Tropical Sin (A Sexy, Beach Romance Novella) Lexxie Couper

Infamous Nick Blackthorn is looking forward to some downtime as he goes incognito at the sinfully exotic Bandicoot Cove Resort. He's no stranger to the hedonistic lifestyle of sex, drugs, and rock and roll, but he's a little surprised to be instantly drawn to a couple so sexy all he can think about is the three of them...together.

McKenzie Wood needs her BFF to pose as her partner at an island resort as part of her cover while she's chasing a hot story. Luckily, pulse-poundingly gorgeous firefighter Aiden Rogers is always up to any challenge.

No one would believe Aiden can face down any fire but can't tell his best friend he's in love with her and would like to do some seriously sinful things to her. When she asks him to go away with her, it seems like the perfect opportunity to change the status quo.

The island heat burns away inhibitions, but this threesome is rocked when secrets come out and hearts and truths are exposed.

Each book in the Bandicoot Cove series is a standalone story that can be enjoyed out of order.

Series Order:

Book #1 Tropical Sin

Book #2 Paradise Found

Book #3 Island Idyll

Book #4 Sunlit Surrender

Book #5 Sunset Heat

Book #6 Moonlight Mirage

2.5 stars rounded up

Mackenzie (Mack) Wood (Mason's—Paradise Found—sister and BFF of Kylie) is a tabloid reporter. Her best best friend is Aidan, who has been in love with her forever but has never found the courage to say so. Mack spots Aussie singing sensation Nick Blackthorne at the resort and wants an exclusive with him for her paper and, because there are rumours that Nick is bisexual, puts Aidan up to hitting on Nick to see where the story goes. I liked Aidan and Mack's interaction quite a bit. It was clear that they had deep feelings for each other and I felt their trip to HEA was believable and I do enjoy a friends-to-lovers story. Where I came a bit unstuck was when Nick joined the picture. I found their easy acceptance of Nick into their newly found sexual relationship a bit unbelievable and the information about Nick's backstory felt a bit out of place and heavy for this type of story. The interlude with Nick is just that and I was happy that Aidan and Mack would head off into the sunset together.

Shei Belikov says

Cuando uno lee un libro de este tipo sabe a lo que va, así que siendo el tipo de libro que es, no está tan mal (si buscas leer escenas sexosas), sin embargo personalmente no me cuadra mucho que una pareja que apenas va a comenzar y a minutos de tener su primera vez decida tener un trío y que después de la acción entonces ya no se sientan seguros de lo que hicieron y bla bla bla.

Me gusta leer libros de tríos, pero odio que lo hagan y luego haya arrepentimiento y celos y miedos y bla bla, supongo que que el tigre no puede cambiar sus rayas, y aun en los libros sexos quiero un poco de color de rosa jajajaja.

Por otro lado, me parece muuuuy absurdo el argumento de que el cantante logra recuperarse gracias a compartir un trío con una pareja que se ama, realmente??? A dónde vamos a parar con esas ideas???

En conclusión, bye bye a este serie y muy probablemente también a su autora.

Guilty Pleasures Book Reviews says

Piper's review posted on Guilty Pleasures

Once again I have fallen in LOVE! Another story by Lexxie Couper that I did not want to end.

McKenzie, a writer for a tabloid and Aidan, a firefighter (HOT), have been BFFs since high school. They have been invited to the soft opening of the resort Mack's friend is running. Aidan has been in love with

Mack for a very long time, but has done nothing about it. He is her best friend and her rock.

While at the resort Mack notices that none other than Nick Blackthrone, the worlds most famous rock star, is at the resort as well. Nick is suppose to be fresh out of sex rehab and Mack wants to get the real story.

Nick is lost. Things have happened in life that has made the "music" in this rock star die. Nick encounters Mack and Aidan and he can not stop thinking about the couple. When he begins to "hear" the music again by thinking about the couple he knows that they may be the key to bringing him back to "life".

I fell in LOVE with Mack, Aidan and Nick. I love a friends to lovers story and then you throw in a SUPER HOT rock star, what more could you want. When Nick does give Mack her story, it is not the story she thought she would get and I fell more in love with Nick (Nick's story will continue in Lexxie's next release Loves Rythem).

This was another Lexxie story that made me laugh and cry and of course true to one of the reasons I LOVE Lexxie, the sex is HOT HOT! This book is part of the Bandicoot Cove series, but you do not need to read the other books to enjoy this story. This is another great story by Lexxie about realizing your best friend is THE ONE and being a witness to finding true love can change your life.

Happy Reading!!

4.5 Stars

AerinLuvs says

First book I've read by this author. Very well written for a short erotica novel. It has a ménage scene or two but primarily a M-F friends to lovers story that was really good! Tropical setting in Australia.

Jenn - WebbWeaver Reviews says

4.5 Stars.

Wow! I don't know how this author does it, but she can take a situation that I might find somewhat unpalatable, and manage to turn it into something sweet and loving.

The main story here is about two life-long friends finally realising their true love for each other. It was truly touching.

The secondary story, although , very strong throughout the book, is about a world-famous rock star who has lost his 'soul' can't write his music and is basically in despair.

The love between the first couple assists him to find his soul and music again.

It's well written and enjoyable. A fabulous story!

Tez says

A common problem in romance fiction is that the main drama/conflict/problem/plot actually doesn't feature

IN the book, but much earlier.

In other words, the authors are writing the wrong stories. Their ideas for the right stories are evident, yet these gems don't get the spotlight, instead hidden away within the space of a few pages of a way less interesting tale.

Reading Chapter Eight, hopefully you, too, will prefer a story featuring Derek Schulze than anyone else. His may not have a happy ending, but it's bloody fascinating and emotional.

But since Derek doesn't get a proper novella – he gets just those few pages, and they were more about Nick – dedicated to him, this serious note in Tropical Sin kind of feels chucked in.

tyrianpurple says

5 stars love muse!

this didnt come out as what i expected before. in a good way. so far two from Bandicoot Cove series proved me wrong. this turns out to be not that typical shallow menage erotic romance. and hell, so makes sense! and beautiful. especially the two MC chemistry. darn i can even feel what Nick thinks about Mack and Aidan.

Kensington Leigh says

[Having a rockstar write a song for me? Ultimate fantasy and Mack and Aidan get one. *THUNK* (hide spoiler)]

Tabatha says

Yet another Lexxie Couper story that I just loved, which came as no surprise to me at all. Not only was this one sizzling hot read, but it also brought out all kinds of emotions. I was laughing, crying, and grinning ear to ear as I fell in love with these three characters. I absolutely loved all these stories in the Bandicoot Cove series, but I really enjoyed this friends to lovers story and I highly recommend it.

Stacia (the 2010 club) says

Adult review for the fact that explicit and eyebrow-raising phrases will be most likely be popping up in here.

My. Oh my. Why? Sigh. No, I'm not rhyming on purpose.

I'm not sure how it's even possible that I didn't really like *Tropical Sin*. How could I have liked Nick in Love's Rhythm but not ended up liking him in this story? I don't get it.

Slight spoilers ahead.

Oh wait. Yes, I do get it. Here's why : he was a third wheel who didn't belong in the picture. That's right : **a rock star god was the third wheel in a story that should have been a coupling.** You can't put two people together who are JUST figuring out that they are in love with each other and make their first time having sex shift immediately into a threesome and still expect me to have that "awww, look they found true love feeling." What...the...hell?

Before I get the "it's erotica" lecture, let me lay it out...I have enjoyed reading menage in the past. I have nothing against a spicy menage story - it doesn't matter if the situation involves people who are playing casually, or if it's with a couple looking to bring in another party. However, this story just made the menage situation awkward.

Why would Aidan hand over the reigns *immediately* after FINALLY getting the girl he had been pining away for? Nothing about this story felt heartwarming or fulfilling. Nick came across as some sort of creeper perv who was wanting to share in someone else's moment of completion. I adored Nick in his own story with his own HEA. In this prequel, I couldn't stand him and wanted to kick him out of the bedroom.

Menage can be sexy in the right circumstance. Voyeurism/exhibitionism can be sexy in the right circumstance. *Trying to insert a person into a story who doesn't belong there at that point in time is not sexy.*

It didn't help that the terminology was off the charts ridiculous. I've read some wonderful erotica lately which hasn't had to resort to lingo such as :

...with his tackle - still semi-hard and probably glistening with McKenzie's juices - on show

...the scent of your pleasure streaming into my body with each breath I take...

...the need to taste those pearls of Aidan's pleasure...

...its tip was anointed with tiny beads of pleasure...

...he slid the glass dildo into her sodden channel...

I hate when I read an erotic book that's been published recently which makes me feel like I'm reading something from 10, 20, 30 plus years ago. I spotted an *always sure to make me feel disgusted* phrase, "warm cream gushed from her pussy." It even coated his hand, haha. This woman must be a fire hydrant. Every time I see gushing cream, it just turns my stomach because it makes me think of an oozing infection, not the actual and natural process of a woman's body showing arousal.

So, yeah. Not a fan of this story. I'm going to say that I've easily read a ton of erotic shorts and in many cases, I'm all for people jumping into sexy situations and having fun doing whatever crazy stuff they want to do. But I can't be sold on the friends becoming lovers aspect when the entire story is interrupted by a random person inserted **RIGHT** into the middle of when two people should be having time to explore their feelings for one another.

If you do like sweet erotic romance and happen to have a thing for hot rock stars, you might enjoy Nick's solo story *Love's Rhythm* by the same author. That one I did truly like.

Christy says

Quick read about two best friends who discover their real feelings/ love for each other with a little help from rockstar Nick Blackthorne. Good friends to lovers story e

Carol [Goodreads Addict] says

Tropical Sin is book three in the Bandicoot Cove series by Lexxie Couper. Oh...My...Gosh. This book! I am in love with it. It is melt your face off hot. But that's not all. I loved the characters, the setting, just everything.

Bandicoot Cove is preparing for their grand opening by inviting select guests for a soft opening. McKenzie (Mack) Wood and her best friend, Aidan Rogers are two of the lucky guests to be invited.

Mack is a journalist for a tabloid magazine. When she sees the biggest rock star of Australia, Nick Blackthorne, at the resort, she can't believe her luck. There are all sorts of rumors surrounding him lately and she is going to get an exclusive. This is just what her career needs. Who better to help her out than her plus one and her best friend since they were kids, Aidan.

Aidan is a firefighter. He has probably loved Mack from the day he met her. But he never told her how he felt. He couldn't chance losing her. But he recently nearly died while fighting a fire and it made him realize that he had to tell Mack how he felt. That he wanted more, so much more, than to be friends. On this beautiful tropical island, it would be the perfect setting to reveal everything, to show her everything.

Nick Blackthorne has lost his music. The words just won't come anymore. Then he heard her laugh. He turned around and saw them together, saw the way they looked at each other, even if they didn't realize it themselves, he saw it, love. And he heard the music again.

“How could two people he’d never met until today stir something so firmly believed dead? And what was he going to do about it?”

When Mack looked at Aidan in this beautiful tropical setting, for the first time, she felt something more, something unexpected, something so foreign. Did he feel it too? But he'd been her best friend forever!

“This isn’t just anyone. This is Aidan. The guy’s had your heart in his pocket since you were kids. Even if you didn’t know it.”

Nick needed Aidan and Mack. He knew it as much as he needed to breathe. He had the song inside of him, just not all of it. He needed them so he could hear the rest of the song.

When these three came together, I swear it set my e-reader on fire. It was hot, it was sweet, and it was beautiful. But what happens when it's time to leave? Is it only magical because the three of them are together? When they go home, how will it be between Aidan and Mack? Will the magic of the tropical island follow them home?

"I've got you babe." McKenzie's heart fluttered. Yes he did. On so many levels.

I loved this one. I might be in love with the author, Lexxie Couper. So turn down the A/C, ladies, and read this one. Don't say I didn't warn you.

Kim says

Find this review and more at the **kimberlyfaye reads.**

The last time Entangled released a series of standalones like this by different authors, it was the Wedding Dare series and I discovered several new favorite authors. When I saw the Scorched line was releasing (or I guess re-releasing) a series of hot, beachy novellas this summer, I jumped on the opportunity to read and review them. Who knows what I might discover this time around since I've actually not read any of the authors previously. I did realize after looking at Goodreads that these books had previously been released prior to Entangled picking them up, but they were all new to me, so I went for it anyhow.

Following Entangled's reading order, I started at the beginning (a very good place to start, I hear) with Tropical Sin. It was a good, solid, quick read. It was hot and dirty, but I got a couple feels towards the end, too. The only thing I didn't quite get was why it took a third party to make McKenzie and Aiden finally admit their feelings for each other went beyond friendship. It seemed pretty obvious to me that these two were pretty perfectly suited for each other and, while I'm all for menage, it seemed a little disjointed to me. Don't get me wrong, it was hot. Nick was an interesting addition to the storyline, but I'm not sure he was a necessary one. I'd have been just as happy to read about McKenzie and Aiden embracing their feelings, getting it on and moving forward as I was reading about (what I felt like) was an unnecessary third party.

All that said, Tropical Sin was a good, sexy read. Since it's a novella, it only took me a couple hours reading time to finish and it was time fairly well spent. I'm looking forward to seeing what happens with the other characters in the Bandicoot Cove series.

I received a copy of this book for free in exchange for an honest review. This does not affect my opinion of the book or the content of my review.

FAVORITE QUOTES

"He's been looking out for your heart since the day he met you, holding it in those massive bloody hands of his and making sure no one hurts it. He would do anything for you, you know that, right?"

"A face of an angel with filth on her mind. I pray to burn in her fire, I pray to die in her arms."

Awilk -never sleeps- says

Not a lot to say about this book. It wasn't long enough for me to fall for the characters, and with more time I am sure I would have. I read this as I wanted to read Love's Rhythm, which is Nick's book, who appears in this one.

I don't regret reading this, as it was quick and steamy, but short reads like this always leave me wanting more.

Doris says

When love is right in front of you and you don't realize until someone else sees it for you and points out the obvious. When best friends firefighter Adian and journalist McKenzie come to a soft opening of a tropical resort which one of their friends manage, they find much more than they had bargained for. McKenzie sees someone else who is at this opening and it is none other than famous rock star Nick Blackthorne. McKenzie is surprised to see him here because last she heard he was away at some rehab for sex addiction. What she wouldn't give for an interview with him for her trash magazine she currently works for?! Tropical Sin couldn't be a better title for this book because it gives you a scorching hot, naughty read along with a HEA.

I received this book as an ARC from NetGalley for a freely given and honest review.
