## **Triple Beat** Mari Carr

Dani was 17 years old when she ran from New Orleans like a thief in the night. With no idea where she was going or how she'd survive, she was certain of just one thing—she'd never again step foot in the Big Easy. Now, time and circumstances have made her a liar. After twelve long years, her beloved foster family, the Lewises, have tracked her down. And so has the very person who drove her away—her father.

Together with her best friends, Aiden and Bryson, Dani is standing at the precipice of success. Their band, Closing Time, has just signed with a major label and their star is on the rise. But Dani can't enjoy any kind of future while constantly looking over her shoulder, waiting for the past to catch up. It's time to return to New Orleans...time to confront the face that's always haunted her nightmares.

Aiden and Bryson have long suspected Dani is hiding something, some dark secret she refuses to confide. When she leaves Nashville without a word, they follow. How can they not? What they feel for her...what they want from her...won't allow them to let Dani face her demons alone. Whether she's ready to believe it or not, over the years, the men have come to know a few things for certain: they're stronger as a trio. And three hearts beat better as one.

## **From Reader Review Triple Beat for online ebook**

### **Tanja Williams Hancock says**

#### **Triple the Happiness!!**

Another fantastic story by author Mari Carr! Triple Beat, part of the Big Easy series takes place in New Orleans, but the characters, Dani, Aiden & Bryson are the big hits. Dani is independent, feisty, a talented musician & songbird and finds success professionally & personally despite a horrible childhood. Aiden & Bryson, best friends, band mates with Dani and the rocks she's shared for six years. This trio has established a solid foundation but it's put to the test when Dani's secrets begin to unravel. Embarrassed and ashamed, she insists on fixing her problems alone. The guys are there to help, but can this trio work together and take on the past?

Well written, fast paced, excellent editing, scintillating and superior storytelling. Characters are well thought out and a happy ending is the best part. Looking forward to reading more of the Big Easy series.

### **Synthetic Darkness says**

I really need to get in to the habit of checking goodreads before I jump feet first in to a book.

Well..... I didn't do that with this book I jumped right in feet first and promptly fell right on my face. I loved this book! At one point I did wonder if this book was part of a series (to many family members in relationships) but I never dreamed it was the fifth book!

I almost immediately fell in love with Dani, Aiden, and Bryson at the exact same time I instantly wanted to murder her "father" \*glares at the screen\* whew still want to murder his butt ooooo wait never mind I'll just give him to the sisterhood (fern michaels series for those that don't know).

Was I the only one who almost jumped for joy when they finally got together? I literally had the biggest smile on my face while simultaneously think about damn time. If I really had any critique about this story it would be that I wanted it to be longer and not end so fast. Now I'm not sure what to read next.

I will definitely come back to this book and series sometime though.

### **Krys says**

#### **Awesome**

Beautiful intense and a little suspenseful.....

While her past is heartbreak her future is looking amazing with the help of her long lost foster family and her band mates.

Read to see what's in store for this amazing group of characters. Fore warned you will most likely be hooked to this series after ward

## **Priscilla Robinson says**

### **Short but good**

I love this author and how she is able to make non conventional seem like the norm. This book touches on a Dani and may have some triggers for readers so pay attention to the warning in the front of the book. For a short read this was really good as it still had a nice plot, some drama and of course some heat.

## **Robin says**

### **Wow! This book was one of my best reads in a long time.**

I loved this book. It has a great storyline. Yes that's what I said a Great storyline. Keri Carr did a terrific job on this one. Triple Play is not a book to read if you don't like to read about sex or ménage relationships. But it all fits together in this book. I would not recommend this book to under 18, only because of the , well you know I just told you. LOVED IT. Thank you.

---

## **lovestoread says**

Holy wow! I love this story. So much terror in Dani's life and its coming back to haunt her. Dani has come up in the world since she took off from New Orleans all those years ago. But she has come back to sort her demons and reunite with her family. Only trouble is....her bandmates beat her to it and they are not easy to shake.

Bryson and Aiden are there for Dani even though she doesn't want to bring them into her past. When they rush to comfort her after a particularly bad nightmare, things change for them.

Hot stuff and such a happy ending.

## **D.K. says**

### **Could have been better**

Overall, this could have been a great book except for the father's story line. I understand his story line while she was a minor but for him to wanting to rape his 25-27 year old daughter is just nasty and I felt totally

ruined this book. I could have understood him stalking her to get revenge for sending him to prison but all his threats and stalking just to finish the attempted rape I just could not rap my head around it. Sorry this book was a major fail for me.

---

### **Michelle Quintana says**

A very quick and enjoyable read. I wish that this book would have been longer because at times it seemed like Dani, Aiden, and Bryson's stories were rushed. Told from multiple pov's, this book has suspense, chemistry, and action. When Dani is located by her former foster brother Jet Lewis, she wants to go back to see the family but is afraid to run into her father. When she starts receiving threatening messages from her dad, she feels like she has no choice but to go back and confront him once and for all. Only problem is, she doesn't want Aiden and Bryson there because she doesn't want them to know about what happened to her. They end up following her to New Orleans anyway and the first night there, they finally give in to their secret fantasies. Dani is convinced it is a one time thing because there is no way a relationship can work between the three of them. Aiden and Bryson want more with her but they also don't know things can actually work. When they meet her foster family, they discover that there might be a way to make things work. Meanwhile, Dani comes face to face with her dad and the showdown she pictured doesn't go the way she had planned. Aiden and Bryson come to the rescue and Dani realizes she can have it all.

#### **Couldn't put it down!!**

This isn't the first book that I've read by Mari Carr and it most definitely won't be the last! This is however the first review that I have left for her work, and I just have to say I was amazed at how real the story was and the raw emotion that she made me experience. I just love it when a book can take me to another reality. It's the whole point of picking up a book and this author can deliver!

Loved It!!!

---

### **Cyn Mistress Kitty says**

This was my least fav of the series. Not enough backstory and I don't like stories where the people have been together for years and then suddenly they fall in love and bed. Also, her foster brother was Caliph in all the other books and now he is Caleb? HUH?

---

### **Whispers From says**

#### **Great story**

Dani is a guitarist in a band with her two best friends, Aiden and Bryson. They have signed a record deal and is about to go on tour. Her foster brother finds her and convinces her to visit. After running for twelve years from a past she has tried to forget, it's catching up with her. Her father abused and almost raped her when

she was younger. Now he's out of jail and has somehow found her. She leaves without telling Aiden and Bryson and finds them in her room when she arrives. They start a sexual relationship but she still hasn't told them about the threatening calls from her father. She is ready to face him but on her terms until he kidnaps her. Can the guys get to her in time to save her?

Sex. Threesome. Edge of your seat suspense. And an evil father.

---

### **dawn bennett says**

#### **Loved it**

I really liked the book some of our you knew what was coming but still always a little extra. The abuse to someone young is hard but unfortunately it's a sad truth that people need to realise they are not at fault and it touches on that , really liked how it shows you can get past it and live a normal life.

---

### **Katherine says**

A secret no matter how well hidden will always come to light. A book that reminds us it's the family we create around us that's the most important thing not the one that's biological. Throw in a menage, and done hot rock stars and journey get a story that's completely compelling.

### **Rene' Hurt says**

#### **Love at the end of the tunnel.**

This book takes you from a really bad situation to a very happy place. Dani is young woman on the run and she can sing. She meets two men that can play and sing also. Bryson and Aiden has been in love with her for years. While she was on the run her foster family is trying to find her , will they. There is lots of emotions , scenes that keep you on the end of your set and so very hot sexy one.
