine ever stopping till the end. This was such a really entertaining and enjoyable experience. The characters are so relatable and you want them to win. I love the way the chemistry is and the writer does the effortlessly. This was a good story done well and made you want to know what happens to the couples in the story. This is so book club worthy!
